Highlights of Changes

This *Medical Aid Rules and Fee Schedules* (fee schedule) is effective for services provided on or after July 1, 2002. These highlights are intended for general reference; they are not a comprehensive list of all the changes in this fee schedule. Refer to the 2002 CPT® and HCPCS coding books for complete code descriptions and lists of new, deleted or revised codes.

Washington Administrative Code (WAC) and Payment Changes

- Cost of living adjustments were applied to RBRVS and anesthesia services and to most local codes.
- WAC 296-20-135 increased the RBRVS conversion factor from \$49.60 to \$50.51 and increased the anesthesia conversion factor from \$2.70 per minute (\$40.50 per 15 minutes) to \$2.78 per minute (\$41.70 per 15 minutes).
- WACs 296-23-220 and 296-23-230 increased the maximum daily cap for physical and occupational therapy services to \$102.65.
- WAC 296-23B became effective January 1, 2002. This WAC implemented minimum quality standards and a new payment method for ambulatory surgery centers.
- WAC 296-23A was amended and a new section was added effective January 1, 2002. The new section implemented a new payment method for hospital outpatient services.

Policy Additions, Changes and Clarifications

Introduction:

- This is a new section that includes information relevant for all providers. Much of the information in this section was previously published in the fee schedule in the section titled "Overview."

Professional Services:

- This is a new section that incorporates information previously published in the fee schedule in sections titled "RBRVS Payment Policies," "Anesthesia Payment Policies" and "Specialty and Administrative Services."

Facility Services:

- This is a new section that outlines the payment policies for hospitals, ambulatory surgery centers, and brain injury rehabilitation facilities.

Fee Schedules

- The hospital inpatient AP-DRG Assignment list has been added.
- The Ambulatory Surgery Center Fee Schedule has been added.

Appendices:

- Previous publications of the fee schedule included appendices at the end of each policy section.

Chapter 296-20

General Rules

WAC 296-20-010 General information

- (1) The following rules are promulgated pursuant to RCW 51.04.020 and 51.04.030. The department or self-insurer may purchase necessary physician and other provider services according to the fee schedules. The fee schedules shall be established in consultation with interested persons and updated at times determined by the department in consultation with those interested persons. Prior to the establishment or amendment of the fee schedules, the department will give at least thirty calendar days notice by mail to interested persons who have made timely request for advance notice of the establishment or amendment of the fee schedules. To request advance notice of the establishment or amendment of the fee schedules, interested persons must contact the department at the following address:

Department of Labor and Industries
Health Services Analysis
Interested Person's Mailing List for the Fee Schedules
P.O. Box 44322
Olympia, WA 98504-4322

The department or self-insurer will require the current version of the federal Health Care Financing Administration's Common Procedure Coding System (HCPCS) Level I (or CPT) and II codes on January 1, of each new year. CPT refers to the American Medical Association's Physicians' Current Procedural Terminology codes.

The department and self-insurer will allow a "grace period" in which codes deleted each year may be submitted for payment. This grace period will start on January 1 of each year and the length of time will be determined by department policy.

The adoption of these codes on an annual basis is designed to reduce the administrative burden on providers and lead to more accurate reporting of services. However, the inclusion of a service, product or supply within these new codes does not necessarily imply coverage, reimbursement or endorsement, by the department or self-insurer. The department will make coverage and reimbursement decisions for these new codes on an individual basis.

If there are any services, procedures or narrative text contained in the new HCPCS Level I and II codes that conflict with the medical aid rules or fee schedules, the department's rules and policies take precedence.

Copies of the HCPCS Level I and II codes are available for public inspection. These documents are available in each of the department's service locations.

Copies of the HCPCS Level II codes may be purchased from:

The Superintendent of Documents
United States Government Printing Office
Washington, DC 20402
(202) 783-3238

Copies of the Level I (or CPT) codes may be purchased from:

The American Medical Association
Chicago, Illinois 60601
(800) 621-8335

In addition to the sources listed above, both the Level I and II codes may be purchased from a variety of private sources.

- (2) The fee schedules are intended to cover all services for accepted industrial insurance claims. All fees listed are the maximum fees allowable. Practitioners shall bill their

usual and customary fee for services. **If a usual and customary fee for any particular service is lower to the general public than listed in the fee schedules, the practitioner shall bill the department or self-insurer at the lower rate.** The department or self-insurer will pay the lesser of the billed charge or the fee schedules' maximum allowable.

- (3) The rules contained in the introductory section pertain to all practitioners regardless of specialty area or limitation of practice. Additional rules pertaining to specialty areas will be found in the appropriate section of the medical aid rules.
- (4) The methodology for making conversion factor cost of living adjustments is listed in WAC 296-20-132. The conversion factors are listed in WAC 296-20-135.
- (5) No fee is payable for missed appointments unless the appointment is for an examination arranged by the department or self-insurer.
- (6) When a claim has been accepted by the department or self-insurer, no provider or his/her representative may bill the worker for the difference between the allowable fee and the usual and customary charge. Nor can the worker be charged a fee, either for interest or completion of forms, related to services rendered for the industrial injury or condition. Refer to chapter 51.04 RCW.
- (7) Practitioners must maintain documentation in claimant medical or health care service records adequate to verify the level, type, and extent of services provided to claimants. A health care practitioner's bill for services, appointment book, accounting records, or other similar methodology do not qualify as appropriate documentation for services rendered. Refer to chapter 296-20 WAC and department policy for reporting requirements.
- (8) Except as provided in WAC 296-20-055 (Limitation of treatment and temporary treatment of unrelated conditions when retarding recovery), practitioners shall bill, and the department or self-insurer shall pay, only for proper and necessary medical care required for the diagnosis and curative or rehabilitative treatment of the accepted condition.
- (9) When a worker is being treated concurrently for an unrelated condition the fee allowable for the service(s) rendered must be shared proportionally between the payors.
- (10) Correspondence: Correspondence pertaining to state fund and department of energy claims should be sent to: Department of Labor and Industries, Claims Administration, P.O. Box 44291, Olympia, Washington 98504-4291.

Accident reports should be sent to: Department of Labor and Industries, P.O. Box 44299, Olympia, Washington 98504-4299.

Send provider bills by type (UB-92) to: Department of Labor and Industries, P.O. Box 44266, Olympia, Washington 98504-4266.

Adjustments, Home Nursing and Miscellaneous to: Department of Labor and Industries, P.O. Box 44267, Olympia, Washington 98504-4267.

All correspondence and billings pertaining to crime victims claims should be sent to Crime Victims Division, Department of Labor and Industries, P.O. Box 44520, Olympia, Washington 98504-4520.

Crime victim claims have six digit numbers preceded by a "V."

All correspondence and billings pertaining to Self Insured claims should be sent directly to the employer or the service representative as the case may be.

Self Insured claims are six digit numbers preceded by a "S," or "T."

Communications to the department or self-insurer must show the patient's full name and claim number. If the claim number is unavailable, providers should contact the department or self-insurer for the number, indicating the patient's name, Social Security number, the date and the nature of the injury, and the employer's name. A communication should refer to one claim only. Correspondence must be legible and reproducible, as department records are microfilmed. Correspondence regarding specific claim matters should be sent directly to the department in Olympia or self-insurer in order to avoid rehandling by the service location.

- (11) The department's various local service locations should be utilized by providers to obtain information, supplies, or assistance in dealing with matters pertaining to industrial injuries.

WAC 296-20-0100 Chiropractic advisory committee

- (1) The director or the director's designee shall appoint a chiropractic advisory and utilization review committee.
- (2) The committee will function as an advisor to the department with respect to policies affecting chiropractic care, quality assurance, clinical management of cases, utilization review, and the establishment of rules. It shall advise and assist the department in the department's relationship with providers of chiropractic care, and assist the department in ensuring that injured workers receive good quality chiropractic care in a safe and effective manner.
- (3) The chiropractic advisory committee shall:
 - (a) Advise the department on standards as to what constitutes effective and accepted chiropractic treatment, for use by attending chiropractors and for chiropractic consultants to use in reviewing cases referred for consultation;
 - (b) Advise the department on standards and minimum credentials for chiropractic consultants and the content of consultant reports; and
 - (c) Review the performance of individual chiropractors and chiropractic consultants for conformance with standards and requirements and advise the department of instances where standards and requirements have not been met.

The department shall review the advice and recommendations of the committee and shall promulgate those standards and requirements which it chooses to adopt. The department shall review the advice from the committee on the performance of chiropractors and shall act upon this advice at its sole discretion.

- (4) The committee will meet on a monthly basis or as needed. The department will reimburse members of the committee for travel and incidental expenses related to the meetings.

WAC 296-20-01001 Medical advisory industrial insurance committee

- (1) The Washington state medical association shall appoint an advisory and utilization review committee composed of nine members, one of whom shall be an osteopathic physician nominated by the Washington state osteopathic medical association. The remaining members should be selected from the following specialty groups: Family or general practice, orthopaedics, neurology or neurosurgery, general surgery, physical medicine and rehabilitation, psychiatry, internal medicine, and industrial medicine.
- (2) The committee will function as an advisor to the department with respect to policies affecting medical care and rehabilitation, quality control and supervision of medical care, and the establishment of rules and regulations. It shall also advise and assist the department in the resolution of controversies, disputes and problems between the department and the providers of medical care. It will also advise and assist the department in the education of members of the medical community with regard to the roles of the physician, the department and the employer in providing the needs and care of the injured worker.
- (3) The committee shall normally meet on a monthly basis or as necessity dictates. The department will reimburse members of the committee for each meeting.

WAC 296-20-01002 Definitions

Acceptance, accepted condition: Determination by a qualified representative of the department or self-insurer that reimbursement for the diagnosis and curative or rehabilitative treatment of a claimant's medical condition is the responsibility of the department or self-insurer. The condition being accepted must be specified by one or more diagnosis codes from the current edition of the International Classification of Diseases, Clinically Modified (ICD-CM).
Attendant care: Those proper and necessary personal care services provided to maintain the worker in his or her residence. Refer to WAC 296-20-303 for more information.

Attending doctor report: This type of report may also be referred to as a "60 day" or "special" report. The following information must be included in this type of report. Also, additional information may be requested by the department as needed.

- (1) The condition(s) diagnosed including ICD-9-CM codes and the objective and subjective findings.
- (2) Their relationship, if any, to the industrial injury or exposure.
- (3) Outline of proposed treatment program, its length, components, and expected prognosis including an estimate of when treatment should be concluded and condition(s) stable. An estimated return to work date should be included. The probability, if any, of permanent partial disability resulting from industrial conditions should be noted.
- (4) If the worker has not returned to work, the attending doctor should indicate whether a vocational assessment will be necessary to evaluate the worker's ability to return to work and why.
- (5) If the worker has not returned to work, a doctor's estimate of physical capacities should be included with the report. If further information regarding physical capacities is

needed or required, a performance-based physical capacities evaluation can be requested. Performance-based physical capacities evaluations should be conducted by a licensed occupational therapist or a licensed physical therapist. Performance-based physical capacities evaluations may also be conducted by other qualified professionals who provided performance-based physical capacities evaluations to the department prior to May 20, 1987, and who have received written approval to continue supplying this service based on formal department review of their qualifications.

Authorization: Notification by a qualified representative of the department or self-insurer that specific proper and necessary treatment, services, or equipment provided for the diagnosis and curative or rehabilitative treatment of an accepted condition will be reimbursed by the department or self-insurer.

Average wholesale price (AWP): A pharmacy reimbursement formula by which the pharmacist is reimbursed for the cost of the product plus a mark-up. The AWP is an industry benchmark which is developed independently by companies that specifically monitor drug pricing.

Baseline price (BLP): Is derived by calculating the mean average for all NDC's (National Drug Code) in a specific product group, determining the standard deviation, and calculating a new mean average using all prices within one standard deviation of the original mean average. "Baseline price" is a drug pricing mechanism developed and updated by First Data Bank.

Bundled codes: When a bundled code is covered, payment for them is subsumed by the payment for the codes or services to which they are incident. (An example is a telephone call from a hospital nurse regarding care of a patient. This service is not separately payable because it is included in the payment for other services such as hospital visits.) Bundled codes and services are identified in the fee schedules.

By report: BR (by report) in the value column of the fee schedules indicates that the value of this service is to be determined by report (BR) because the service is too unusual, variable or new to be assigned a unit value. The report shall provide an adequate definition or description of the services or procedures that explain why the services or procedures (e.g., operative, medical, radiological, laboratory, pathology, or other similar service report) are too unusual, variable, or complex to be assigned a relative value unit, using any of the following as indicated:

- (1) Diagnosis;
- (2) Size, location and number of lesion(s) or procedure(s) where appropriate;
- (3) Surgical procedure(s) and supplementary procedure(s);
- (4) Whenever possible, list the nearest similar procedure by number according to the fee schedules;
- (5) Estimated follow-up;
- (6) Operative time;
- (7) Describe in detail any service rendered and billed using an "unlisted" procedure code.

The department or self-insurer may adjust BR procedures when such action is indicated.

Chart notes: This type of documentation may also be referred to as "office" or "progress" notes. Providers must maintain charts and records in order to support and justify the services provided. "Chart" means a compendium of medical records on an individual patient. "Record" means dated reports supporting bills submitted to the department or self-insurer for medical services provided in an office, nursing facility, hospital, outpatient, emergency room, or other place of service. Records of service shall be entered in a chronological order by the

practitioner who rendered the service. For reimbursement purposes, such records shall be legible, and shall include, but are not limited to:

- (1) Date(s) of service;
- (2) Patient's name and date of birth;
- (3) Claim number;
- (4) Name and title of the person performing the service;
- (5) Chief complaint or reason for each visit;
- (6) Pertinent medical history;
- (7) Pertinent findings on examination;
- (8) Medications and/or equipment/supplies prescribed or provided;
- (9) Description of treatment (when applicable);
- (10) Recommendations for additional treatments, procedures, or consultations;
- (11) X-rays, tests, and results; and
- (12) Plan of treatment/care/outcome.

Consultation examination report: The following information must be included in this type of report. Additional information may be requested by the department as needed.

- (1) A detailed history to establish:
 - (a) The type and severity of the industrial injury or occupational disease.
 - (b) The patient's previous physical and mental health.
 - (c) Any social and emotional factors which may effect recovery.
- (2) A comparison history between history provided by attending doctor and injured worker, must be provided with exam.
- (3) A detailed physical examination concerning all systems affected by the industrial accident.
- (4) A general physical examination sufficient to demonstrate any preexisting impairments of function or concurrent condition.
- (5) A complete diagnosis of all pathological conditions including ICD-9-CM codes found to be listed:
 - (a) Due solely to injury.
 - (b) Preexisting condition aggravated by the injury and the extent of aggravation.
 - (c) Other medical conditions neither related to nor aggravated by the injury but which may retard recovery.
 - (d) Coexisting disease (arthritis, congenital deformities, heart disease, etc.).
- (6) Conclusions must include:
 - (a) Type of treatment recommended for each pathological condition and the probable duration of treatment.
 - (b) Expected degree of recovery from the industrial condition.
 - (c) Probability, if any, of permanent disability resulting from the industrial condition.
 - (d) Probability of returning to work.
- (7) Reports of necessary, reasonable X-ray and laboratory studies to establish or confirm the diagnosis when indicated.

Doctor: For these rules, means a person licensed to practice one or more of the following professions: Medicine and surgery; osteopathic medicine and surgery; chiropractic; naturopathic physician; podiatry; dentistry; optometry.

Only those persons so licensed may sign report of accident forms and time loss cards except as provided in chapter 296-20 WAC.

Emergent hospital admission: Placement of the worker in an acute care hospital for treatment of a work related medical condition of an unforeseen or rapidly progressing nature which if not treated in an inpatient setting, is likely to jeopardize the worker's health or treatment outcome.

Fatal: When the attending doctor has reason to believe a worker has died as a result of an industrial injury or exposure, the doctor should notify the nearest department service location or the self-insurer immediately. Often an autopsy is required by the department or self-insurer. If so, it will be authorized by the service location manager or the self-insurer. Benefits payable include burial stipend and monthly payments to the surviving spouse and/or dependents.

Fee schedules or maximum fee schedule(s): The fee schedules consist of, but are not limited to, the following:

- (a) Health Care Financing Administration's Common Procedure Coding System Level I and II Codes, descriptions and modifiers that describe medical and other services, supplies and materials.
- (b) Codes, descriptions and modifiers developed by the department.
- (c) Relative value units (RVUs), calculated or assigned dollar values, percent-of-allowed-charges (POAC), or diagnostic related groups (DRGs), that set the maximum allowable fee for services rendered.
- (d) Billing instructions or policies relating to the submission of bills by providers and the payment of bills by the department or self-insurer.
- (e) Average wholesale price (AWP), baseline price (BLP), and policies related to the purchase of medications.

Health services provider or provider: For these rules means any person, firm, corporation, partnership, association, agency, institution, or other legal entity providing any kind of services related to the treatment of an industrially injured worker. It includes, but is not limited to, hospitals, medical doctors, dentists, chiropractors, vocational rehabilitation counselors, osteopathic physicians, pharmacists, podiatrists, physical therapists, occupational therapists, massage therapists, psychologists, naturopathic physicians, and durable medical equipment dealers.

Home nursing: Those nursing services that are proper and necessary to maintain the worker in his or her residence. These services must be provided through an agency licensed, certified or registered to provide home care, home health or hospice services. Refer to WAC 296-20-091 for more information.

Independent or separate procedure: Certain of the fee schedule's listed procedures are commonly carried out as an integral part of a total service, and as such do not warrant a separate charge. When such a procedure is carried out as a separate entity, not immediately related to other services, the indicated value for "independent procedure" is applicable.

Medical aid rules: The Washington Administrative Codes (WACs) that contain the administrative rules for medical and other services rendered to workers.

Modified work status: The worker is not able to return to their previous work, but is physically capable of carrying out work of a lighter nature. Workers should be urged to return to modified work as soon as reasonable as such work is frequently beneficial for body conditioning and regaining self confidence.

Under RCW 51.32.090, when the employer has modified work available for the worker, the employer must furnish the doctor and the worker with a statement describing the available work in terms that will enable the doctor to relate the physical activities of the job to the

worker's physical limitations and capabilities. The doctor shall then determine whether the worker is physically able to perform the work described. The employer may not increase the physical requirements of the job without requesting the opinion of the doctor as to the worker's ability to perform such additional work. If after a trial period of reemployment the worker is unable to continue with such work, the worker's time loss compensation will be resumed upon certification by the attending doctor.

If the employer has no modified work available, the department should be notified immediately, so vocational assessment can be conducted to determine whether the worker will require assistance in returning to work.

Nonemergent (elective) hospital admission: Placement of the worker in an acute care hospital for medical treatment of an accepted condition which may be safely scheduled in advance without jeopardizing the worker's health or treatment outcome.

Permanent partial disability: Any anatomic or functional abnormality or loss after maximum rehabilitation has been achieved, which is determined to be stable or nonprogressive at the time the evaluation is made. When the attending doctor has reason to believe a permanent impairment exists, the department or self-insurer should be notified. Specified disabilities (amputation or loss of function of extremities, loss of hearing or vision) are to be rated utilizing a nationally recognized impairment rating guide. Unspecified disabilities (internal injuries, spinal injuries, mental health, etc.) are to be rated utilizing the category system detailed under WAC 296-20-200 et al. for injuries occurring on or after October 1, 1974. **Under Washington law disability awards are based solely on physical or mental impairment due to the accepted injury or conditions without consideration of economic factors.**

Physician: For these rules, means any person licensed to perform one or more of the following professions: Medicine and surgery; or osteopathic medicine and surgery.

Practitioner: For these rules, means any person defined as a "doctor" under these rules, or licensed to practice one or more of the following professions: Audiology; physical therapy; occupational therapy; pharmacy; prosthetics; orthotics; psychology; nursing; physician or osteopathic assistant; and massage therapy.

Proper and necessary:

- (1) The department or self-insurer pays for proper and necessary health care services that are related to the diagnosis and treatment of an accepted condition.
- (2) Under the Industrial Insurance Act, "proper and necessary" refers to those health care services which are:
 - (a) Reflective of accepted standards of good practice, within the scope of practice of the provider's license or certification;
 - (b) Curative or rehabilitative. Care must be of a type to cure the effects of a work-related injury or illness, or it must be rehabilitative. Curative treatment produces permanent changes, which eliminate or lessen the clinical effects of an accepted condition. Rehabilitative treatment allows an injured or ill worker to regain functional activity in the presence of an interfering accepted condition. Curative and rehabilitative care produce long-term changes;
 - (c) Not delivered primarily for the convenience of the claimant, the claimant's attending doctor, or any other provider; and
 - (d) Provided at the least cost and in the least intensive setting of care consistent with the other provisions of this definition.
- (3) The department or self-insurer stops payment for health care services once a worker reaches a state of maximum medical improvement. Maximum medical

improvement occurs when no fundamental or marked change in an accepted condition can be expected, with or without treatment. Maximum medical improvement may be present though there may be fluctuations in levels of pain and function. A worker's condition may have reached maximum medical improvement though it might be expected to improve or deteriorate with the passage of time. Once a worker's condition has reached maximum medical improvement, treatment that results only in temporary or transient changes is not proper and necessary. "Maximum medical improvement" is equivalent to "fixed and stable."

- (4) In no case shall services which are inappropriate to the accepted condition or which present hazards in excess of the expected medical benefits be considered proper and necessary. Services that are controversial, obsolete, investigational or experimental are presumed not to be proper and necessary, and shall be authorized only as provided in WAC 296-20-03002(6) and 296-20-02850.

Regular work status: The injured worker is physically capable of returning to his/her regular work. It is the duty of the attending doctor to notify the worker and the department or self-insurer, as the case may be, of the specific date of release to return to regular work. Compensation will be terminated on the release date. Further treatment can be allowed as requested by the attending doctor if the condition is not stationary and such treatment is needed and otherwise in order.

Temporary partial disability: Partial time loss compensation may be paid when the worker can return to work on a limited basis or return to a lesser paying job is necessitated by the accepted injury or condition. The worker must have a reduction in wages of more than five percent before consideration of partial time loss can be made. No partial time loss compensation can be paid after the worker's condition is stationary. **All time loss compensation must be certified by the attending doctor based on objective findings.**

Termination of treatment: When treatment is no longer required and/or the industrial condition is stabilized, a report indicating the date of stabilization should be submitted to the department or self-insurer. This is necessary to initiate closure of the industrial claim. The patient may require continued treatment for conditions not related to the industrial condition; however, financial responsibility for such care must be the patient's.

Total permanent disability: Loss of both legs or arms, or one leg and one arm, total loss of eyesight, paralysis or other condition permanently incapacitating the worker from performing any work at any gainful employment. When the attending doctor feels a worker may be totally and permanently disabled, the attending doctor should communicate this information immediately to the department or self-insurer. A vocational evaluation and an independent rating of disability may be arranged by the department prior to a determination as to total permanent disability. Coverage for treatment does not usually continue after the date an injured worker is placed on pension.

Total temporary disability: Full-time loss compensation will be paid when the worker is unable to return to any type of reasonably continuous gainful employment as a direct result of an accepted industrial injury or exposure.

Unusual or unlisted procedure: Value of unlisted services or procedures should be substantiated "by report" (BR).

Utilization review: The assessment of a claimant's medical care to assure that it is proper and necessary and of good quality. This assessment typically considers the appropriateness of the place of care, level of care, and the duration, frequency or quantity of services provided in relation to the accepted condition being treated.

WAC 296-20-015 Who may treat

- (1) In order to treat workers under the Industrial Insurance Act, a health care provider must qualify as an approved provider under the department's rules. The department must approve the health care provider through the issuance of a provider number before the health care provider is eligible for payment for services.
- (2) Para-professionals, who are not independently licensed, must practice under the direct supervision of a licensed health care professional whose scope of practice and specialty training includes the service provided by the para-professional. The department may deny direct reimbursement to the para-professional for services rendered, and may instead directly reimburse the licensed and supervising health care professional for covered services. Payment rules for para-professionals may be determined by department policy.
- (3) Procedures and evaluations requiring specialized skills and knowledge will be limited to board certified or board qualified physicians, or osteopathic physicians as specified by the American Medical Association or the American Osteopathic Association.
- (4) The department as a trustee of the medical aid fund has a duty to supervise provision of proper and necessary medical care that is delivered promptly, efficiently, and economically. The department can deny, revoke, suspend, limit, or impose conditions on a health care provider's authorization to treat workers under the Industrial Insurance Act. Reasons for denying issuance of a provider number or imposing any of the above restrictions include, but are not limited to the following:
 - (a) Incompetence or negligence, which results in injury to a worker or which creates an unreasonable risk that a worker may be harmed.
 - (b) The possession, use, prescription for use, or distribution of controlled substances, legend drugs, or addictive, habituating, or dependency-inducing substances in any way other than for therapeutic purposes.
 - (c) Any temporary or permanent probation, suspension, revocation, or type of limitation of a practitioner's license to practice by any court, board, or administrative agency.
 - (d) The commission of any act involving moral turpitude, dishonesty, or corruption relating to the practice of the provider's profession. The act need not constitute a crime. If a conviction or finding of such an act is reached by a court or other tribunal pursuant to plea, hearing, or trial, a certified copy of the conviction or finding is conclusive evidence of the violation.
 - (e) The failure to comply with the department's orders, rules, or policies.
 - (f) The failure, neglect, or refusal to:
 - (i) Provide records requested by the department pursuant to a health care services review or an audit.

- (ii) Submit complete, adequate, and detailed reports or additional reports requested or required by the department regarding the treatment and condition of a worker.
 - (g) The submission or collusion in the submission of false or misleading reports or bills to any government agency.
 - (h) Billing a worker for:
 - (i) Treatment of an industrial condition for which the department has accepted responsibility; or
 - (ii) The difference between the amount paid by the department under the maximum allowable fee set forth in these rules and any other charge.
 - (i) Repeated failure to notify the department immediately and prior to burial in any death, where the cause of the death is not definitely known and possibly related to an industrial injury or occupational disease.
 - (j) Repeated failure to recognize emotional and social factors impeding recovery of a worker who is being treated under the Industrial Insurance Act.
 - (k) Repeated unreasonable refusal to comply with the recommendations of board certified or qualified specialists who have examined a worker.
 - (l) Repeated use of:
 - (i) Treatment of controversial or experimental nature;
 - (ii) Contraindicated or hazardous treatment; or
 - (iii) Treatment past stabilization of the industrial condition or after maximum curative improvement has been obtained.
 - (m) Declaration of mental incompetency by a court or other tribunal.
 - (n) Failure to comply with the applicable code of professional conduct or ethics.
 - (o) Failure to inform the department of any disciplinary action issued by order or formal letter taken against the provider's license to practice.
 - (p) The finding of any peer group review body of reason to take action against the provider's practice privileges.
 - (q) Misrepresentation or omission of any material information in the application for authorization to treat workers. (Chapter 51.04 RCW.)
- (5) If the department finds reason to take corrective action, the department may also order one or more of the following:
- (a) Recoupment of payments made to the provider, including interest; (Chapter 51.04 RCW.)
 - (b) Denial or reduction of payment;
 - (c) Assessment of penalties for each action that falls within the scope of subsection (4)(a) through (q) of this section; (Chapter 51.48 RCW.)
 - (d) Placement of the provider on a prepayment review status requiring the submission of supporting documents prior to payment;
 - (e) Requirement to satisfactorily complete remedial education courses and/or programs; and
 - (f) Imposition of other appropriate restrictions or conditions on the provider's privilege to be reimbursed for treating workers under the Industrial Insurance Act.
- (6) The department shall forward a copy of any corrective action taken against a provider to the applicable disciplinary authority.

WAC 296-20-01501 Physician's assistant rules

- (1) Physicians' assistants may perform only those medical services in industrial injury cases, for which the physician's assistant is trained and licensed, under the control and supervision of a licensed physician. Such control and supervision shall not be construed to require the personal presence of the supervising physician.
- (2) Physicians' assistants may perform those medical services which are within the scope of their physician's assistant license for industrial injury cases within the limitations of subsection (3) of this section.
- (3) Advance approval must be obtained from the department to treat industrial injury cases. To be eligible to treat industrial injuries, the physician's assistant must:
 - (a) Provide the department with a copy of his/her license.
 - (b) Provide the name and address and specialty of the supervising physician.
 - (c) Provide the department with the evidence of a reliable and rapid system of communication with the supervising physician.
- (4) Physicians' assistants may prepare report of accident, time loss cards, and progress reports for the supervising physician's signature. Physicians' assistants cannot submit such information under his/her signature.

WAC 296-20-01505 Provider types and services not covered

The department will not pay for services performed by the following practitioners:

- Acupuncturists
- Herbalists
- Christian Science practitioners or theological healers
- Homeopathists
- Noncertified physician assistants
- Operating room technicians
- Certified surgical technicians
- Certified surgical assistants

Any other licensed or unlicensed practitioners not otherwise specifically provided for by the department.

WAC 296-20-020 Acceptance of rules and fees

The filing of an accident report or the rendering of treatment to a worker who comes under the department's or self-insurer's jurisdiction, as the case may be, constitutes acceptance of the department's medical aid rules and compliance with its rules and fees.

In accordance with RCW 51.28.020 of the industrial insurance law, when a doctor renders treatment to a worker entitled to benefits under the law, "it shall be the duty of the physician to inform the worker of his rights under this title and to lend all necessary assistance in making the application for compensation and such proof of other matters as required by the rules of the department without charge to the worker," a worker shall not be billed for treatment rendered for his accepted industrial injury or occupational disease.

The department or self-insurer must be notified immediately, when an unrelated condition is being treated concurrently with an industrial injury. See WAC 296-20-055 for specific information required.

When there is questionable eligibility, (i.e., service is not usually allowed for industrial injuries or investigation is pending, etc.) the provider may require the worker to pay for the treatment rendered.

In cases of questionable eligibility where the provider has billed the worker or other insurance, and the claim is subsequently allowed, the provider shall refund the worker or insurer in full and bill the department or self-insurer for services rendered using billing instructions, codes, and policies as listed in the medical aid rules and fee schedules.

Cases in which there is a question of medical ethics or quality of medical care, will be referred to the Washington state medical association's medical advisory and utilization review committee to the department of labor and industries for recommendations.

WAC 296-20-02005 Keeping of records

A health services provider who requests from the department payment for providing services shall maintain all records necessary for the director's authorized auditors to audit the provision of services. A provider shall keep all records necessary to disclose the extent of services the provider furnishes to industrially injured workers. At a minimum, these records must provide and include prompt and specific documentation of the level and type of service for which payment is sought. Records must be maintained for audit purposes for a minimum of five years.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 86-20-074 (Order 86-36), § 296-20-02005, filed 10/1/86, effective 11/1/86.]

WAC 296-20-02010 Review of health services providers

- (1) The department may review providers' patient and billing related records to ensure workers are receiving proper and necessary medical care and to ensure providers' compliance with the department's medical aid rules, fee schedules, and policies. A records review may be the basis for corrective action against the provider.
- (2) The department may review records before, during, or after delivery of health services. Records reviews may be for cause or at random and may include the utilization of statistical sampling methodologies and projections based upon sample findings. Records reviews may be conducted at or away from the provider's places of business, at the department's discretion.

- (3) The department will give ten working days' written notification to any provider, except as authorized in WAC 296-18A-460, that the provider's patient and billing related records will be reviewed by an auditor at the provider's place(s) of business to determine compliance with medical aid rules and standards.
- (4) The department may request legible copies of providers' records. Providers shall furnish copies of the requested records within thirty calendar days of receipt of the request.
- (5) The department will not remove original records from provider's premises.
- (6) For information regarding the formal appeals process refer to chapter 51.52 RCW.

WAC 296-20-02015 Interest on excess payments

- (1) When a provider of health services receives a payment to which that provider is not entitled, the provider must repay the excess payment, plus accrued interest, without regard to whether the excess payment occurred due to provider or department error or oversight, except as provided in subsection (2) of this section.
- (2) When a provider:
 - (a) Accepts in good faith a determination by the department that a worker is eligible for benefits under Title 51 RCW;
 - (b) Provides, bills, and receives payment for services to that worker and the department later determines that the worker was ineligible for services during that period no interest will begin to accrue until notification is received by the provider that the worker was ineligible.
- (3) Interest accrues on excess payments at the rate of one percent per month or portion of a month beginning on the thirty-first day after payment was made. Where partial repayment of an excess payment is made, interest accrues on the remaining balance.
- (4) The department reserves the option of either requesting the provider to remit the amount of the excess payment and accrued interest to the department or offsetting excess payments and accrued interest against future payments due to the provider.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 86-20-074 (Order 86-36), § 296-20-02015, filed 10/1/86, effective 11/1/86.]

WAC 296-20-022 Payment of out-of-state providers

- (1) **How will health care providers outside of Washington State be paid?**

All health care service providers, regardless of their geographic location, will be paid according to the fee schedule rules, rates, coverage and payment policies as published in the Washington state *Medical Aid Rules and Fee Schedules* and/or provider bulletins.
- (2) **Can an injured worker be charged for services?**

In all cases, the department's maximum allowed fees and payment levels are the maximum payable. If a provider's charge exceeds the maximum amount payable under the department's *Medical Aid Rules and Fee Schedules*, the provider must not charge the injured worker for the difference. A provider violating this provision may be held ineligible to treat injured workers as provided by department rules and may be subject to other applicable penalties.

EXCEPTION: When a provider treats an injured worker for condition(s) unrelated to the worker's accepted industrial injury or illness, the provider may bill the worker or other insurers for the unrelated services only.

(3) What services will be paid to providers outside of Washington?

Only those diagnostic and treatment services authorized under the state of Washington medical aid rules, fee schedules, payment policies, or medical coverage decisions may be authorized or paid by the department or self-insurer. As determined by the department of labor and industries, the scope of practice of providers outside the state of Washington may be recognized for payment purposes. However, in all cases WAC 296-20-03002 (treatment not authorized) shall apply. Specifically, services not authorized under Washington workers compensation rules, fee schedules, payment policies, or medical coverage decisions will not be paid, even if permitted under the workers compensation program in the provider's state or country of business. When in doubt, the provider should verify coverage of a service with the department or self-insurer.

WAC 296-20-023 Third party settlement-Excess recoveries

- (1) In cases where a third party settlement has been made resulting in an excess recovery subject to offset from the worker's future benefits or compensation due, the department or self-insurer is not liable for payment for services rendered by providers.
- (2) The worker should be treated and billed in accordance with the department's medical aid rules and maximum fee schedules. When bills are processed against the amount of the excess recovery, the department will notify the provider on the remittance advice.
- (3) The department or self-insurer will resume financial responsibility to or on behalf of the worker when the amount of such excess has been reduced to zero.

WAC 296-20-024 Utilization management

The department, as a trustee of the medical aid fund, has a duty to supervise the provision of proper and necessary medical care that is delivered promptly, efficiently, and economically. Toward this end, the department will institute programs of utilization management. These programs are designed to monitor and control the proper and necessary use and cost of, health care services. These programs include, but are not limited to, managed care contracting, prior authorization for services, and alternative reimbursement systems.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-04-057, § 296-20-024, filed 2/2/90, effective 3/5/90; 87-24-050 (Order 87-23), § 296-20-024, filed 11/30/87, effective 1/1/88.]

WAC 296-20-025 Initial treatment and report of accident

It is the responsibility of the worker to notify the practitioner when the worker has reason to believe his injury or condition is industrial in nature. Conversely, if the attending doctor discovers a condition which he believes to be work related or has reason to believe an injury is work related, he must so notify the worker. Once such determination is made by either the claimant or the attending doctor, a report of accident must be filed.

Failure to comply with this responsibility can result in penalties as outlined in WAC 296-20-02001.

It is the practitioner's responsibility to ascertain whether he is the first attending practitioner. If so, he will take the following action:

- (1) Give emergency treatment.
- (2) Immediately complete and forward the report of accident, to the department and the employer or self-insurer. Instruct and give assistance to the injured worker in completing his portion of the report of accident. In filing a claim, the following information is necessary so there is no delay in adjudication of the claim or payment of compensation.
 - (a) Complete history of the industrial accident or exposure.
 - (b) Complete listing of positive physical findings.
 - (c) Specific diagnosis with ICD-9-CM code(s) and narrative definition relating to the injury.
 - (d) Type of treatment rendered.
 - (e) Known medical, emotional or social conditions which may influence recovery or cause complications.
 - (f) Estimate time loss due to the injury.
- (3) If the patient remains under his care continue with necessary treatment in accordance with medical aid rules. If the practitioner is *not* the original attending doctor, he should question the injured worker to determine whether a report of accident has been filed for the injury or condition. If no report of accident has been filed, it should be completed immediately and forwarded to the department or self-insurer, as the case may be, with information as to the name and address of original practitioner if known, so that he/she may be contacted for information if necessary.

If a report of accident has been filed, it is necessary to have the worker complete a request for transfer as outlined in WAC 296-20-065, if the worker and practitioner agree that a change in attending doctor is desirable.

WAC 296-20-02700 What is a medical coverage decision?

A medical coverage decision is a general policy decision by the director or the director's designee to include or exclude a specific health care service or supply as a covered benefit. These decisions are made to insure quality of care and prompt treatment of workers. Medical coverage decisions include, but are not limited to, decisions on health care services and supplies rendered for the purpose of diagnosis, treatment or prognosis, such as:

- Ancillary services including, but not limited to, home health care services, ambulatory services, specific rehabilitative modalities;
- Devices;
- Diagnostic tests;
- Drugs, biologics, and other therapeutic modalities;
- Durable medical equipment;
- Procedures;
- Prognostic tests; and
- Supplies.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-037, § 296-20-02700, filed 12/7/99, effective 1/8/00.]

WAC 296-20-02701 Who makes medical coverage decisions?

The director or the director's designee makes medical coverage decisions.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-037, § 296-20-02701, filed 12/7/99, effective 1/8/00.]

WAC 296-20-02702 Who uses medical coverage decisions?

Self-insured employers and state fund claim managers use medical coverage decisions to help them make claim-specific decisions. For example, the director or director's designee may find that a particular medical device is effective in treating a specific category of injuries. The medical coverage decision might be that that device is a covered benefit for that category of injuries. The self-insured employer or state fund claim manager would make a claim-specific decision to pay or deny payment for that device based on a number of factors, one of which is whether the accepted condition on that claim matches the approved category of injuries in the medical coverage decision.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-037, § 296-20-02702, filed 12/7/99, effective 1/8/00.]

WAC 296-20-02703 How can I determine if a specific health care service or supply is the subject of a medical coverage decision?

- (1) The *Medical Aid Rules*, fee schedules, and provider bulletins and updates specify covered and noncovered services and supplies.

For additional information on existing medical coverage decisions or if you have a question about a new and emerging technology, device, or off-label use of a drug, contact the office of the medical director at:

Department of Labor and Industries
Office of the Medical Director
P.O. Box 44321
Olympia, WA 98504-4321

- (3) For questions about what will be authorized on a specific claim, contact the self-insured employer or state fund claim manager.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-037, § 296-20-02703, filed 12/7/99, effective 1/8/00.]

WAC 296-20-02704 What criteria does the director or director's designee use to make medical coverage decisions?

- (1) In making medical coverage decisions, the director or the director's designee considers information from a variety of sources. These sources include, but are not limited to:
 - Scientific evidence;
 - National and community-based opinions;
 - Informal syntheses of provider opinion;
 - Experience of the department and other entities;
 - Regulatory status.

Because of the unique nature of each health care service, the type, quantity and quality of the information available for review may vary. The director or director's designee weighs the quality of the available evidence in making medical coverage decisions.

- (2) Scientific evidence.

- (a) "Scientific evidence" includes reports and studies published in peer-reviewed scientific and clinical literature. The director or the director's designee will consider the nature and quality of the study, its methodology and rigorousness of design, as well as the quality of the journal in which the study was published.
- For treatment services, studies addressing safety, efficacy, and effectiveness of the treatment or procedure for its intended use will be considered.
 - For diagnostic devices or procedures, studies addressing safety, technical capacity, accuracy or utility of the device or procedure for its intended use will be considered.
- (b) The greatest weight will be given to the most rigorously designed studies and on those well-designed studies that are reproducible. The strength of the design will depend on such scientifically accepted methodological principles as randomization, blinding, appropriateness of outcomes, spectrum of cases and controls, appropriate power to detect differences, magnitude and significance of effect. Additional consideration will be given to those studies that focus on sustained health and functional outcomes of workers with occupational conditions rather than unsustained clinical improvements.
- (3) National and community-based opinion.
- (a) "National opinion" includes, but is not limited to, syntheses of clinical issues that may take the form of published reports in the scientific literature, national consensus documents, formalized documents addressing standards of practice, practice parameters from professional societies or commissions, and technology assessments produced by independent evidence-based practice centers.
- The director or the director's designee will consider the nature and quality of the process used to reach consensus or produce the synthesis of expert opinion. This consideration will include, but may not be limited to, the qualifications of participants, potential biases of sponsoring organizations, the inclusion of graded scientific information in the deliberations, the explicit nature of the document, and the processes used for broader review.
- (b) "Community-based opinion" refers to advice and recommendations of formal committees made up of clinical providers within the state of Washington. As appropriate to the subject matter, this may include recommendations from the department's formal advisory committees:
- The industrial insurance and rehabilitation committee of the Washington State Medical Association, which includes a representative from the Washington Osteopathic Medical Association;
 - The chiropractic advisory committee.
- (4) "Informal syntheses of provider opinion" includes, but is not limited to, professional opinion surveys.
- (5) Experience of the department and other entities.
- The director or director's designee may consider data from a variety of sources including the department, other state agencies, federal agencies and other insurers regarding studies, experience and practice with past coverage. Examples of these include, but are not limited to, formal outcome studies, cost-benefit analyses, and adverse event, morbidity or mortality data.
- (6) Regulatory status.

The director or director's designee will consider related licensing and approval processes of other state and federal regulatory agencies. This includes, but is not limited to:

- The federal food and drug administration's (FDA) regulation of drugs and medical devices (21 U.S.C. 301 et seq. and 21 CFR Chapter 1, Subchapters C, D, & H consistent with the purposes of this chapter, and as now or hereafter amended); and
- The Washington state department of health's regulation of scope of practice and standards of practice for licensed health care professionals regulated under Title 18 RCW.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-037, § 296-20-02704, filed 12/7/99, effective 1/8/00.]

WAC 296-20-02705 What are treatment and diagnostic guidelines and how are they related to medical coverage decisions?

- (1) Treatment and diagnostic guidelines are recommendations for the diagnosis or treatment of accepted conditions. These guidelines are intended to guide providers through the range of the many treatment or diagnostic options available for a particular medical condition. Treatment and diagnostic guidelines are a combination of the best available scientific evidence and a consensus of expert opinion.
- (2) The department may develop treatment or diagnostic guidelines to improve outcomes for workers receiving covered health services. As appropriate to the subject matter, the department may develop these guidelines in collaboration with the department's formal advisory committees:
 - The industrial insurance and rehabilitation committee of the Washington State Medical Association, which includes a representative from the Washington Osteopathic Medical Association;
 - The chiropractic advisory committee.
- (3) In the process of implementing these guidelines, the department may find it necessary to make a formal medical coverage decision on one or more of the treatment or diagnostic options. The department, not the advisory committees, is responsible for implementing treatment guidelines and for making coverage decisions that result from such implementation.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-037, § 296-20-02705, filed 12/7/99, effective 1/8/00.]

WAC 296-20-02850 When may the department cover controversial, obsolete, investigational or experimental treatment?

- (1) The department or self-insurer will not authorize nor pay for treatment measures of a controversial, obsolete, investigational or experimental nature. (See WAC 296-20-03002.) Under certain conditions, the director or the director's designee may determine that such treatment is appropriate. In making such a decision, the director or director's designee will consider factors including, but not limited to, the following:
 - (a) Scientific studies investigating the safety and efficacy of the treatment are incomplete, or if completed, have conflicting conclusions, and:

- Preliminary data indicate the treatment or diagnostic procedure or device has improved net health and functional outcomes; and
 - No alternative treatment or diagnostic is available; or
- (b) The treatment or diagnostic procedure or device is prescribed as part of:
- A controlled, clinical trial that has been reviewed and approved by an institutional review board that was established in accordance with the federal Department of Health and Human Services (DHHS) regulations (45 CFR Part 46 consistent with the purposes of this chapter, and as now or hereafter amended); and
 - For medical devices not yet cleared for marketing, the clinical evaluation has an approved investigational device exemption (IDE) in accordance with the federal Food and Drug Administration (FDA) regulations (21 CFR Parts 50, 56, and 812 consistent with the purposes of this chapter, and as now or hereafter amended); and
 - For drugs not yet cleared for marketing, the clinical evaluation has been approved in accordance with the federal Food and Drug Administration (FDA) regulations (21 CFR Part 312 consistent with the purposes of this chapter, and as now or hereafter amended); or
- (c) The usually indicated procedure or diagnostic test would likely be harmful for the patient because of other unrelated conditions.
- (2) The health care provider must submit a written request and obtain approval from the department or self-insurer, prior to using a controversial, obsolete, investigational, or experimental treatment. The written requests must contain a description of the treatment, the reason for the request, potential risks and expected benefits, length of care and estimated cost of treatment.

WAC 296-20-030 Treatment not requiring authorization for accepted conditions

- (1) A maximum of twenty office calls for the treatment of the industrial condition, during the first sixty days, following injury. Subsequent office calls must be authorized. Reports of treatment rendered must be filed at sixty day intervals to include number of office visits to date. See chapter 296-20 WAC and department policies for report requirements and further information.
- (2) Initial diagnostic x-rays necessary for evaluation and treatment of the industrial injury or condition. See WAC 296-20-121 for further information.
- (3) The first twelve physical therapy treatments as provided by chapters 296-21, 296-23, and 296-23A WAC, upon consultation by the attending doctor or under his direct supervision. Additional physical therapy treatment must be authorized and the request substantiated by evidence of improvement. In no case will the department or self-insurer pay for inpatient hospitalization of a claimant to receive physical therapy treatment only. USE OF DIAPULSE, THERMATIC (standard model only), SPECTROWAVE AND SUPERPULSE MACHINES AND IONTOPHORESIS IS NOT AUTHORIZED FOR WORKERS ENTITLED TO BENEFITS UNDER THE INDUSTRIAL INSURANCE ACT.
- (4) Routine laboratory studies reasonably necessary for diagnosis and/or treatment of the industrial condition. Other special laboratory studies require authorization.

- (5) Routine standard treatment measures rendered on an emergency basis or in connection with minor injuries not otherwise requiring authorization.
- (6) Consultation with specialist when indicated. See WAC 296-20-051 for consultation guidelines.
- (7) Diagnostic or therapeutic nerve blocks. See WAC 296-20-03001 for restrictions.
- (8) Intra-articular injections. See WAC 296-20-03001 for restrictions.
- (9) Myelogram if prior to emergency surgery.

WAC 296-20-03001 Treatment requiring authorization

Certain treatment procedures require authorization by the department or self-insurer. Requests for authorization must include a statement of: The condition(s) diagnosed; ICD-9-CM codes; their relationship, if any, to the industrial injury/exposure; an outline of the proposed treatment program, its length and components, procedure codes, and expected prognosis; and an estimate of when treatment would be concluded and condition stable.

- (1) Office calls in excess of the first twenty visits or sixty days whichever occurs first.
- (2) The department may designate those inpatient hospital admissions that require prior authorization.
- (3) X-ray and radium therapy.
- (4) Diagnostic studies other than routine x-ray and blood or urinalysis laboratory studies.
- (5) Myelogram and discogram in nonemergent cases.
- (6) Physical therapy treatment beyond initial twelve treatments as outlined in chapters 296-21, 296-23, and 296-23A WAC.
- (7) Diagnostic or therapeutic injection. Epidural or caudal injection of substances other than anesthetic or contrast solution will be authorized under the following conditions only:
 - (a) When the worker has experienced acute low back pain or acute exacerbation of chronic low back pain of no more than six months duration.
 - (b) The worker will receive no more than three injections in an initial thirty-day treatment period, followed by a thirty-day evaluation period. If significant pain relief is demonstrated one additional series of three injections will be authorized. No more than six injections will be authorized per acute episode.
- (8) Home nursing, attendant services or convalescent center care must be authorized per provisions outlined in WAC 296-20-091 or 296-20-303.
- (9) Provision of prosthetics, orthotics, surgical appliances, special equipment for home or transportation vehicle; custom made shoes for ankle/foot injuries resulting in

permanent deformity or malfunction of a foot; TNS units; masking devices; hearing aids; etc., must be authorized in advance as per WAC 296-20-1101 and 296-20-1102.

- (10) Biofeedback program; pain clinic; weight loss program; psychotherapy; rehabilitation programs; and other programs designed to treat special problems must be authorized in advance. Refer to the department's medical aid rules and fee schedules for details.
- (11) Prescription or injection of vitamins for specific therapeutic treatment of the industrial condition(s) when the attending doctor can demonstrate that published clinical studies indicate vitamin therapy is the treatment of choice for the condition. Authorization for this treatment will require presentation of facts to and review by department medical consultant.
- (12) Injections of anesthetic and/or anti-inflammatory agents into the vertebral facet joints will be authorized to qualified specialists in orthopedics, neurology, and anesthesia, or other physicians who can demonstrate expertise in the procedure, AND who can provide certification their hospital privileges include the procedure requested under the following conditions:
 - (a) Rationale for procedure, treatment plan, and request for authorization must be presented in writing to the department or self-insurer.
 - (b) Procedure must be performed in an accredited hospital under radiographic control.
 - (c) Not more than four facet injection procedures will be authorized in any one patient.
- (13) The long term prescription of medication under the specific conditions and circumstances in (a) and (b) are considered corrective therapy rather than palliative treatment and approval in advance must be obtained.
 - (a) Nonsteroidal anti-inflammatory agents for the treatment of degenerative joint conditions aggravated by occupational injury.
 - (b) Anticonvulsive agents for the treatment of seizure disorders caused by trauma.
- (14) Intra-muscular and trigger point injections of steroids and other nonscheduled medications are limited to three injections per patient. The attending doctor must submit justification for an additional three injections if indicated with a maximum of six injections to be authorized for any one patient.
- (15) The department may designate those diagnostic and surgical procedures which can be performed in other than a hospital inpatient setting. Where a worker has a medical condition which necessitates a hospital admission, prior approval of the department or self-insurer must be obtained.

WAC 296-20-03002 Treatment not authorized

The department or self-insurer will not allow nor pay for following treatment:

- (1) Use of diapulse, thermatic (standard model only), spectrowave and superpulse machines on workers entitled to benefits under the Industrial Insurance Act.

- (2) Iontophoresis; prolotherapy; acupuncture; injections of colchicine; injections of fibrosing or sclerosing agents; and injections of substances other than anesthetic or contrast into the subarachnoid space (intrathecal injections).
- (3) Treatment to improve or maintain general health (i.e., prescriptions and/or injection of vitamins or referrals to special programs such as health spas, swim programs, exercise programs, athletic-fitness clubs, diet programs, social counseling).
- (4) Continued treatment beyond stabilization of the industrial condition(s), i.e., maintenance care, except where necessary to monitor prescription of medication necessary to maintain stabilization i.e., anti-convulsive, anti-spasmodic, etc.
- (5) After consultation and advice to the department or self-insurer, any treatment measure deemed to be dangerous or inappropriate for the injured worker in question.
- (6) Treatment measures of an unusual, controversial, obsolete, or experimental nature (see WAC 296-20-045). Under certain conditions, treatment in this category may be approved by the department or self-insurer. Approval must be obtained prior to treatment. Requests must contain a description of the treatment, reason for the request with benefits and results expected.

WAC 296-20-03003 Drugs and medication

Repealed and replaced with WACS 296-20-03010 through WACS 296-20-03024.

WAC 296-20-03004 Chemonucleolysis

Chymopapain injections may be authorized in the treatment of lumbar disc disease under the following limitations and criteria:

- (1) Only physicians
 - (a) who routinely care for patients with herniated lumbar intervertebral discs,
 - (b) who are qualified by training and experience to diagnose lumbar disc disease and to perform laminectomy, discectomy or other spinal procedures, (c) who have received specialized training in chemonucleolysis, may administer the procedure for industrial injured workers covered under state industrial insurance fund or self-insurance.
- (2) Preadministration work-up shall include but is not limited to (a) a concurring opinion from a physician familiar with the procedure and qualified by training and experience to diagnose and treat lumbar disc disease, (b) diagnostic studies indicative of level of disc herniation i.e., myelogram, a high resolution CT scan, discogram, etc., (c) other diagnostic studies including sedimentation rate (anaphylaxis has occurred primarily in females with sedimentation rates in excess of 20 mm per hour) as indicated for the individual patient.
- (3) Procedure will be authorized (a) one time only in the treatment life of any given patient, (b) maximum of two levels per patient (Generally only one level will be authorized. Indications for a second level are infrequent. However, authorization may be granted if diagnostic studies and/or concurring opinion so indicates.), (c) only for patients who have had no previous lumbar surgery at that level.
- (4) Procedure must be carried out in hospital setting under radiographic or fluoroscopic control, with a permanent x-ray record maintained.

- (5) **Prior authorization from the department or the self-insurer must be obtained before procedure is scheduled.**
- (6) These rules were formulated based upon the recommendations of the Federal Food and Drug Administration, the drug manufacturer, and the industrial insurance committee of the Washington state medical association.

WAC 296-20-03005 Inoculation or immunological treatment for exposure to infectious occupational disease

Authorization for inoculation or other immunological treatment for occupational disease shall be given only in cases in which a work related activity has resulted in probable exposure of the worker to a potential infectious occupational disease. In no case shall such inoculation or immunological treatment be authorized until such time as a work related activity has resulted in such probable exposure. Inoculation or other treatment required as a condition for employment or otherwise obtained prior to the worker's performing a work related activity resulting in probable exposure to an occupational disease shall not be authorized. For purposes of this section, probable exposure is an incident which gives rise to a clear and immediate likelihood of contracting an occupational disease process.

WAC 296-20-03010 What are the general principles the department uses to determine coverage on drugs and medications?

The department or self-insurer pays for drugs that are deemed proper and necessary to treat the industrial injury or occupational disease accepted under the claim. In general, the department will consider coverage for all FDA approved drugs for stated indications. The department or self-insurer may pay for prescriptions for off label indications when used within current medical standards and prescribed in compliance with published contraindications, precautions and warnings.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03010, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03011 What general limitations are in place for medications?

- (1) **Amount dispensed.** The department or self-insurer will pay for no more than a thirty-day supply of a medication dispensed at any one time.
- (2) **Over-the-counter drugs.** Prescriptions for over-the-counter items may be paid. Special compounding fees for over-the-counter items are not payable.
- (3) **Generic drugs.** Prescriptions are to be written for generic drugs unless the attending physician specifically indicates that substitution is not permitted. For example: The patient cannot tolerate substitution. Pharmacists are instructed to fill with generic drugs unless the attending physician specifically indicates substitution is not permitted.
- (4) **Prescriptions for unrelated medical conditions.** The department or self-insurer may consider temporary coverage of prescriptions for conditions not related to the industrial injury when such conditions are retarding recovery. Any treatment for such conditions must have prior authorization per WAC 296-20-055.
- (5) **Pension cases.** Once the worker is placed on a pension, the department or self-insurer may pay for only those drugs and medications authorized for continued medical treatment for conditions previously accepted by the department. Authorization for

continued medical and surgical treatment is at the sole discretion of the supervisor of industrial insurance and must be authorized before the treatment is rendered. In such pension cases, the department or self-insurer cannot pay for scheduled drugs used to treat continuing pain resulting from an industrial injury or occupational disease.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03011, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03012 Where can I find the department's outpatient drug and medication coverage decisions?

The department's outpatient drug and medication coverage decisions are contained in the department's formulary, as developed by the department in collaboration with the Washington State Medical Association's Industrial Insurance and Rehabilitation Committee.

In the formulary, drugs are listed in the following categories:

- **Allowed**

Drugs used routinely for treating accepted industrial injuries and occupational illnesses.

Example: Nonscheduled drugs and other medications during the acute phase of treatment for the industrial injury or condition.

- **Prior authorization required**

Drugs used routinely to treat conditions not normally accepted as work related injuries, drugs which are used to treat unrelated conditions retarding recovery from the accepted condition on the claim, and drugs for which less expensive alternatives exist.

Example: All drugs to treat hypertension because hypertension is not normally an accepted industrial condition.

- **Denied**

Drugs not normally used for treating industrial injuries or not normally dispensed by outpatient pharmacies.

Example: Most hormones, most nutritional supplements.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03012, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03013 Will the department or self-insurer pay for a denied outpatient drug in special circumstances?

Some of the drugs that are routinely denied may be covered in special circumstances. Requests for coverage under special circumstances require authorization prior to treatment. Examples of drugs that may be covered in special circumstances include:

- Drugs and medications to treat unrelated conditions when retarding recovery;
- Special treatments for unique catastrophic injuries.

The department may require written documentation to support the request.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03013, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03014 Which drugs have specific limitations?

- (1) **Injectables.** Prescriptions for injectable opioids or other analgesics, sedatives, antihistamines, tranquilizers, psychotropics, vitamins, minerals, food supplements, and hormones are not covered.

Exceptions: The department or self-insurer covers injectable medications under the following circumstances.

- (a) Indicated injectable drugs for the following:
 - Inpatients; or
 - During emergency treatment of a life-threatening condition/injury; or
 - During outpatient treatment of severe soft tissue injuries, burns or fractures when needed for dressing or cast changes; or
 - During the perioperative period and the postoperative period, not to exceed forty-eight hours from the time of discharge.
- (b) Prescriptions of injectable insulin, heparin, anti-migraine medications, or impotency treatment, when proper and necessary.
- (2) **Noninjectable scheduled drugs administered by other than the oral route.** Nonoral routes of administration of scheduled drugs that result in systemic availability of the drug equivalent to injectable routes will also not be covered.
- (3) **Sedative-hypnotics.** During the chronic stage of an industrial injury or occupational disease, payment for scheduled sedatives and hypnotics will not be authorized.
- (4) **Benzodiazepines.** Payment for prescriptions for benzodiazepines are limited to the following types of patients:
 - Hospitalized patients;
 - Claimants with an accepted psychiatric disorder for which benzodiazepines are indicated;
 - Claimants with an unrelated psychiatric disorder that is retarding recovery but which the department or self-insurer has temporarily authorized treatment (see WAC 296-20-055) and for which benzodiazepines are indicated; and
 - Other outpatients for not more than thirty days for the life of the claim.
- (5) **Cancer.** When cancer or any other end-stage disease is an accepted condition, the department or self-insurer may authorize payment for any indicated scheduled drug and by any indicated route of administration.
- (6) **Spinal cord injuries.** When a spinal cord injury is an accepted condition, the department or self-insurer may authorize payment for anti-spasticity medications by any indicated route of administration (e.g., some benzodiazepines, Baclofen). Prior authorization is required.

Note: See the department formulary for specific limitations and prior authorization requirements of other drugs.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03014, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03015 What steps may the department or self-insurer take when concerned about the amount or appropriateness of drugs and medications prescribed to the injured worker?

- (1) The department or self-insurer may take any or all of the following steps when concerned about the amount or appropriateness of drugs the patient is receiving:

- Notify the attending physician of concerns regarding the medications such as drug interactions, adverse reactions, prescriptions by other providers;
 - Require that the attending physician send a treatment plan addressing the drug concerns;
 - Request a consultation from an appropriate specialist;
 - Request that the attending physician consider reducing the prescription, and provide information on chemical dependency programs;
 - Limit payment for drugs on a claim to one prescribing doctor.
- (2) If the attending physician or worker does not comply with these requests, or if the probability of imminent harm to the worker is high, the department or self-insurer may discontinue payment for the drug after adequate prior notification has been given to the worker, pharmacy and physician.
- (3) Physician failure to reduce or terminate prescription of controlled substances, habit forming or addicting medications, or dependency inducing medications, after department or self-insurer request to do so for an injured worker may result in a transfer of the worker to another physician of the worker's choice. (See WAC 296-20-065.)
- (4) Other corrective actions may be taken in accordance with WAC 296-20-015, Who may treat.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03015, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03016 Is detoxification and/or chemical dependency treatment covered?

The department or self-insurer may pay for detoxification and/or chemical dependency treatment in the following circumstances:

- The injured worker becomes dependent or toxic on medication prescribed for an accepted condition on the claim; or
- The injured worker becomes dependent or toxic due to medications prescribed for a condition retarding recovery of the accepted condition on the claim; or
- The injured worker is dependent or toxic due to medications for an unrelated condition, but that dependency or toxicity is retarding recovery of the accepted condition.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03016, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03017 What information is needed for prescriptions and the physician's record?

Prescriptions must include the department authorized provider number for the prescribing physician and the physician's signature. The physician's record must contain the name and reason for the medication, the dosage, quantity prescribed and/or dispensed, the route of administration, the frequency, the starting and stopping dates, the expected outcome of treatment, and any adverse effects that occur. Please refer to WAC 296-20-03021 and 296-20-03022 for additional documentation requirements when treating chronic, noncancer pain.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03017, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03018 What inpatient drugs are covered?

In general, the department or self-insured employer pays for most drugs in an inpatient hospital setting. Please see WAC 296-20-075, Hospitalization.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03018, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03019 Under what conditions will the department or self-insurer pay for oral opioid treatment for chronic, noncancer pain?

Chronic, noncancer pain may develop after an acute injury episode. It is defined as pain that typically persists beyond two to four months following the injury.

The department or self-insurer may pay for oral opioids for the treatment of chronic, noncancer pain caused by an accepted condition when that treatment is proper and necessary. See WAC 296-20-01002 for the definition of “proper and necessary” health care services.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03019, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03020 What are the authorization requirements for treatment of chronic, noncancer pain with opioids?

No later than thirty days after the attending physician begins treating the worker with opioids for chronic, noncancer pain, the attending physician must submit a written report to the department or self-insurer in order for the department or self-insurer to pay for such treatment. The written report must include the following:

- A treatment plan with time-limited goals;
- A consideration of relevant prior medical history;
- A summary of conservative care rendered to the worker that focused on reactivation and return to work;
- A statement on why prior or alternative conservative measures may have failed or are not appropriate as sole treatment;
- A summary of any consultations that have been obtained, particularly those that have addressed factors that may be barriers to recovery;
- A statement that the attending physician has conducted appropriate screening for factors that may significantly increase the risk of abuse or adverse outcomes (e.g., a history of alcohol or other substance abuse); and
- An opioid treatment agreement that has been signed by the worker and the attending physician. This agreement must be renewed every six months. The treatment agreement must outline the risks and benefits of opioid use, the conditions under which opioids will be prescribed, the physician's need to document overall improvement in pain and function, and the worker's responsibilities.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03020, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03021 What documentation is required to be submitted for continued coverage of opioids to treat chronic, noncancer pain?

In addition to the general documentation required by the department or self-insurer, the attending physician must submit the following information at least every sixty days when treating with opioids:

- Documentation of drug screenings, consultations, and all other treatment trials;
- Documentation of outcomes and responses, including pain intensity and functional levels; and
- Any modifications to the treatment plan.

The physician must use a form developed by the department, or a substantially equivalent form, to document the patient's improvement in pain intensity and functional levels. This form may be included as part of a sixty-day report.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03021, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03022 How long will the department or self-insurer continue to pay for opioids to treat chronic, noncancer pain?

The department or self-insurer will continue to pay for treatment with opioids so long as the physician documents:

- Substantial reduction of the patient's pain intensity; and
- Continuing substantial improvement in the patient's function.

Once the worker's condition has reached maximum medical improvement, further treatment with opioids is not payable. Opioid treatment for chronic, noncancer pain past the first three months of such treatment without documentation of substantial improvement is presumed to be not proper and necessary.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03022, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03023 When may the department or self-insurer deny payment of opioid medications used to treat chronic, noncancer pain?

Payment for opioid medications may be denied in any of the following circumstances:

- Absent or inadequate documentation;
- Noncompliance with the treatment plan;
- Pain and functional status have not substantially improved after three months of opioid treatment; or
- Evidence of misuse or abuse of the opioid medication or other drugs, or noncompliance with the attending physician's request for a drug screen.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03023, filed 12/7/99, effective 1/20/00.]

WAC 296-20-03024 Will the department or self-insurer pay for nonopioid medications for the treatment of chronic, noncancer pain?

The department or self-insurer may pay for nonopioid medication for the treatment of chronic, noncancer pain when it is proper and necessary.

For example, some drugs such as anti-convulsants, anti-depressants, and others have been demonstrated to be useful in the treatment of chronic pain and may be approved when proper and necessary.

[Statutory Authority: RCW 51.04.020 and 51.04.030. 00-01-040, § 296-20-03024, filed 12/7/99, effective 1/20/00.]

WAC 296-20-035 Treatment in cases that remain open beyond sixty days

Conditions requiring treatment beyond sixty days are indicative of a major industrial condition or complication by other conditions. Except in cases of severe and extensive injuries, i.e., quadriplegia, paraplegia, multiple fractures, etc., when the worker requires treatment beyond sixty days following injury, a complete examination is necessary to determine and/or establish need for continued treatment and/or payment of time loss compensation. This may be accomplished either by the attending doctor or a consultation exam. In either case, a detailed exam report must be provided to the department or self-insurer. Refer to chapter 296-20 WAC (including the definition section) and department policy for the type of information that must be included in these reports.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-20-035, filed 8/1/93, effective 9/1/93. WAC 296-20-045 Consultation requirements

In the event of complication, controversy, or dispute over the treatment aspects of any claim, the department or self-insurer will not authorize treatment until the attending doctor has arranged a consultation with a qualified doctor with experience and expertise on the subject, and the department or self-insurer has received notification of the findings and recommendations of the consultant.

This consultation must be arranged in accordance with WAC 296-20-051.

Consultations are also required in the following situations:

- (1) All nonemergent major surgery on a patient with serious medical, emotional or social problems which are likely to complicate recovery.
- (2) All procedures of a controversial nature or type not in common use for the specific condition.
- (3) Surgical cases where there are complications or unfavorable circumstances such as age, preexisting conditions or interference with occupational requirements, etc.
- (4) If the attending doctor, the department, self-insurer, or authorized department representative requests a consultation.
- (5) Conservative care, (e.g., nonsurgical cases) extending past one hundred twenty days following initial visit. Such consultation may be with a chiropractic or a medical or osteopathic consultant.

WAC 296-20-051 Consultations

In cases presenting diagnostic or therapeutic problems to the attending doctor, consultation with a specialist will be allowed without prior authorization. The consultant must submit his findings and recommendations immediately to the attending doctor and the department or self-insurer. Refer to chapter 296-20 WAC and department policy for reporting requirements.

Whenever possible, the referring doctor should make his x-rays and records available to the consultant to avoid unnecessary duplication. The department's consultation referral form may be used to convey information to the consultant. Consultants may proceed with indicated and reasonable x-rays or laboratory work and reasonable diagnostic studies as permitted within their scope of practice.

Consultations will be held with a specialist within a reasonable geographic area. Whenever possible, consultation should be made with a doctor outside the referring doctor's office or partnership.

The attending doctor will not arrange a consultation if he has received notification that a special or commission examination is being arranged by the department or self-insurer. If he has had recent consultation and is notified that the department or self-insurer is arranging an examination, he must immediately advise the department or self-insurer of the consultation.

The consultation fee will be paid only if a consultation report is complete and contains all pathological findings as well as all pertinent negative or normal findings. The report must be received in the department within fifteen days from the date of the consultation. No fee is paid to the consultant if the worker fails the appointment.

The consultant may not order, prescribe, or provide treatment without the approval of the attending doctor and the injured worker. No transfer will be made to the consultant without the prior approval of the attending doctor and the injured worker.

Consultation services will not be reimbursed for workers who are currently, or have been under the physician's care within the last three years. Such services should be billed as follow up visits, as listed in the fee schedules.

WAC 296-20-055 Limitation of treatment and temporary treatment of unrelated conditions when retarding recovery

Conditions preexisting the injury or occupational disease are not the responsibility of the department. When an unrelated condition is being treated concurrently with the industrial condition, the attending doctor must notify the department or self-insurer immediately and submit the following:

- (1) Diagnosis and/or nature of unrelated condition.
- (2) Treatment being rendered.
- (3) The effect, if any, on industrial condition.

Temporary treatment of an unrelated condition may be allowed, upon prior approval by the department or self-insurer, provided these conditions directly retard recovery of the accepted condition. The department or self-insurer will not approve or pay for treatment for a known

preexisting unrelated condition for which the claimant was receiving treatment prior to his industrial injury or occupational disease, which is not retarding recovery of his industrial condition.

A thorough explanation of how the unrelated condition is affecting the industrial condition must be included with the request for authorization.

The department or self-insurer will not pay for treatment of an unrelated condition when it no longer exerts any influence upon the accepted industrial condition. When treatment of an unrelated condition is being rendered, reports must be submitted monthly outlining the effect of treatment on both the unrelated and the accepted industrial conditions.

The department or self-insurer will not pay for treatment for unrelated conditions unless specifically authorized. This includes prescription of drugs and medicines.

WAC 296-20-06101 Reporting requirements

What reports are health care providers required to submit to the insurer?

The department or self-insurer requires different kinds of information at various stages of a claim in order to approve treatment, time loss compensation, and treatment bills. The department or self-insurer may request the following reports at specified points in the claim. The information provided in these reports is needed to adequately manage industrial insurance claims.

Report	Due/Needed by Insurer	What Information Should Be Included In the Report?	Special Notes
Report of Industrial Injury or Occupational Disease (form) Self-Insurance: Physician's Initial Report (form)	Immediately – within 5 days of 1 st visit.	See form If additional space is needed, please attach the information to the application. The claim number should be at the top of the page.	Only MD, DO, DC, ND, DPM, DDS, and OD may sign and be paid for completion of this form.
Sixty Day (narrative) Purpose: Support and document the need for continued care when conservative (non-surgical) treatment is to continue beyond sixty (60) days	Every 60 days when only conservative (non-surgical) care has been provided.	1) The conditions diagnosed , including ICD-9-CM codes and the subjective complaints and objective findings. 2) The relationship of diagnoses , if any, to the industrial injury or exposure. 3) Outline of proposed treatment program , its length, components and expected prognosis including an estimate of when treatment should be concluded and condition(s) stable. An estimated return to work date and the probability , if any, of permanent partial disability resulting from the industrial condition. 4) Current medications , including dosage and amount prescribed. With repeated prescriptions, include the plan and need for continuing medication. 5) If the worker has not returned to work, indicate whether a vocational assessment will be necessary to evaluate the worker's ability to return to work and why.	Providers may submit legible comprehensive chart notes in lieu of 60 day reports PROVIDED the chart notes include all the information required as noted in the "What Information Should Be Included?" column. However , office notes are not acceptable in lieu of requested narrative reports and providers may not bill for the report if chart notes are submitted in place of the report.

Report (cont.)	Due/Needed by Insurer	What Information Should Be Included In the Report?	Special Notes
		6) If the worker has not returned to work, a doctor's estimate of physical capacities should be included. 7) Response to any specific questions asked by the insurer or vocational counselor.	Please see WAC 296-20-03021 and 296-20-03022 for documentation requirements for those workers receiving opioids to treat chronic non-cancer pain. Providers must include their name, address and date on all chart notes submitted.
Special Reports / Follow-up Reports (narrative)	As soon as possible following request by the department/insurer.	Response to any specific questions asked by the insurer or vocational counselor.	"Special reports" are payable only when requested by the insurer.
Consultation Examination Reports (narrative) Purpose: Obtain an objective evaluation of the need for ongoing conservative medical management of the worker. The attending doctor may choose the consultant.	At 120 days if only conservative (non-surgical) care has been provided.	1) Detailed History 2) Comparative History between the history provided by the attending doctor and injured worker. 3) Detailed Physical examination 4) Condition(s) diagnosed including ICD-9-CM codes, subjective complaints and objective findings. 5) Outline of proposed treatment program : its length, components, expected prognosis including when treatment should be concluded and condition(s) stable. 6) Expected degree of recovery from the industrial condition. 7) Probability of returning to regular work or modified work and an estimated return to work date . 8) Probability , if any, of permanent partial disability resulting from the industrial condition. 9) A doctor's estimate of physical capacities should be included if the worker has not returned to work. 10) Reports of necessary, reasonable x-ray and laboratory studies to establish or confirm diagnosis when indicated.	If the injured/ill worker had been seen by the consulting doctor within the past 3 years for the same condition, the consultation will be considered a follow-up office visit, not consultation. A copy of the consultation report must be submitted to both the attending doctor and the department/insurer.

Report (cont.)	Due/Needed by Insurer	What Information Should Be Included In the Report?	Special Notes
Supplemental Medical Report (form)	As soon as possible following request by the department/insurer.	See form	Payable only to the attending doctor upon request of the department / insurer.
Attending Doctor Review of IME Report (form) Purpose: Obtain the attending doctor's opinion about the accuracy of the diagnoses and information provided based on the IME.	As soon as possible following request by the department/insurer.	Agreement or disagreement with IME findings. If you disagree, provide objective/subjective findings to support your opinion.	Payable only to the attending doctor upon request of the department / insurer.
Loss of Earning Power (form) Purpose: Certify the loss of earning power is due to the industrial injury/occupational disease.	As soon as possible after receipt of the form.	See form	Payable only to the AP.
Application to Reopen Claim Due to Worsening of Condition (form) Purpose: Document worsening of the accepted condition and need to reopen claim for additional treatment.	Immediately following identification of worsening after a claim has been closed for 60 days. Crime Victims: Following identification of worsening after a claim has been closed for 90 days.	See form	Only MD, DO, DC, ND, DPM, DDS, and OD may sign and be paid for completion of this form.

What documentation is required for initial and follow-up visits?

Legible copies of office or progress notes are required for the initial and all follow-up visits.

What documentation are ancillary providers required to submit to the insurer?

Ancillary providers are required to submit the following documentation to the department or self-insurer:

WAC 296-20-065 Transfer of doctors

All transfers from one doctor to another must be approved by the department or self-insurer. Normally transfers will be allowed only after the worker has been under the care of the attending doctor for sufficient time for the doctor to: Complete necessary diagnostic studies,

establish an appropriate treatment regimen, and evaluate the efficacy of the therapeutic program.

Under RCW 51.36.010 the worker is entitled to free choice of treating doctor. Except as provided under subsections (1) through (7) of this section, no reasonable request for transfer will be denied. The worker must be advised when and why a transfer is denied.

When a transfer is approved, the new attending doctor must be provided with a copy of the worker's treatment record by the previous attending doctor. X-rays in the possession of the previous attending doctor must be immediately forwarded to the new attending doctor for his or her retention as long as the worker remains under his or her care. Copies of x-rays and other records may be provided in lieu of originals.

The department or self-insurer reserves the right to require a worker to select another doctor or specialist for treatment, under the following conditions:

- (1) When more conveniently located doctors, qualified to provide the necessary treatment, are available.
- (2) When the attending doctor fails to cooperate in observance and compliance with the department rules.
- (3) In time loss cases where reasonable progress towards return to work is not shown.
- (4) Cases requiring specialized treatment, which the attending doctor is not qualified to render, or is outside the scope of the attending doctor's license to practice.
- (5) Where the department or self-insurer finds a transfer of doctor to be appropriate and has requested the worker to transfer in accordance with this rule, the department or self-insurer may select a new attending doctor if the worker unreasonably refuses or delays in selecting another attending doctor.
- (6) In cases where the attending doctor is not qualified to treat each of several accepted conditions. This does not preclude concurrent care where indicated. See WAC 296-20-071.
- (7) No transfer will be approved to a consultant or special examiner without the approval of the attending doctor and the worker.

Transfers will be authorized for the foregoing reasons or where the department or self-insurer in its discretion finds that a transfer is in the best interest of returning the worker to a productive role in society.

When a worker's care is transferred to another doctor each doctor must submit a separate bill to the department or self-insurer for their portion of the care. Payment will be made at rates determined by department policy.

WAC 296-20-071 Concurrent treatment

In some cases, treatment by more than one practitioner may be allowed. The department or self-insurer will consider concurrent treatment when the accepted conditions resulting from the injury involve more than one system and/or require specialty or multidisciplinary care.

When requesting consideration for concurrent treatment, the attending doctor must provide the department or self-insurer with the following:

The name, address, discipline, and specialty of all other practitioners assisting in the treatment of the injured worker and an outline of their responsibility in the case and an estimate of the length of the period of concurrent care.

When concurrent treatment is allowed, the department or self-insurer will recognize one primary attending doctor, who will be responsible for prescribing all medications; directing the over-all treatment program; providing copies of all reports and other data received from the involved practitioners and, in time loss cases, providing adequate certification evidence of the worker's inability to work.

The department or self-insurer will approve concurrent care on a case-by-case basis.

Consideration will be given to all factors in the case including availability of providers in the worker's geographic location.

WAC 296-20-075 Hospitalization

- (1) Hospitalization will be paid for proper and necessary medical treatment of the accepted condition(s). The department may develop and implement utilization management criteria which will be used to review inpatient hospital admissions. Reimbursement for hospitalization is limited to proper and necessary care for an accepted condition. Failure to comply with these criteria may result in delayed or reduced reimbursement to the provider as allowed under chapter 51.48 RCW. Ward or semi-private accommodations will be paid, unless the worker's condition requires special care.
- (2) Discharge from the hospital shall be at the earliest date possible consistent with proper health care. If transfer to a convalescent center or nursing home is indicated, prior arrangements should be made with the department or self-insurer. See WAC 296-20-091 for further information. The department may designate those diagnostic and surgical procedures which will be reimbursed only if performed in an outpatient setting. When procedures so designated must be performed in an inpatient setting for reasons of medical necessity, prior authorization must be obtained.

WAC 296-20-081 Unrelated concurrent nonemergent surgery

Elective surgery for an unrelated condition is not normally permitted during hospitalization for an industrial condition. Under some circumstances unrelated elective surgery may be permitted through prior agreement and approval by the department provided the unrelated surgery is not more extensive than the procedure for the industrial condition. The requesting doctor must submit a written request and identify which services are needed due to the industrial injury and which are needed due to unrelated conditions, along with an estimate of what effect, if any, the unrelated surgery will have on the accepted conditions and recovery time from surgery.

WAC 296-20-091 Home nursing

A worker temporarily totally disabled or permanently totally disabled may either temporarily or permanently require home nursing care. A physician's request and prior department authorization are required for home nursing care.

Home health, hospice, and home care agency providers shall be licensed.

WAC 296-20-097 Reopenings

When a claim has been closed by the department or self-insurer by written order and notice for sixty days, submission of a formal "application to reopen claim for aggravation of condition" form (LI 210-79) is necessary. The department or self-insurer is responsible for customary charges for examinations, diagnostic studies, and determining whether or not time-loss is payable regardless of the final action taken on the reopening application. Reopening applications should be submitted immediately. When reopening is granted, the department or self-insurer can pay time loss and treatment benefits only for a period not to exceed sixty days *prior* to date the application is received by the department or self-insurer. Necessary treatment should not be deferred pending a department or self-insurer adjudication decision. However, should reopening be denied treatment costs become the financial responsibility of the worker.

[Statutory Authority: RCW 51.32.190 and 51.32.210. 90-22-054, § 296-20-097, filed 11/5/90, effective 12/6/90. WAC 296-20-09701 Request for reconsideration

On occasion, a claim may be closed prematurely or in error or other adjudication action may be taken, which may seem inappropriate to the doctor or injured worker. When this occurs the attending doctor should submit immediately in writing his request for reconsideration of the adjudication action, supported by an outline of:

- (1) The claimant's current condition.
- (2) The treatment program being received.
- (3) The prognosis of when stabilization will occur.

All requests for reconsideration must be received by the department or self-insurer within sixty days from date of the order and notice of closure. Request for reconsideration of other department or self-insurer orders or actions must be made in writing by either the doctor or the injured worker within sixty days of the date of the action or order.

[Statutory Authority: RCW 51.04.020(4), 51.04.030, and 51.16.120(3). 81-01-100 (Order 80-29), § 296-20-09701, filed 12/23/80, effective 3/1/81.]

WAC 296-20-100 Eye glasses and refractions

The department or self-insurer will be responsible one time for replacement of glasses or contact lenses only to the extent of the cost of restoring damaged item to its condition at the time of the accident. This benefit applies only if the worker was wearing the glasses or contact lens when the industrial accident occurred.

If glasses are repairable and a worker determines that he/she prefers a replacement, the department or self-insurer is responsible only for the cost of the repairs and the worker is responsible for the difference between repair and replacement costs.

Refraction to replace a broken or lost lens is only payable when it is substantiated that the prescription was not available from the broken lens or any other source. If the prescription is available, and the patient needs a new refraction, he is responsible for the costs of such exam.

If a refractive error is the result of the industrial injury or occupational disease condition, refraction and glasses or contact lenses will be authorized and paid by the department or self-insurer.

When broken or lost glasses or contact lenses are the only injury or condition suffered, the doctor's portion of the report of accident can be completed by an optometrist or other vendor furnishing the replacement. A report of accident must be received by the department or self-insurer in order to adjudicate the claim.

WAC 296-20-110 Dental

Only dentists, oral surgeons or dental specialists licensed in the state in which they practice are eligible to treat workers entitled to benefits under the industrial insurance law.

If only a dental injury is involved, the doctor's portion of the report of accident must be completed by the dentist to whom the worker first reports. See WAC 296-20-025 for further information.

If the accident report has been submitted by another doctor, the dentist's report should be made by letter. In addition to the information required under WAC 296-20-025, the dentist should outline the extent of the dental injury and the treatment program necessary to repair damage due to the injury. Dental x-rays should be retained by the attending dentist for a period of not less than ten years. The department or self-insurer does not require submission of the actual films except upon specific request.

The department or self-insurer is responsible only for repair or replacement of teeth injured or dentures broken as a result of an industrial accident. Any dental work needed due to underlying conditions unrelated to the industrial injury is the responsibility of the worker. It is the responsibility of the dentist to advise the worker accordingly.

In cases presenting complication, controversy, or diagnostic or therapeutic problems, consultation by another dentist may be requested to support authorization for restorative repairs.

Bills covering the cost of dentures should be submitted for the denture only and should not include the cost for subsequent relining. If relining becomes necessary, authorization for relining must be obtained in advance from the department or self-insurer.

Bills must be submitted to the department or self-insurer within one year from the date the service is rendered. Bills must itemize the service rendered, including the current HCPCS Level II codes, the materials used and the injured tooth number(s). See WAC 296-20-125 and department policy for further billing rules.

WAC 296-20-1101 Hearing aids and masking devices

The department or self-insurer is responsible for replacement or repair of hearing aids damaged or lost due to an industrial accident only to the extent of restoring the damaged item to its condition at time of the accident. If the hearing aid is repairable and the worker determines he prefers replacement, the department or self-insurer is responsible only to the extent of the cost to repair the original and the worker is responsible for the difference between repair and replacement costs.

When the department or self-insurer has accepted a hearing loss condition either as a result of industrial injury or occupational exposure, the department or self-insurer will furnish a hearing aid (hearing aids when bilateral loss is present) when prescribed or recommended by a physician.

The department or self-insurer will bear the cost of repairs or replacement due to normal wear and the cost of battery replacement for the life of the hearing aid.

In cases of accepted tinnitus, the department or self-insurer may provide masking devices under the same provisions as outlined for hearing aids due to hearing loss.

Provision of masking devices and hearing aids require prior authorization.

WAC 296-20-1102 Special equipment rental and purchase prosthetic and orthotics equipment

The department or self-insurer will authorize and pay rental fee for equipment or devices if the need for the equipment will be for a short period of treatment during the acute phase of condition. Rental extending beyond sixty days requires prior authorization. If the equipment will be needed on long term basis, the department or self-insurer will consider purchase of the equipment or device. The department's or self-insurer's decision to rent or purchase an item of medical equipment will be based on a comparison of the projected rental costs of the item with its purchase price. An authorized representative of the department or self-insurer will decide whether to rent or purchase certain items, provided they are appropriate and medically necessary for treatment of the worker's accepted industrial condition. Decisions to rent or purchase items will be based on the following information:

- (1) Purchase price of the item.
- (2) Monthly rental fee.
- (3) The prescribing doctor's estimate of how long the item will be needed.

The prescribing doctor must obtain prior authorization from the department or self-insurer, for rental or purchase of special equipment or devices. Also, all equipment (rentals and purchases), prosthetics, and orthotics must be billed using the appropriate codes, and billing forms, as determined by the medical aid rules and fee schedules.

The department or self-insurer will authorize and pay for prosthetics and orthotics as needed by the worker and substantiated by attending doctor. If such items are furnished by the attending doctor, the department or self-insurer will reimburse the doctor his cost for the item. See chapter 296-20 WAC (including WAC 296-20-124) and the fee schedules for information regarding replacement of such items on closed claims.

The department or self-insurer will repair or replace originally provided damaged, broken, or worn-out prosthetics, orthotics, or special equipment devices upon documentation and substantiation from the attending doctor.

Provision of such equipment requires prior authorization.

The gravity guiding system, gravity lumbar reduction device, backswing and other inversion traction equipment may only be used in a supervised setting. Rental or purchase for home use will not be allowed nor paid by the department or self-insurer.

Equipment not requiring prior authorization includes crutches, cervical collars, lumbar and rib belts, and other commonly used orthotics of minimal cost.

Personal appliances such as vibrators, heating pads, home furnishings, hot tubs, waterbeds, exercise bikes, exercise equipment, jacuzzies, pillows, cassette tapes, educational materials or books, and other similar items will not be authorized or paid.

In no case will the department or self-insurer pay for rental fees once the purchase price of the rented item has been reached.

WAC 296-20-1103 Travel expense

The department or self-insurer will reimburse travel expense incurred by workers for the following reasons:

- (1) Examinations at department's or self-insurer's request;
- (2) vocational services at department's or self-insurer's request;
- (3) treatment at department rehabilitation center;
- (4) fitting of prosthetic device; and
- (5) upon *prior authorization* for treatment when worker must travel more than ten miles one-way from the worker's home to the nearest point of adequate treatment. Travel expense *is not* payable when adequate treatment is available within ten miles of injured worker's home, yet the injured worker prefers to report to an attending doctor outside the worker's home area.

Travel expenses will be reimbursed at the current department rate.

Receipts are required for all expenses except parking expenses under ten dollars.

Claims for reimbursement of travel expenses must be received by the department or self-insurer within one year after the date expenses are incurred. Refer to WAC 296-20-125 and to department policy for additional rules.

WAC 296-20-12050 Special programs

- (1) The department or self-insurer may from time to time enter into special agreements for services provided by, or under the direction of, licensed providers authorized to bill the

department. Special agreements are for services other than routine services covered under the fee schedule, and may include multi-disciplinary or inter-disciplinary programs such as pain management, work hardening, and physical conditioning.

(2) The department shall establish payment rates for special agreements, and may establish outcome criteria, measures of effectiveness, minimum staffing levels, certification requirements, special reporting requirements and such other criteria as will ensure injured workers receive good quality and effective services at a prudent cost.

(3) Special agreements shall be purchased at the discretion of the department or self-insurer. The department may terminate special programs from the industrial insurance program upon thirty days notice to the provider.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 87-24-050 (Order 87-23), § 296-20-12050, filed 11/30/87, effective 1/1/88.]

WAC 296-20-121 X-rays

Recognizing the greatest need for access to x-rays lies with the attending doctor, the department or self-insurer requires only submission of x-ray findings and does not require submission of the actual films except upon specific request when needed for purposes of permanent disability rating, other administrative or legal decisions, or in litigation cases. The department or self-insurer requires the attending doctor retain x-rays for a period of not less than ten years. In transfer cases, the x-rays in the possession of the current attending doctor must be made available to the new attending doctor.

When requesting consultation, the attending doctor should make any x-rays in his possession available to the consultant.

When a special exam has been arranged for the worker by the department or self-insurer, the worker's existing x-rays should be provided to the special examiner. The worker may carry such x-rays to the exam.

When the doctor's office is closed because of death, retirement or leaving the state, arrangements must be made with the department or self-insurer regarding custody of x-rays to insure availability on request. When submitting billing for x-ray service, a copy of the x-ray findings is required. No payment will be made for excessive or unnecessary x-rays. No payment will be made on closed or rejected claims, except under conditions outlined in WAC 296-20-124.

Prior authorization is required for x-rays subsequent to the initial study. Repeat or serial radiology examinations may be performed only upon adequate clinical justification to confirm changes in the condition(s) accepted. The subjective complaints and the objective findings substantiating the repeat study must be submitted by the practitioner in the request for authorization to the department or self-insurer.

WAC 296-20-124 Rejected and closed claims

(1) No payment will be made for treatment or medication on rejected claims or for services rendered after the date of claim closure.

(2) When the department or self-insurer has denied responsibility for an alleged injury or industrial condition the only services which will be paid are those which were carried out at the specific request of the department or the self-insurer and/or those

examination or diagnostic services which served as a basis for the adjudication decision. Following the date of the order and notice of claim closure, the department or self-insurer will be responsible only for those services specifically requested or those examinations, and diagnostic services necessary to complete and file a reopening application.

- (3) Periodic medical surveillance examinations will be covered by the department or self-insurer for workers with closed claims for asbestos-related disease, to include chest x-ray abnormalities, without the necessity of filing a reopening application when such examinations are recommended by accepted medical protocol.
- (4) Replacement of prosthetics, orthotics, and special equipment can be provided on closed claims after prior authorization. See WAC 296-20-1102 for further information.

WAC 296-20-12401 Provider application process

(1) How can a provider obtain a provider account number from the department?

In order to receive a provider account number from the department, a provider must:

- Complete a provider application
- Sign a provider agreement,
- Provide a copy of any practice or other license held,
- Complete, sign and return a Form W-9, and
- Meet the department's provider eligibility requirements as cited in the department's rules.

NOTES:

A provider account number is required to receive payment from the department, but is not a guarantee of payment for services.

Self-insured employers may have additional requirements for provider status.

(2) Provider account status definitions

- Active - account information is current and provider is eligible to receive payment
- Inactive - account is not eligible to receive payment based on action by the department or at provider request. These accounts can be reactivated.
- Terminated - account is not eligible to receive payment based on action by the department or at provider request. These accounts can not be reactivated.

(3) When may the department inactivate a provider account?

The department may inactivate a provider account when:

- There has been no billing activity on the account for eighteen (18) months, or
- The provider requests inactivation, or
- Provider communications are returned due to address changes, or

- The department changes the provider application or application procedures, or
- Provider does not comply with department request to update information.

(4) When may the department terminate a provider account?

The department may terminate a provider account when:

- The provider is found ineligible to treat per department rules, or
- The provider requests termination, or
- The provider dies or is no longer in active business status.

(5) How can a provider reactivate a provider account?

To reactivate a provider account, the provider may call or write the department. The department may require the provider to update the provider application and/or agreement or complete other needed forms prior to reactivation. Account reactivation is subject to department review. If a provider account has been terminated, a new provider application will be required.

WAC 296-20-125 Billing procedures

All services rendered must be in accordance with the medical aid rules, fee schedules, and department policy. The department or self-insurer may reject bills for services rendered in violation of these rules. Workers may not be billed for services rendered in violation of these rules.

- (1) Bills must be itemized on department or self-insurer forms or other forms which have been approved by the department or self-insurer. Bills may also be transmitted electronically using department file format specifications. Providers using any of the electronic transfer options must follow department instructions for electronic billing. Physicians, osteopaths, advanced registered nurse practitioners, chiropractors, naturopaths, podiatrists, psychologists, and registered physical therapists use the national standard HCFA-1500 health insurance claim form with the bar code placed 2/10 of an inch from the top and 1 1/2 inches from the left side of the form. Hospitals use the UB-92 billing form for institution services and the national standard HCFA-1500 health insurance claim form with the bar code placed 2/10 of an inch from the top and 1 1/2 inches from the left side of the form for professional services. Hospitals should refer to chapter 296-23A WAC for billing rules pertaining to institution, or facilities, charges. Pharmacies use the department's statement for pharmacy services. Dentists, equipment suppliers, transportation services, vocational services, and massage therapists use the department's statement for miscellaneous services. When billing the department for home health services, providers should use the "statement for home nursing services." Providers may obtain billing forms from the department's local service locations.
- (2) Bills must specify the date and type of service, the appropriate procedure code, the condition treated, and the charges for each service.
- (3) Bills submitted to the department must be completed to include the following:
 - (a) Worker's name and address;
 - (b) Worker's claim number;
 - (c) Date of injury;

- (d) Referring doctor's name and L & I provider account number;
 - (e) Area of body treated, including ICD-9-CM code(s), identification of right or left, as appropriate;
 - (f) Dates of service;
 - (g) Place of service;
 - (h) Type of service;
 - (i) Appropriate procedure code, hospital revenue code, or national drug code;
 - (j) Description of service;
 - (k) Charge;
 - (l) Units of service;
 - (m) Tooth number(s);
 - (n) Total bill charge;
 - (o) The name and address of the practitioner rendering the services and the provider account number assigned by the department;
 - (p) Date of billing;
 - (q) Submission of supporting documentation required under subsection (6) of this section.
- (4) Responsibility for the completeness and accuracy of the description of services and charges billed rests with the practitioner rendering the service, regardless of who actually completes the bill form;
 - (5) Vendors are urged to bill on a monthly basis. Bills must be received within one year of the date of service to be considered for payment.
 - (6) The following supporting documentation is required when billing for services:
 - (a) Laboratory and pathology reports;
 - (b) X-ray findings;
 - (c) Operative reports;
 - (d) Office notes;
 - (e) Consultation reports;
 - (f) Special diagnostic study reports;
 - (g) For BR procedures - see chapter 296-20 WAC for requirements; and
 - (h) Special or closing exam reports.
 - (7) The claim number must be placed on each bill and on each page of reports and other correspondence in the upper right-hand corner.
 - (8) The following considerations apply to rebills.
 - (a) If you do not receive payment or notification from the department within one hundred twenty days, services may be rebilled.
 - (b) Rebills must be submitted for services denied if a claim is closed or rejected and subsequently reopened or allowed. In these instances, the rebills must be received within one year of the date the final order is issued which subsequently reopens or allows the claim.
 - (c) Rebills should be identical to the original bill: Same charges, codes, and billing date.
 - (d) In cases where vendors rebill, please indicate "REBILL" on the bill.

- (9) The department or self-insurer will adjust payment of charges when appropriate. The department or self-insurer must provide the health care provider or supplier with a written explanation as to why a billing or line item of a bill was adjusted at the time the adjustment is made. A written explanation is not required if the adjustment was made solely to conform with the maximum allowable fees as set by the department. Any inquiries regarding adjustment of charges must be received in the required format within ninety days from the date of payment to be considered. Refer to the medical aid rules for additional information.

WAC 296-20-12501 Physician assistant billing procedure

Billing for physician assistant services can be made only by the supervising physician at ninety percent of the value listed in the fee schedules. Payment will be made directly to the supervising physician. All physician assistant services must be identified by using physician assistant modifiers, as listed in chapter 296-21 WAC and the fee schedules.

- (1) Bills must be itemized on department or self-insurer forms, as the case may be, specifying: The date, type of service and the charges for each service.
- (2) The bill form must be completed in detail to include the claim number. While the name of the physician's assistant rendering service must be included on the bill, all bills must be submitted under the supervising physician account number. Bills will be accepted when signed by other than the practitioner rendering services. When bills are prepared by someone else, the responsibility for the completeness and accuracy of the description of services and charges rests with the supervising physician.
- (3) For a bill to be considered for payment, it must be received in the department or by the self-insurer within one year from the date each specific treatment and/or service was rendered or performed. Whenever possible, bills should be submitted monthly.
- (4) Bills cannot be paid for services rendered while a claim is closed.
- (5) The department or self-insurer may deny payment of bills for services rendered in violation of the medical aid rules or department policy. Workers may not be billed for services rendered in violation of these rules.

WAC 296-20-132 Determination of conversion factor adjustments

Adjustments to the conversion factors for providers and services covered by the fee schedules and by department policy may occur annually following prior public hearings.

Such adjustments will be based on the estimated increase/decrease in the state's average wage for the current year and on other factors as determined by department policy. The following calendar year's estimate, of the average state wage will be adjusted to reflect the actual increase/decrease in the state's average wage for the preceding year.

The total percentage change for any one calendar year for the conversion factors may not exceed the total of the estimated increase/decrease in the current year, plus or minus the actual adjustment for the preceding calendar year.

WAC 296-20-135 Conversion factors

- (1) Conversion factors are used to calculate payment levels for services reimbursed under the Washington resource based relative value scale (RBRVS), and for anesthesia services payable with base and time units.
- (2) **Washington RBRVS** services have a conversion factor of ~~(((\$49.60))~~ \$50.51. The fee schedules list the reimbursement levels for these services.
- (3) **Anesthesia services** that are paid with base and time units have a conversion factor of ~~(((\$2.70))~~ \$2.78 per minute, which is equivalent to ~~(((\$40.50))~~ \$41.70 per 15 minutes. The base units and payment policies can be found in the fee schedules.

WAC 296-20-170 Pharmacy-Acceptance of rules and fees

Acceptance and filling of a prescription for a worker entitled to benefits under the industrial insurance law, constitutes acceptance of the department's rules and fees. When there is questionable eligibility, (i.e., no claim number, prescription is for medication other than usually prescribed for industrial injury; or pharmacist has reason to believe claim is closed or rejected), the pharmacist may require the worker to pay for the prescription. In these cases, the pharmacist must furnish the worker with a signed receipt and a nonnegotiable copy of the prescription including national drug code and quantity or a completed department pharmacy bill form signed in the appropriate areas verifying worker has paid for the prescribed item(s) in order for the worker to bill the department or self-insurer for reimbursement. The worker may not be charged more than the amount allowable by the department or self-insurer. The worker must submit such reimbursement request within one year of the date of service.

WAC 296-20-17001 Allowance and payment for medication

The department or self-insurer will pay for medications or supplies dispensed for the treatment of conditions resulting from an industrial injury and/or conditions which are retarding the recovery from the industrial injury, for which the department or self-insurer has accepted temporary responsibility.

Approved generics are to be substituted for brand name pharmaceuticals in all cases unless the worker's condition will not tolerate a generic preparation and the prescribing physician indicates no substitution is permitted. A list of approved generics and their base cost will be published periodically by the department.

Items not normally paid include: Syringes, injectables, heating pads, vibrators, personal appliances, oral nutritional supplements, anorexiant, and medications normally prescribed for systemic conditions. These items may be authorized to certain individuals in unusual circumstances; prior approval from the department or self-insurer is mandatory.

Rental or purchase of medical equipment must be prior authorized by the department or self-insurer.

No bills will be paid for medication dispensed after the date of order and notice of claim closure, on an accepted claim; nor, on rejected claims; nor for conditions unrelated to the industrial condition.

WAC 296-20-17002 Billing

In addition to the billing procedures described in WAC 296-20-125 and in department policy the current national drug code number for each prescribed drug, followed by the average wholesale price to the pharmacy must be entered on each prescription. The department's statement for pharmacy services must be used when billing the department for NDC medications and supplies. The department's statement for miscellaneous services must be used when billing the department for non-NDC medications and supplies. In addition, the claimant's name, claim number, date of injury, prescribing doctor's name and department of labor and industries provider number; and the assigned department provider number for the pharmacy must be on the bill. Bills for medication not containing this information will be returned to the pharmacy. Billing must be made within one year of the date of service. It is requested bills be presented on a monthly basis.

When billing the department for compound prescriptions, providers must use the "Statement for Compound Prescriptions."

WAC 296-20-200 General information

- (1) The department of labor and industries has promulgated the following rules and categories to provide a comprehensive system of classifying unspecified permanent partial disabilities in the proportion they reasonably bear to total bodily impairment. The department's objectives are to reduce litigation and establish more certainty and uniformity in the rating of unspecified permanent partial disabilities pursuant to RCW 51.32.080(2).
- (2) The following system of rules and categories directs the examiner's attention to the actual conditions found and establishes a uniform system for conducting rating examinations and reporting findings and conclusions in accord with broadly accepted medical principles.

The evaluation of bodily impairment must be made by experts authorized to perform rating examinations. This system recognizes and provides for this. After conducting the examination, the examiner will choose the appropriate category for each bodily area or system involved in the particular claim and include this information in the report. The examiner will, therefore, in addition to describing the worker's condition in the report, submit the conclusions as to the relative severity of the impairment by giving it in terms of a defined condition rather than a personal opinion as to a percentage figure. In the final section of this system of categories and rules are some rules for determining disabilities and the classification of disabilities in bodily impairment is listed for each category. These last provisions are for the department's administrative use in acting upon the expert opinions which have been submitted to it.

- (3) In preparing this system, the department has complied with its duty to enact rules classifying unspecified disabilities in light of statutory references to nationally recognized standards or guides for determining various bodily impairments. Accordingly, the department has obtained and acted upon sound established medical opinion in thus classifying unspecified disabilities in the reasonable proportion they bear to total bodily impairment. In framing descriptive language of the categories and in assigning a percentage of disability, careful consideration has been given to nationally recognized medical standards and guides. Both are matters calling for the use of expert medical knowledge. For this reason, the meaning given the words used in this set of categories and accompanying rules, unless the text or context clearly indicates the contrary, is the meaning attached to the words in normal medical usage.
- (4) The categories describe levels of physical and mental impairment. Impairment is anatomic or functional abnormality or loss of function after maximum medical rehabilitation has been achieved. This is the meaning of "impairment" as the word is used in the guides mentioned above. This standard applies to all persons equally, regardless of factors other than loss of physical or mental function. Impairment is evaluated without reference to the nature of injury or the treatment therefore, but is based on the functional loss due to the injury or occupational disease. The categories have been framed to include conditions in other bodily areas which derive from the primary impairment. The categories also include the presence of pain, tenderness and other complaints. Workers with comparable loss of function thus receive comparable awards.
- (5) These rules and categories (WAC 296-20-200 through 296-20-690) shall only be applicable to compensable injuries occurring on or after the effective date of these rules and categories.
- (6) These rules and categories (WAC 296-20-200 through 296-20-690) shall be applicable only to cases of permanent partial disability. They have no applicability to determinations of permanent total disability.

WAC 296-20-210 General rules

These general rules establish a uniform standard for conducting examinations and submitting reports of examinations. These general rules must be followed by doctors who make examinations or evaluations of permanent bodily impairment.

- (1) Examinations for the determination of the extent of permanent bodily impairment shall be made only by doctors currently licensed in medicine and surgery (including osteopathic and podiatric) or dentistry, and department-approved chiropractors. A

chiropractic evaluation of permanent impairment may be performed only where the worker has been clinically managed by a chiropractor.

- (2) Whenever an examination is made, the examiner shall record, among other pertinent information, the complete history as obtained from the person examined; the complete history of past injuries and diseases; the complaints; the age, sex, height and weight; x-ray findings and diagnostic tests made or reviewed in connection with the examination; the diagnosis; and all findings, including negative findings, in all bodily areas and systems where a detailed review of systems reveals past or present complaints. The examiner shall record his conclusions as to: Whether the residuals of the injury are fixed; whether treatment is required for the injury and, if so, any treatment shall be described. If the examiner finds residuals of the injury are fixed, he shall record the appropriate category or categories of permanent impairment for diagnoses attributable to the industrial injury or occupational disease. Conditions or impairments not attributable to the industrial injury or occupational disease shall be described and diagnosed in the report, with a description of how they affect the person examined and the appropriate category of permanent impairment where possible.
- (3) The examiner shall not assign a percentage figure for permanent bodily impairment described in the categories established herein.
- (4) Reports shall specify diagnoses and medical terms as listed in current procedural terminology (CPT), current medical information and terminology (CMIT), international classification of diseases adopted (ICDA), or standard nomenclature of disease, except when otherwise specified in these rules.
- (5) Workers who are scheduled for disability examinations are allowed to bring with them an accompanying person to be present during the physical examination. The accompanying person cannot be compensated in any manner, except that language interpreters may be necessary for the communication process and may be reimbursed for interpretative services.

The department may designate those conditions under which the accompanying person is allowed to be present during the disability examination process.

WAC 296-20-220 Special rules for evaluation of permanent bodily impairment

- (1) Evaluations of permanent bodily impairment using categories require uniformity in procedure and terminology. The following rules have been enacted to produce this uniformity and shall apply to all evaluations of permanent impairment of an unspecified nature.
 - (a) Gradations of relative severity shall be expressed by the words "minimal," "mild," "moderate" and "marked" in an ascending scale. "Minimal" shall describe deviations from normal responses which are not medically significant. "Mild," "moderate" and "marked" shall describe ranges of medically significant deviations from normal responses. "Mild" shall describe the least severe third. "Moderate" shall describe the middle third. "Marked" shall describe the most severe third.
 - (b) "Permanent" describes those conditions which are fixed, lasting and stable, and from which within the limits of medical probability, further recovery is not expected.
 - (c) "Impairment" means a loss of physical or mental function.

- (d) "Total bodily impairment," as used in these rules, is the loss of physical or mental function which is essentially complete short of death.
- (e) The examiner shall not assign a percentage figure for permanent bodily impairment described in the categories established herein.
- (f) The method of evaluating impairment levels is by selection of the appropriate level of impairment. These descriptive levels are called "categories." Assessments of the level of impairment are to be made by comparing the condition of the injured workman with the conditions described in the categories and selecting the most appropriate category.

These rules and categories for various bodily areas and systems provide a comprehensive system for the measurement of disabling conditions which are not already provided for in the list of specified permanent partial disabilities in RCW 51.32.080(1). Disabilities resulting from loss of central visual acuity, loss of an eye by enucleation, loss of hearing, amputation or loss of function of the extremities will continue to be evaluated as elsewhere provided in RCW 51.32.080.

The categories have been classified in percentages in reasonable proportion to total bodily impairment for the purpose of determining the proper award. Provision has been made for correctly weighing the overall impairment due to particular injuries or occupational disease in cases in which there are preexisting impairments.

- (g) The categories of the various bodily areas and systems are listed in the order of increasing impairment except as otherwise specified. Where several categories are given for the evaluation of the extent of permanent bodily impairment, the impairments in the higher numbered categories, unless otherwise specified, include the impairments in the lesser numbered categories. No category for a condition due to an injury shall be selected unless that condition is permanent as defined by these rules.

The examiner shall select the one category which most accurately indicates the overall degree of permanent impairment unless otherwise instructed. Where there is language in more than one category which may appear applicable, the category which most accurately reflects the overall impairment shall be selected.

The categories include appropriate subjective complaints in an ascending scale in keeping with the severity of objective findings, thus a higher or lower category is not to be selected purely on the basis of unusually great or minor complaints.

- (h) When the examination discloses a preexisting permanent bodily impairment in the area of the injury, the examiner shall report the findings and any category of impairment appropriate to the worker's condition prior to the industrial injury in addition to the findings and the categories appropriate to the worker's condition after the injury.
- (i) Objective physical or clinical findings are those findings on examination which are independent of voluntary action and can be seen, felt, or consistently measured by examiners.
- (j) Subjective complaints or symptoms are those perceived only by the senses and feelings of the person being examined which cannot be independently proved or established.
- (k) Muscle spasm as used in these rules is an involuntary contraction of a muscle or group of muscles of a more than momentary nature.
- (l) An involuntary action is one performed independently of the will.
- (m) These special rules for evaluation of permanent bodily impairment shall apply to all examinations for the evaluation of impairment, in accordance with RCW

51.32.080, for the body areas or systems covered by or enumerated in WAC 296-20-230 through 296-20-660.

- (n) The rules for evaluation of each body area or system are an integral part of the categories for that body area or system.
- (o) In cases of injury or occupational disease of bodily areas and/or systems which are not included in these categories or rules and which do not involve loss of hearing, loss of central visual acuity, loss of an eye by enucleation or loss of the extremities or use thereof, examiners shall determine the impairment of such bodily areas and/or systems in terms of percentage of total bodily impairment.
- (p) The words used in the categories of impairments, in the rules for evaluation of specific impairments, the general rules, and the special rules shall be deemed, unless the context indicates the contrary, to have their general and accepted medical meanings.
- (q) The rating of impairment due to total joint replacement shall be in accordance with the limitation of motion guidelines as set forth in the "Guides to the Evaluation of Permanent Impairment" of American Medical Association, with department of labor and industries acknowledgement of responsibility for failure of prostheses beyond the seven year limitation.

WAC 296-20-230 Cervical and cervico-dorsal impairments

- (1) Rules for evaluation of cervical and cervico-dorsal impairments are as follows:
 - (a) Muscle spasm or involuntary guarding, bony or fibrous fusion, any arthritic condition, internal fixation devices or other physical finding shall be considered, in selecting the appropriate category, only insofar as productive of cervical or cervico-dorsal impairment.
 - (b) Gradations of clinical findings of cervico-dorsal impairments in terms of "mild," "moderate" or "marked" shall be based on objective medical tests.
 - (c) Categories 2, 3, 4 and 5 include the presence of complaints of whatever degree in the neck or extremities.
 - (d) Bladder and/or bowel sphincter impairments deriving from cervical and cervico-dorsal impairment shall be evaluated separately.
 - (e) Neck as used in these rules and categories shall include the cervical and adjacent areas.

[Order 74-32, § 296-20-230, filed 6/21/74, effective 10/1/74.]

WAC 296-20-240 Categories of permanent cervical and cervico-dorsal impairments

- (1) No objective clinical findings are present. Subjective complaints may be present or absent.
- (2) Mild cervico-dorsal impairment, with objective clinical findings of such impairment with neck rigidity substantiated by x-ray findings of loss of anterior curve, without significant objective neurological findings.

This and subsequent categories include the presence or absence of pain locally and/or radiating into an extremity or extremities. This and subsequent categories also include the presence or absence of reflex and/or sensory losses. This and

subsequent categories also include objectively demonstrable herniation of a cervical intervertebral disc with or without discectomy and/or fusion, if present.

- (3) Mild cervico-dorsal impairment, with objective clinical findings of such impairment, with neck rigidity substantiated by x-ray findings of loss of anterior curve, narrowed intervertebral disc spaces and/or osteoarthritic lipping of vertebral margins, with significant objective findings of mild nerve root involvement.

This and subsequent categories include the presence or absence of any other neurological deficits not otherwise specified in these categories with the exception of bladder and/or bowel sphincter impairments.

- (4) Moderate cervico-dorsal impairment, with objective clinical findings of such impairment, with neck rigidity substantiated by x-ray findings of loss of anterior curve, narrowed intervertebral disc spaces and/or osteoarthritic lipping of vertebral margins, with objective findings of moderate nerve root involvement with weakness and numbness in one or both upper extremities.
- (5) Marked cervico-dorsal impairment, with marked objective clinical findings of such impairment, with neck rigidity substantiated by x-ray findings of loss of anterior curve, narrowed intervertebral disc spaces and/or osteoarthritic lipping of vertebral margins, with objective findings of marked nerve root involvement with weakness and numbness in one or both upper extremities.

[Order 74-32, § 296-20-240, filed 6/21/74, effective 10/1/74.]

WAC 296-20-250 Impairments of the dorsal area

- (1) Rules for evaluation of permanent dorsal area impairments are as follows:
 - (a) Muscle spasm or involuntary guarding, bony or fibrous fusion, any arthritic condition, internal fixation devices or other physical finding shall be considered, in selection of the appropriate category, only insofar as productive of dorsal area impairment.
 - (b) Gradations of clinical findings of dorsal impairments in terms of "mild," "moderate" or "marked" shall be based on objective medical tests.
 - (c) Categories 2 and 3 include the presence of complaints of whatever degree.
 - (d) Bladder and/or bowel sphincter impairments deriving from impairments of the dorsal area shall be evaluated separately.
 - (e) Impairments which also involve the cervical or lumbar areas shall be evaluated only under the cervical and cervico-dorsal or dorsolumbar and lumbosacral categories.

[Order 74-32, § 296-20-250, filed 6/21/74, effective 10/1/74.]

WAC 296-20-260 Categories of permanent dorsal area impairments

- (1) No objective clinical findings are present. Subjective complaints may be present or absent.
- (2) Mild or moderate dorsal impairment, with objective clinical findings of such impairment, without significant objective neurological findings, with or without x-ray changes of narrowed intervertebral disc spaces and/or osteoarthritic lipping of intervertebral margins. Includes the presence or absence of reflex and/or sensory losses.

This and the subsequent category include the presence or absence of pain, locally or radiating from the dorsal area.

- (3) Marked dorsal impairment, with marked objective clinical findings, with marked x-ray findings of narrowed intervertebral disc spaces and/or osteoarthritic lipping of vertebral margins, with significant objective neurological deficits, complaints and/or findings, deriving from dorsal impairment.

[Order 74-32, § 296-20-260, filed 6/21/74, effective 10/1/74.]

WAC 296-20-270 Dorso-lumbar and lumbosacral impairments

- (1) Rules for evaluation of permanent dorso-lumbar and lumbosacral impairments are as follows:
 - (a) Muscle spasm or involuntary guarding, bony or fibrous fusion, any arthritic condition, internal fixation devices or other physical finding shall be considered, in selecting the appropriate category, only insofar as productive of low back impairment.
 - (b) Gradations of clinical findings of low back impairments in terms of "mild," "moderate" or "marked" shall be based on objective medical tests.
 - (c) All of the low back categories include the presence of complaints of whatever degree.
 - (d) Any and all neurological deficits, complaints, and/or findings in other bodily areas or systems which are the result of dorso-lumbar and lumbosacral impairments, except for objectively demonstrated bladder and/or bowel sphincter impairments, shall be evaluated by the descriptions contained in the categories of dorso-lumbar and lumbosacral impairments.
 - (e) Bladder and/or bowel sphincter impairments deriving from dorso-lumbar and lumbosacral impairments shall be evaluated separately.
 - (f) Low back as used in these rules and categories includes the lumbar and adjacent areas.

[Order 74-32, § 296-20-270, filed 6/21/74, effective 10/1/74.]

WAC 296-20-280 Categories of permanent dorso-lumbar and lumbosacral impairments

- (1) No objective clinical findings. Subjective complaints and/or sensory losses may be present or absent.
- (2) Mild low back impairment, with mild intermittent objective clinical findings of such impairment but no significant x-ray findings and no significant objective motor loss. Subjective complaints and/or sensory losses may be present.
- (3) Mild low back impairment, with mild continuous or moderate intermittent objective clinical findings of such impairment but without significant x-ray findings or significant objective motor loss.

This and subsequent categories include: The presence or absence of reflex and/or sensory losses; the presence or absence of pain locally and/or radiating into an extremity or extremities; the presence or absence of a laminectomy or discectomy with normally expected residuals.
- (4) Mild low back impairment, with mild continuous or moderate intermittent objective clinical findings of such impairment, with mild but significant x-ray findings and with mild but significant motor loss objectively demonstrated by atrophy and weakness of a specific muscle or muscle group.

This and subsequent categories include the presence or absence of a surgical fusion with normally expected residuals.

- (5) Moderate low back impairment, with moderate continuous or marked intermittent objective clinical findings of such impairment, with moderate x-ray findings and with mild but significant motor loss objectively demonstrated by atrophy and weakness of a specific muscle or muscle group.
- (6) Marked low back impairment, with marked intermittent objective clinical findings of such impairment, with moderate or marked x-ray findings and with moderate motor loss objectively demonstrated by atrophy and weakness of a specific muscle or muscle group.
- (7) Marked low back impairment, with marked continuous objective clinical findings of such impairment, with marked x-ray findings and with marked motor loss objectively demonstrated by marked atrophy and weakness of a specific muscle or muscle group.
- (8) Essentially total loss of low back functions, with marked x-ray findings and with marked motor loss objectively demonstrated by marked atrophy and weakness of a muscle group or groups.

WAC 296-20-290 Impairments of the pelvis

- (1) Rules for impairment of the pelvis:
 - (a) All of these categories include the presence of complaints of whatever degree.
 - (b) Categories 2, 5, 6 and 7 describe separate entities and more than one may be selected when appropriate. Category 9 includes the findings described in Category 3, and Category 8 includes the findings described in Category 4.

[Order 74-32, § 296-20-290, filed 6/21/74, effective 10/1/74.]

WAC 296-20-300 Categories of permanent impairments of the pelvis

- (1) Healed pelvic fractures without displacement, without residuals; healed fractures with displacement without residuals, of: Single ramus, bilateral rami, ilium, innominate or coccyx; or healed fracture of single rami with displacement with deformity and residuals.
- (2) Healed fractures with displacement with deformity and residuals of ilium.
- (3) Healed fractures of symphysis pubis, without separation with displacement without residuals.
- (4) Healed fractures of sacrum with displacement without residuals.
- (5) Healed fracture of bilateral rami with displacement with deformity and residuals.
- (6) Excision or nonunion of fractures of coccyx.
- (7) Healed fractures of innominate, displaced one inch or more, with deformity and residuals.
- (8) Healed fractures of sacrum extending into sacroiliac joint with deformity and residuals.
- (9) Healed fractures of symphysis, displaced or separated, with deformity and residuals.

WAC 296-20-303 Attendant Services

- (1) **What are attendant services?** Attendant services are proper and necessary personal care services provided to maintain the injured worker in his or her residence.
- (2) **Who may receive attendant services?** Workers who are temporarily or permanently totally disabled and rendered physically helpless by the nature of their industrial injury or occupational disease may receive attendant services.
- (3) **Is prior authorization required for attendant services?** Yes. To be covered by the department, attendant services must be requested by the attending physician and authorized by the department before care begins.
- (4) **What attendant services does the department cover?** The department covers proper and necessary attendant services that are provided consistent with the injured worker's needs, abilities and safety. Only attendant services that are necessary due to the physical restrictions caused by the accepted industrial injury or occupational disease are covered.

The following are examples of attendant services that may be covered:

- Bathing and personal hygiene;
- Dressing;
- Administration of medications;
- Specialized skin care, including changing or caring for dressings or ostomies;
- Tube feeding;
- Feeding assistance (not meal preparation);
- Mobility assistance, including walking, toileting and other transfers;
- Turning and positioning;
- Bowel and incontinent care; and
- Assistance with basic range of motion exercises.

Services the department considers everyday environmental needs, unrelated to the medical care of the worker are not covered. The following chore services are examples of services that are not covered: Housecleaning, laundry, shopping, meal planning and preparation, transportation of the injured worker, errands for the injured worker, recreational activities, yard work, and child care.

- (5) **Who may provide attendant services?** Attendant services provided on or after June 1, 2002, must be provided through an agency licensed, certified or registered to provide home care or home health services.

EXCEPTION: A worker who received department approved attendant services from a spouse prior to October 1, 2001, may continue to receive attendant services from that spouse as long as all of the following criteria are met.

The attendant service spouse provider:

- (a) Had an active provider account with the department on September 30, 2001; and
- (b) Maintains an active provider account with the department; and
- (c) Remains legally married to the injured worker; and

- (d) Allows the department or its designee to perform periodic independent nursing evaluations in the worker's residence.

- (6) **What are the treatment limits for attendant services?** The department will determine the maximum hours of authorized attendant care services based on an independent nursing assessment of the worker's care needs.

Spouses eligible to provide attendant services are limited to a maximum of seventy hours of attendant services per week or to the maximum hours authorized for the worker, whichever is less. Workers who are receiving attendant services from spouses and whose care needs exceed seventy hours per week must receive attendant services in excess of seventy hours from an agency eligible to provide attendant services.

EXCEPTION: The department may exempt a spouse from the seventy-hour limit if, after review by the department and based on independent nursing assessment:

- (a) The injured worker is receiving proper and necessary care; and
- (b) The worker's care needs exceed seventy hours per week; and
- (c) No eligible agency provider is available.

- (7) **Will the department review attendant services?** Yes. The department or its designee will perform periodic independent nursing evaluations of attendant services. Evaluations may include, but are not limited to, on-site review of the injured worker and review of medical records.

WAC 296-20-310 Convulsive neurological impairments

- (1) Rules for evaluation of convulsive neurological impairments:
 - (a) The description of Categories 2, 3 and 4 include the presence of complaints of whatever degree.

[Order 74-32, § 296-20-310, filed 6/21/74, effective 10/1/74.]

WAC 296-20-320 Categories of permanent convulsive neurological impairments

- (1) No electroencephalogram findings of convulsive neurological disorder. Subjective complaints may be present or absent.
- (2) Electroencephalogram findings of convulsive neurological disorder, but on appropriate medication there are no seizures.
- (3) Electroencephalogram findings of convulsive neurological disorder, and on appropriate medication there are each year either one through four major seizures or one through twelve minor seizures.
- (4) Electroencephalogram findings of convulsive neurological disorder, and on appropriate medication there are each year either more than four major seizures or more than twelve minor seizures.

WAC 296-20-330 Impairments of mental health

- (1) Rules for evaluation of permanent impairment of mental health:
 - (a) Mental illness means malfunction of the psychic apparatus that significantly interferes with ordinary living.
 - (b) Each person has a pattern of adjustment to life. The pattern of adjustment before the industrial injury or occupational disease serves as a base line for all assessments of whether there has been a permanent impairment due to the industrial injury or occupational disease.
 - (c) To determine the preinjury pattern of adjustment, all evaluations of mental health shall contain a complete preinjury history including, but not necessarily limited to: Family background and the relationships with parents or other nurturing figures; extent of education and reaction to it; military experience, if any; problems with civil authorities; any history of prolonged illness, and difficulty with recovery; any history of drug abuse or alcoholism; employment history, the extent of and reaction to responsibility, and relationships with others at work; capacity to make and retain friends; relationships with spouses and children; nature of daily activities, including recreation and hobbies; and lastly, some summary statement about the sources of the patient's self-esteem and sense of identity. Both strengths and vulnerabilities of the person shall be included.
 - (d) Differences in adjustment patterns before and after the industrial injury or occupational disease shall be described, and the report shall contain the examining physician's opinion as to whether any differences:
 - (1) Are the result of the industrial injury or occupational disease and its sequelae, in the sense they would not have occurred had there not been the industrial injury or occupational disease;
 - (2) are permanent or temporary;
 - (3) are more than the normal, self-correcting and expectable response to the stress of the industrial injury or occupational disease;
 - (4) constitute an impairment psychosocially or physiologically; and
 - (5) are susceptible to treatment, and, if so, what kind. The presence of any unrelated or coincidental mental impairment shall always be mentioned.
- (e) All reports of mental health evaluations shall use the diagnostic terminology listed in the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association.
- (f) No classification of impairment shall be made for complaints where the quality of daily life does not differ substantially from the preinjury pattern. A patient not currently employed may not engage in the same activities as when working, but the level and variety of his activities and zest for them shall distinguish the purely situational difference from cases of regression and withdrawal. In cases where some loss of use of body member is claimed, no category or impairment shall be assigned unless there are objective findings of physiologic regression or consistent evidence of altered adaptability.
- (g) The physician shall identify the schizoid, antisocial, inadequate, sociopathic, passive, hysterical, paranoid, or dependent personality types. Patients with these longstanding character disorders may show problem behavior that seems more related to current stress than it is, sometimes unconsciously insinuating themselves into difficult situations of which they then complain. Emotional reactions to an injury and subsequent events must be carefully evaluated in these patients. It must be medically

probable that such reactions are permanent before a category of impairment can be attributed to the injury; temporary reactions or preexisting psychopathology must be differentiated.

[Order 74-32, § 296-20-330, filed 6/21/74, effective 10/1/74.]

WAC 296-20-340 Categories for evaluation of permanent impairments of mental health

- (1) Nervousness, irritability, worry or lack of motivation following an injury and commensurate with it and/or other situational responses to injury that do not alter significantly the life adjustment of the patient may be present.
- (2) Any and all permanent worsenings of preexisting personality traits or character disorders where aggravation of preexisting personality trait or character disorder is the major diagnosis; mild loss of insight, mildly deficient judgment, or rare difficulty in controlling behavior, anxiety with feelings of tension that occasionally limit activity; lack of energy or mild apathy with malaise; brief phobic reactions under usually avoidable conditions; mildly unusual and overly rigid responses that cause mild disturbance in personal or social adjustment; rare and usually self-limiting psycho-physiological reactions; episodic hysterical or conversion reactions with occasional self-limiting losses of physical functions; a history of misinterpreted conversations or events, which is not a preoccupation; is aware of being absentminded, forgetful, thinking slowly occasionally or recognizes some unusual thoughts; mild behavior deviations not particularly disturbing to others; shows mild over-activity or depression; personal appearance is mildly unkempt. Despite such features, productive activity is possible most of the time. If organicity is present, some difficulty may exist with orientation; language skills, comprehension, memory; judgment; capacity to make decisions; insight; or unusual social behavior; but the patient is able to carry out usual work day activities unassisted.
- (3) Episodic loss of self-control with risk of causing damage to the community or self; moments of morbid apprehension; periodic depression that disturbs sleep and eating habits or causes loss of interest in usual daily activities but self-care is not a problem; fear-motivated behavior causing mild interference with daily life, frequent emotogenic organ dysfunctions requiring treatment; obsessive-compulsive reactions which limit usual activity; periodic losses of physical function from hysterical or conversion reactions; disturbed perception in that patient does not always distinguish daydreams from reality; recognizes his fantasies about power and money are unusual and tends to keep them secret; thought disturbances cause patient to fear the presence of serious mental trouble; deviant social behavior can be controlled on request; exhibits periodic lack of appropriate emotional control; mild disturbance from organic brain disease such that a few work day activities require supervision.
- (4) Very poor judgment, marked apprehension with startle reactions, foreboding leading to indecision, fear of being alone and/or insomnia; some psychomotor retardation or suicidal preoccupation; fear-motivated behavior causing moderate interference with daily life; frequently recurrent and disruptive organ dysfunction with pathology of organ or tissues; obsessive-compulsive reactions causing inability to work with others or adapt; episodic losses of physical function from hysterical or conversion reactions lasting longer than several weeks; misperceptions including sense of persecution or grandiosity which may cause domineering, irritable or suspicious behavior; thought disturbance causing memory loss that interferes with work or recreation; periods of confusion or vivid daydreams that cause withdrawal or reverie; deviations in social behavior which cause concern to others; lack of emotional control that is a nuisance to

family and associates; moderate disturbance from organic brain disease such as to require a moderate amount of supervision and direction of work day activities.

- (5) Marked apprehension so as to interfere with memory and concentration and/or to disturb markedly personal relationships; depression causing marked loss of interest in daily activities, loss of weight, unkempt appearance, marked psycho-motor retardation, suicidal preoccupation or attempts, or marked agitation as well as depression; marked phobic reactions with bizarre and disruptive behavior; psychophysiological reactions resulting in lasting organ or tissue damage; obsessive-compulsive reactions that preclude patient's usual activity; frequent or persistent loss of function from conversion or hysterical reactions with regressive tissue or organ change; defects in perception including frank illusions or hallucinations occupying much of the patient's time; behavior deviations so marked as to interfere seriously with the physical or mental well-being or activities of others; lack of emotional control including marked irritability or overactivity.

WAC 296-20-350 Cardiac impairments

- (1) Rule for evaluation of permanent cardiac impairments:
 - (a) Classification of impairment using the following categories shall be based upon a carefully obtained history, thorough physical examination and the use of appropriate laboratory aids.

[Order 74-32, § 296-20-350, filed 6/21/74, effective 10/1/74.]

WAC 296-20-360 Categories of permanent cardiac impairments

- (1) No objective findings are present. Subjective complaints may be present or absent.
- (2) Objective findings of mild organic heart disease but no signs of congestive heart failure. No medically appropriate symptoms produced by prolonged exertion or intensive effort or marked emotional stress.
- (3) Objective findings of mild organic heart disease but no signs of congestive heart failure. Medically appropriate symptoms produced by prolonged exertion or intensive effort, or marked emotional stress but not by usual daily activities.
- (4) Objective findings of moderate organic heart disease but no signs of congestive heart failure. Medically appropriate symptoms produced by prolonged exertion or intensive effort or marked emotional stress but not by usual daily activities.
- (5) Objective findings of marked organic heart disease with minimal signs of congestive heart failure with therapy. Medically appropriate symptoms produced by usual daily activities.
- (6) Objective findings of marked organic heart disease with mild to moderate signs of congestive heart failure despite therapy. Medically appropriate symptoms produced by usual daily activities.

WAC 296-20-370 Respiratory impairments

- (1) Rules for evaluation of permanent respiratory impairments:
 - (a) Definitions.
 - (i) "FEV1" means the forced expiratory volume in 1 second as measured by a spirometric test performed as described in the most current American Thoracic Society Statement on Standardization of Spirometry, and using equipment, methods of calibration, and techniques that meet American Thoracic Society (ATS) criteria including reproducibility. The measurement used must be taken from a spirogram which is technically acceptable and represents the patient's best effort. The measurement is to be expressed as both an absolute value and as a percentage of the predicted value. The predicted values are those listed in the most current edition of the American Medical Association (AMA) Guidelines for rating permanent respiratory impairment.
 - (ii) "FVC" means the forced vital capacity as measured by a spirometric test in accordance with criteria described in (a)(i) of this subsection.
 - (iii) "FEV1/FVC" is a ratio calculated based on the ATS Guides criteria as described in the most current American Thoracic Society Statement on Standardization of Spirometry.
 - (iv) "Significant improvement" means a fifteen percent or greater improvement in FEV1 (volume) after a post-bronchodilator pulmonary function test.
 - (v) "DLCO" means the diffusion capacity of carbon monoxide as measured by a test based on predicted values demonstrated to be appropriate to the techniques and equipment of the laboratory performing the test according to current ATS standards. DLCO may be considered for impairment rating only if accompanied by evidence of impaired gas exchange based on exercise testing.
 - (vi) "VO2 Max" means the directly measured oxygen consumption at maximum exercise capacity of an individual as measured by exercise testing and oxygen consumption expressed in ml/kilo/min corrected for lean bodyweight. Estimated values from treadmill or other exercise tests without direct measurement are not acceptable. The factor limiting the exercise must be identified.
 - (vii) "Preexisting impairment" shall be reported as described in WAC 296-20-220 (1)(h).
 - (viii) "Coexisting" is a disease or injury not due to or causally related to the work-related condition that impacts the overall respiratory disability.
 - (ix) "Apportionment" is an estimate of the degree of impairment due to the occupational injury/exposure when preexisting or coexisting conditions are present.
 - (x) "Dyspnea" is the subjective complaint of shortness of breath. Dyspnea alone must not be used to determine the level of respiratory impairment. Dyspnea unexplained by objective signs of impairment or spirometry requires more extensive testing (i.e., VO2 Max).
 - (xi) Copies of the American Thoracic Society Statement on Standardization of Spirometry and ATS standards for measuring DLCO can be obtained by ordering Pulmonary Function Testing from The American Thoracic

Society, 1740 Broadway, New York, NY 10019-4374, Attn: ATS Statements. Copies of this document are available for review in the section of the office of the medical director, department of labor and industries, Tumwater building.

These standards are also available through the following references: "American Thoracic Society Committee on Proficiency Standards for Pulmonary Function Laboratories: Standardization of spirometry-1987 update." Am Rev Respir Dis 1987; 136:1285-1298. "American Thoracic Society DLCO Standardization Conference: Single breath carbon monoxide diffusing capacity (transfer factor): Recommendations for a standard technique." Am Rev Respir Dis 1987; 136:1299-1307.

- (b) Evaluation procedures. Each report of examination must include the following, at a minimum:
- (i) Identification data: Worker's name, claim number, gender, age, and race.
 - (ii) Detailed occupational history: Job titles of all jobs held since employment began. A detailed description of typical job duties, protective equipment worn, engineering controls present (e.g., ventilation) as well as the specific exposures and intensity (frequency and duration) of exposures. More detail is required for jobs involving potential exposure to known respiratory hazards.
 - (iii) History of the present illness: Chief complaint and description of all respiratory symptoms present (e.g., wheezing, cough, phlegm, chest pain, paroxysmal nocturnal dyspnea, dyspnea at rest and on exertion) as well as the approximate date of onset, and duration of each symptom, and aggravating and relieving factors.
 - (iv) Past medical history: Past history of childhood or adult respiratory illness, hay fever, asthma, bronchitis, chest injury, chest surgery, respiratory infections, cardiac problems, hospitalizations for chest or breathing problems and current medications.
 - (v) Lifestyle and environmental exposures: Descriptive history of exposures clinically related to respiratory disease including, but not limited to, tobacco use with type and years smoked. Use of wood as a primary heat source at home or hobbies that involve potential exposure to known respiratory tract hazards, and other environmental exposures.
 - (vi) Family history: Family history of respiratory or cardiac disease.
 - (vii) Physical examination findings: Vital signs including a measured height without shoes, weight, and blood pressure. Chest exam shall include a description of the shape, breathing, breath sounds, cardiac exam, and condition of extremities (e.g., cyanosis, clubbing, or edema).
 - (viii) Diagnostic tests: A chest x-ray shall be obtained in all cases. When available, the x-ray should be obtained using International Labor Organization (ILO) standard techniques and interpreted using the ILO classification system. The presence or absence of pleural thickening or interstitial abnormalities shall be noted. Pulmonary function reports including a description of equipment used, method of calibration, and the predicted values used. A hard copy of all pulmonary function tracings must be available for review. The report must contain at a

minimum FEV1 and FVC and a narrative summary of an interpretation of the test results and their validity.

- (ix) The rating of respiratory impairment. The rating of respiratory impairment shall be based on the pulmonary function test most appropriate to the respiratory condition. A prebronchodilator and postbronchodilator test must be performed on and results reported for all patients with demonstrated airway obstruction. The largest FEV1 or FVC, on either the prebronchodilator or postbronchodilator trial must be used for rating the impairment. If the FEV1 and FEV1/FVC result in different categories of impairment, the value resulting in a higher category of impairment will be used.
- (x) The rating of persisting variable respiratory impairment with abnormal baseline function. If resting FEV1 is "abnormal" (below eighty percent predicted) and shows significant bronchodilator improvement (a greater than or equal to fifteen percent improvement in FEV1) one category of impairment must be added to the given category rating, but only when the work-related disease being rated is obstructive in nature. If there is substantial variability from test to test (and good effort), the severity of impairment may be rated, using the best fit into the category system, as described in WAC 296-20-380.
- (xi) The rating of persisting variable respiratory impairment with normal baseline spirometry. Variable respiratory impairment due to allergic or irritative disorder of the respiratory tract, such as bronchial asthma or reactive airway disease, caused or permanently aggravated by factors in the work place, shall be evaluated by detailed narrative report, including the casual relationship to work factors, a discussion of the relative importance of nonwork related cofactors, such as preexisting asthma, tobacco usage, or other personal habits, the need for regular medication to substantially improve or control the respiratory condition, and the prognosis. When tests of ventilatory function, done when the patient is in clinical steady state, are normal (one second forced expiratory volume eighty percent or greater of predicted), an appropriate provocative bronchial challenge test (i.e., methacholine or histamine) shall be done to demonstrate the presence of unusual respiratory sensitivity.
- (xii) At the time of the rating, the patient shall be off theophylline for at least twenty-four hours, beta agonists for at least twelve hours, and oral and/or inhaled steroids or cromolyn for at least two weeks, in order to determine severity of air-flow obstruction, unattenuated by therapy. If withdrawal of medication would produce a hazardous or life threatening condition, then the impairment cannot be rated at this time, and the physician must provide a statement describing the patient's condition and the effect of medication withdrawal.
- (xiii) The method for standardizing provocative bronchial challenge testing, using either histamine or methacholine, shall be used. The test drug may be given either by continuous tidal volume inhalation of known concentrations, using an updraft nebulizer, for two minutes, or by the technique of intermittent deep breaths of increasing test drug strengths either via a Rosenthal dosimeter or updraft nebulizer, and the results shall be expressed either as the mg/ml concentration of test drug, or the cumulative breath units (1 breath of a 1 mg/ml solution equals one breath unit) which result in a prompt and sustained (at least three

minute) fall in the FEV1, greater than twenty percent below baseline FEV1. Medications that can blunt the effect of bronchoprovocation testing shall be withheld prior to testing. Once testing is complete, the results shall be expressed in terms of normal, mild, moderate, or marked bronchial reactivity, as described in WAC 296-20-385.

If multiple bronchoprovocative inhalation challenge tests have been done, the examining physician shall select the one category (normal, mild, moderate, or marked) which most accurately indicates the overall degree of permanent impairment at the time of rating.

If the results of serial pulmonary function testing are extremely variable and the clinical course and use of medication also indicate major impairment, then the physician must make a statement in the formulation and medical evaluation containing, at a minimum: Diagnosis and whether work related or nonwork related; nature and frequency of treatment; stability of condition and work limitations; impairment.

- (xiv) Further treatment needs. In all cases, the examining physician shall indicate whether further treatment is indicated and the nature, type, frequency, and duration of treatment recommended.

WAC 296-20-380 Categories of permanent respiratory impairments

- (1) The FVC and FEV1 are greater than or equal to eighty percent of predicted normal for the person's age, gender, and height. The FEV1/FVC ratio is greater than or equal to .70. Subjective complaints may be present or absent. If exercise testing is done, the maximum oxygen consumption is greater than 25cc/kilo/min.
- (2) The FVC or FEV1 is from seventy to seventy-nine percent of predicted, and if obstruction is present, the FEV1/FVC ratio is .60 - .69. If exercise testing is done, the maximum oxygen consumption is 22.5-25cc/kilo/min.
- (3) The FVC or FEV1 is from sixty to sixty-nine percent of predicted, and if obstruction is present, the FEV1/FVC ratio is .60 - .69. If exercise testing is done, the maximum oxygen consumption is 20-22.4cc/kilo/min.
- (4) The FVC or FEV1 is from fifty-one to fifty-nine percent of predicted. The FEV1/FVC ratio is .51 - .59. If exercise testing is done, the maximum oxygen consumption is 17.5-19.9cc/kilo/min.
- (5) FVC from fifty-one to fifty-nine percent of predicted, or the FEV1 from forty-one to fifty percent of predicted, and if obstruction is present, the FEV1/FVC ratio is .41 - .50. If exercise testing is done, the maximum oxygen consumption is 15-17.4cc/kilo/min.
- (6) The FVC is equal to or less than fifty percent of predicted or the FEV1 is equal to or less than forty percent of predicted. The FEV1/FVC ratio is equal to or less than .40. If exercise testing is done, the maximum oxygen consumption is less than 15cc/kilo/min.

WAC 296-20-385 Categories of persisting variable respiratory impairment with normal baseline spirometry

- (1) "Normal" bronchial reactivity is demonstrated by an insignificant (less than twenty percent) fall from baseline FEV1 at test doses of histamine or methacholine, up to 16 mg/ml (continuous inhalation method) or up to 160 breath units (cumulative, repeated deep breath technique).
- (2) "Mild" bronchial hyperactivity (BHR) is a significant (equal to or greater than twenty percent) fall in the FEV1 at test doses of 2.1-16 mg/ml, or 21-160 breath units.
- (3) "Moderate" BHR is a significant (equal to or greater than twenty percent) fall in the FEV1 at test doses of 0.26-2 mg/ml, or 2.6-20 breath units.
- (4) "Marked" BHR is a significant (equal to or greater than twenty percent) fall in the FEV1 at test doses equal to or less than .25 mg/ml, or 2.5 breath units.

WAC 296-20-400 Categories of permanent air passage impairments

- (1) No objective findings are present. Subjective complaints may be present or absent.
- (2) Objective findings of one or more of the following air passage defects: Partial obstruction of oropharynx, laryngopharynx, larynx, trachea, bronchi, complete obstruction of nasopharynx or of nasal passages bilaterally. No dyspnea caused by the air passage defect even on activity requiring prolonged exertion or intensive effort.
- (3) Objective findings of one or more of the following air passage defects: Partial obstruction of oropharynx, laryngopharynx, larynx, trachea, bronchi, complete obstruction of nasopharynx or of nasal passages bilaterally, dyspnea caused by the air passage defect produced only by prolonged exertion or intensive effort.
- (4) Objective findings of one or more of the following air passage defects: Partial obstruction of oropharynx, laryngopharynx, larynx, trachea, bronchi, complete obstruction of nasopharynx or of nasal passages bilaterally, with permanent tracheostomy or stoma, dyspnea caused by the air passage defect produced only by prolonged exertion or intensive effort.
- (5) Objective findings of one or more of the following air passage defects: Partial obstruction of oropharynx, laryngopharynx, larynx, trachea, bronchi, with or without permanent tracheostomy or stoma if dyspnea is produced by moderate exertion.
- (6) Objective findings of one or more of the following air passage defects: Partial obstruction of oropharynx, laryngopharynx, larynx, trachea, bronchi, with or without permanent tracheostomy or stoma if dyspnea is produced by mild exertion.

WAC 296-20-450 Speech impairments

- (1) Rules for evaluation of permanent speech impairments.
 - (a) The physician making an examination for evaluation of permanent speech impairment should have normal hearing and the examination should be conducted in a reasonably quiet office which approximates the noise level conditions of everyday living.
 - (b) Selection of the appropriate category of permanent speech impairment shall be based on direct observation of the speech of the person being examined, including, but not limited to: Response to interview, oral reading, and counting aloud. The observation shall be made with the physician about eight feet from the person being examined both when he faces the physician and with his back to the physician.

WAC 296-20-460 Categories of permanent speech impairments

- (1) No objective findings of significant speech impairment are present. Subjective complaints may be present or absent.
- (2) Can produce speech of sufficient audibility, intelligibility and functional efficiency for most everyday needs, although this may require effort and occasionally exceed

capacity; listeners may occasionally ask for repetition and it may be difficult to produce some elements of speech, and there may be slow speaking and hesitation.

- (3) Can produce speech of sufficient audibility, intelligibility and functional efficiency for many everyday needs, is usually heard under average conditions but may have difficulty in automobiles, busses, trains, or enclosed areas; can give name, address, and be understood by a stranger, but may have numerous inaccuracies and have difficulty articulating; speech may be interrupted, hesitant or slow.
- (4) Can produce speech of sufficient audibility, intelligibility and functional efficiency for some everyday needs such as close conversation, conversation with family and friends, but has considerable difficulty in noisy places; voice tires rapidly and tends to become inaudible in a few seconds, strangers may find patient difficult to understand; patient may be asked to repeat often, and often can only sustain consecutive speech for brief periods.
- (5) Can produce speech of sufficient audibility, intelligibility and functional efficiency for few everyday needs; can barely be heard by a close listener or over the telephone; may be able to whisper audibly but has no voice; can produce some speech elements; may have approximation of a few words such as names of family members which are, however, unintelligible out of context; cannot maintain uninterrupted speech flow, speech is labored, and its rate is impractically slow.
- (6) Is unable to produce speech of sufficient audibility, intelligibility and functional efficiency for any everyday needs.

WAC 296-20-670 Disability

- (1) The rules for determining disability are as follows:
 - (a) The determination of the percentage of disability in terms of total bodily impairment for any category is solely an administrative function and shall be done only in accordance with the tables of disability listed in WAC 296-20-680 and 296-20-690, or as otherwise provided in this chapter.
 - (b) When the industrial injury or occupational disease has caused further impairment to a bodily area where permanent bodily impairment existed prior to the industrial injury or occupational disease, the department shall award the percentage difference between the disability for the category of impairment which preexisted the industrial injury or occupational disease and the disability for the category of permanent impairment existing after the industrial injury or occupational disease.
 - (c) Neither the combined values chart provided in the guides to the evaluation of permanent impairment nor any other formula for the combination of the disabilities to different body areas or organ systems used in any other nationally recognized guide for determining bodily impairments shall be applied in computing the amount of disabilities to be awarded under these rules.
 - (d) Except as otherwise specifically provided, a percentage of total bodily impairment in one body area or system shall not be added to or combined with a percentage of total bodily impairment from another body area or system; the percentages for each body area or system shall be stated separately.

Washington Administrative
Code
Chapter 296-21

**Reimbursement
Policies: Psychiatric
Services, Biofeedback
and
Physical Medicine**

WAC 296-21-270 Psychiatric services

The following rules supplements information contained in the fee schedules regarding coverage and reimbursement for psychiatric services.

Treatment of mental conditions to workers is to be goal directed, time limited, intensive, and limited to conditions caused or aggravated by the industrial condition. Psychiatric services to workers are limited to those provided by psychiatrists and licensed psychologists, and according to department policy. For purposes of this rule, the term "psychiatric" refers to treatment by psychologists as well as psychiatrists.

Initial evaluation, and subsequent treatment must be authorized by department staff, as outlined by department policy. The report of initial evaluation, including test results, and treatment plan are to be sent to the worker's attending provider, as well as the department. A copy of sixty-day narrative reports to the department is also to be sent to the attending provider.

All providers are bound by the medical aid rules in chapter 296-20 WAC. Reporting requirements are defined in chapter 296-20 WAC. In addition, the following are required: Testing results with scores, scales, and profiles; report of raw data sufficient to allow reassessment by a panel or independent medical examiner. Use of the current Diagnostic and Statistical Manual of the American Psychiatric Association axis format in the initial evaluation and sixty-day narrative reports, and explanation of the numerical scales are required.

A report to the department will contain, at least, the following elements:

- Subjective complaints;
- Objective observations;
- Assessment of the worker's condition and goals accomplished; and
- Plan of care.

The codes, reimbursement levels, and other policies for psychiatric services are listed in the fee schedules.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-21-270, filed 8/1/93, effective 9/1/93.]

WAC 296-21-280 Biofeedback rules

Procedures listed in the fee schedules are for use by medical doctors, osteopathic physicians, licensed psychologists and other qualified providers as determined by department policy. All providers of biofeedback are bound by the medical aid rules and fee schedule for biofeedback services.

Administration of biofeedback treatment is limited to those practitioners who are certified by the Biofeedback Certification Institute of America or who meet the minimum education, experience, and training qualifications to be so certified. Those practitioners wishing to administer biofeedback treatment to workers, must submit a copy of their biofeedback certification or supply evidence of their qualifications to the department or self-insurer.

- (1) The department will authorize biofeedback treatment for the following conditions when accepted under the industrial insurance claim:
 - (a) Idiopathic Raynaud's disease;
 - (b) Temporomandibular joint dysfunction;
 - (c) Myofascial pain dysfunction syndrome (MPD);
 - (d) Tension headaches;
 - (e) Migraine headaches;
 - (f) Tinnitus;

- (g) Torticollis;
 - (h) Neuromuscular reeducation as result of neurological damage in CVA or spinal cord injury;
 - (i) Inflammatory and/or musculoskeletal disorders causally related to the accepted condition.
- (2) Twelve biofeedback treatments in a ninety-day period will be authorized for the above conditions when the following is presented:
- (a) An evaluation report documenting:
 - (i) The basis for the claimant's condition;
 - (ii) The condition's relationship to the industrial injury;
 - (iii) An evaluation of the claimant's current functional measurable modalities (i.e., range of motion, up time, walking tolerance, medication intake, etc.);
 - (iv) An outline of the proposed treatment program;
 - (v) An outline of the expected restoration goals.
 - (b) No further biofeedback treatments will be authorized or paid for without substantiation of evidence of improvement in measurable, functional modalities (i.e., range of motion, up time, walking tolerance, medication intake, etc.). Only one additional treatment block of twelve treatments per ninety days will be authorized. Requests for biofeedback treatment beyond twenty-four treatments or one hundred eighty days will be granted only after file review by and on the advice of the department's medical consultant.
 - (c) In addition to treatment, pretreatment and periodic evaluation will be authorized. Follow-up evaluation can be authorized at one, three, six, and twelve months posttreatment.
 - (d) At the department's option, a concurring opinion may be required regarding relationship of the condition to the industrial injury and/or need for biofeedback treatment.
The codes, reimbursement levels, and other policies for biofeedback services are listed in the fee schedules.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-21-280, filed 8/1/93, effective 9/1/93.]

WAC 296-21-290 Physical medicine

- (1) **Whom does the department authorize and pay for physical medicine or physical therapy services?** The department or self-insurer may authorize and pay for physical medicine services from the following providers:
- A medical or osteopathic physician who is "board certified or board qualified" in the field of physical medicine and rehabilitation; or
 - A licensed physical therapist; or
 - The injured worker's attending doctor, within the limitations listed below.
 - The physical medicine services must be personally performed by the:
 - Physical medicine and rehabilitation physician; or
 - Attending doctor; or
 - Licensed physical therapist; or
 - Physical therapist assistant employed by and serving under the direction of a registered physical therapist, physical medicine and rehabilitation physician, or attending doctor.

Note: Licensed physical therapy provider rules are contained in chapter 296-23 WAC.

- (2) When may the department or self-insurer pay the attending doctor for physical medicine services? The department or self-insurer may pay the attending doctor to provide physical medicine modalities and/or procedures in the following situations:
- (a) The attending doctor's scope of practice includes physical medicine modalities and procedures.
 - (b) Only the physical medicine modalities and procedures allowed under the department's fee schedules and payment policies will be authorized or paid.
 - (c) No more than six physical medicine visits may be authorized and paid to the attending doctor. If the worker requires treatment beyond six visits, the worker must be referred to a licensed physical therapist or a board certified or qualified physical medicine and rehabilitation physician for such treatment. Payments will be made in accordance with the department's fee schedules and payment policies.
 - (d) In remote areas, where no physical medicine and rehabilitation specialist, licensed physical therapist or physical therapist assistant is available, physical medicine visits required by the patient's accepted condition(s) may be authorized and paid to the attending doctor. Payments will be made in accordance with the department's fee schedules and payment policies.
 - (e) The attending doctor may bill for office visits in addition to the physical medicine services only when a separately identifiable office visit service is provided in addition to the physical medicine service.
- (3) What codes and fees are payable for physical medicine services?
- The codes, reimbursement levels, and other policies for physical medicine services are listed in the department's *Medical Aid Rules and Fee Schedules*. Physicians licensed in physical medicine and licensed physical therapists use CPT and/or HCPCS codes, rules and payment policies as listed in the department's *Medical Aid Rules and Fee Schedules* or provider bulletins.
 - Attending doctors must use the local codes, rules and payment policies published in the department's *Medical Aid Rules and Fee Schedules* or provider bulletins.

Chapter 296-23

Specialty Providers

WAC 296-23-135 General information-Radiology

- (1) Rules and billing procedures pertaining to all practitioners rendering services to workers are presented in the general instruction section beginning with WAC 296-20-010.
- (2) Billing codes, reimbursement levels, and supporting policies are listed in the fee schedules.
- (3) Refer to WAC 296-20-132 and 296-20-135 for information regarding use of the conversion factors.
- (4) Refer to the fee schedules for information on use of coding modifiers.
- (5) The values listed in the fee schedules only apply when these services are performed by or under the responsible supervision of a doctor.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 94 -14-044, § 296-23-135, filed 6/29/94, effective 7/30/94; 93-16-072, § 296-23-135, filed 8/1/93, effective 9/1/93.]

WAC 296-23-140 Custody of x-rays

- (1) Radiographs should not be sent to the department or self-insurer unless they are requested for comparison and interpretation in determining a permanent disability, administrative or legal decisions, and for cases in litigation. X-rays must be retained for a period of ten years by the radiologist or the attending doctor.
- (2) X-rays must be made available upon request to consultants, to medical examiners, to the department, to self-insurers, and/or the board of industrial insurance appeals.
- (3) In cases where the worker transfers from one doctor to another, the former attending doctor will immediately forward all films in his possession to the new attending doctor.
- (4) When a doctor's office is closed because of death, retirement, or upon leaving the state, department approved custodial arrangements must be made to insure availability on request. If a radiological office is closed for any of the previously listed reasons or because the partnership or corporation is being dissolved, disposition of x-rays for industrial injuries will be handled in the same manner. In the event custodial arrangements are to be made, the department must approve the arrangements prior to transfer of x-rays to the custodian so as to assure their availability to the department or self-insurer upon request.
- (5) Refer to chapter 296-20 WAC (including WAC 296-20-125) and to chapter 296-21 WAC for additional information.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-140, filed 8/1/93, effective 9/1/93.]

WAC 296-23-145 Duplication of x-rays and extra views

Every attempt should be made to minimize the number of x-rays taken for workers. The attending doctor or any other person or institution having possession of x-rays which pertain to the injury and are deemed to be needed for diagnostic or treatment purposes should make these x-rays available upon request.

The department or self-insurer will not authorize or pay for additional x-rays when recent x-rays are available except when presented with adequate information regarding the need to re-x-ray.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-145, filed 8/1/93, effective 9/1/93.]

WAC 296-23-155 Pathology general information and instructions

- (1) Rules and billing procedures pertaining to all practitioners rendering service to workers are presented in general information section beginning with WAC 296-20-010.
- (2) Refer to WAC 296-20-132 and 296-20-135 for information regarding use of the conversion factors.
- (3) Refer to the fee schedules for information on use of coding modifiers.
- (4) Billing codes, reimbursement levels, and supporting policies are listed in the fee schedules.
- (5) The reimbursement levels listed in the fee schedules apply only when the services are performed by or under the responsible supervision of a physician. Unless otherwise specified, the listed values include the collection and handling of the specimens by the laboratory performing the procedure. SERVICES IN PATHOLOGY AND LABORATORY are provided by the pathologist or by technologists under responsible supervision of a physician.
- (6) Laboratory procedures performed by other than the billing physician shall be billed at the value charged that physician by the reference (outside) laboratory under the individual procedure number or the panel procedure number listed under "PANEL OR PROFILE TESTS" (see modifier -90).
- (7) The department or self-insurer may deny payment for lab procedures which are determined to be excessive or unnecessary for management of the injury or conditions.
- (8) Separate or multiple procedures: It is appropriate to designate multiple procedures that are rendered on the same date by separate entries.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 94 -14-044, § 296-23-155, filed 6/29/94, effective 7/30/94; 93-16-072, § 296-23-155, filed 8/1/93, effective 9/1/93.]

WAC 296-23-160 General information and instructions

- (1) The department or self-insurer is responsible only for repair or replacement of teeth injured or prosthodontics broken as a result of an industrial injury.
- (2) Information pertaining to industrial claims is explained in WAC 296-20-010.
- (3) Information pertaining to reports of accident is outlined in WAC 296-20-025.
- (4) Information pertaining to the care of workers is explained in WAC 296-20-110.
- (5) An estimate of cost is not needed prior to authorization of dental work unless indicated due to the extensive nature of the dental work. The department or self-insurer reserves the right to review all charges billed.
- (6) Billing instructions are listed in WAC 296-20-125. Bills for services must be itemized, specifying tooth numbers and materials used. No services will be paid on rejected or closed claims except those rendered in conjunction with a reopening application.
- (7) Billing codes, billing modifiers, reimbursement levels, and supporting policies are listed in the fee schedules.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-160, filed 8/1/93, effective 9/1/93.]

WAC 296-23-165**Miscellaneous services and appliances**

- (1) The department or self-insurer will reimburse for certain proper and necessary miscellaneous services and items needed as a result of an industrial accident. Nursing care, attendant services, transportation, hearing aids, eyeglasses, orthotics and prosthetics, braces, medical supplies, oxygen systems, walking aids, and durable medical equipment are included in this classification.
 - (a) When a fee maximum has been established, the rate of reimbursement for miscellaneous services and items will be the supplier's usual and customary charge or the department's current fee maximum, whichever is less. In no case may a supplier or provider charge a worker the difference between the fee maximum and their usual and customary charge.
 - (b) When the department or self-insurer has established a purchasing contract with a qualified supplier through an open competitive request for proposal process, the department or self-insurer will require that workers obtain specific groups of items from the contractor. When items are obtained from a contractor, the contractor will be paid at the rates established in the contract. When a purchasing contract for a selected group of items exists, suppliers who are not named in the contract will be denied reimbursement if they provide a contracted item to a worker. The noncontracting supplier, not the worker, will be financially responsible for providing an item to a worker when it should have been supplied by a contractor. This rule may be waived by an authorized representative of the department or self-insurer in special cases where a worker's attending doctor recommends that an item be obtained from another source for medical reasons or reasons of availability. In such cases, the department may authorize reimbursement to a supplier who is not named in a contract. Items or services may be provided on an emergency basis without prior authorization, but will be reviewed for appropriateness to the accepted industrial condition and medical necessity on a retrospective basis.
- (2) The department or self-insurer will inform providers and suppliers of the selected groups of items for which purchasing contracts have been established, including the beginning and ending dates of the contracts.
- (3) Prior authorization by an authorized representative of the department or self-insurer will be required for reimbursement of selected items and services which are provided to workers. Payment will be denied for selected items or services supplied without prior authorization. The supplier, not the worker, will be financially responsible for providing selected items or services to workers without prior authorization. In cases where a worker's doctor recommends rental or purchase of a contracted item from a supplier who lacks a contract agreement, prior authorization will be required.

The decision to grant or deny prior authorization for reimbursement of selected services or items will be based on the following criteria:

- (a) The worker is eligible for coverage.
 - (b) The service or item prescribed is appropriate and medically necessary for treatment of the worker's accepted industrial condition.
- (4) The decision to rent or purchase an item will be made based on a comparison of the projected rental costs of the item with its purchase price. An authorized representative of the department or self-insurer will decide whether to rent or purchase certain items provided they are appropriate and medically necessary for treatment of the worker's accepted condition. Decisions to rent or purchase items will be based on the following information:

- (a) Purchase price of the item.
 - (b) Monthly rental fee.
 - (c) The prescribing doctor's estimate of how long the item will be needed.
- (5) The department will review the medical necessity, appropriateness, and quality of items and services provided to workers.
 - (6) The department's statement for miscellaneous services form or electronic transfer format specifications must be used for billing the department for miscellaneous services, equipment, supplies, appliances, and transportation. Bills must be itemized according to instructions in WAC 296-20-125 and the department or self-insurer's billing instructions. Bills for medical appliances and equipment must include the type of item, manufacturer name, model name and number, and serial number.
 - (7) All miscellaneous materials, supplies and services must be billed using the appropriate HCPCS Level II codes and billing modifiers. HCPCS codes are listed in the fee schedules.

WAC 296-23-205 General instructions-Naturopathic physicians

- (1) Refer to WAC 296-20-010 through 296-20-125 regarding general rules and billing procedures.
- (2) Refer to WAC 296-20-132 and 296-20-135 regarding the use of conversion factors.
- (3) In addition to general rules found in WAC 296-20-010 through 296-20-125, the following rules apply to naturopathic physicians:
 - (a) If the naturopathic physician is dual licensed, all treatment rendered by the practitioner must be billed as "treatment of the day." Further, the practitioner must elect and notify the department or self-insurer, which type of treatment he is providing for the injured worker, and abide by rules pertaining to area of elected treatment.
 - (b) Naturopathic physicians utilizing hydro-; mechano-; and/or electro- therapy modalities cannot bill for those services in addition to office visit services. Office visit includes treatment of the day.
 - (c) No more than one office visit will be allowed per day, except on the initial and next two subsequent visits. The attending doctor must submit a detailed report regarding the need for the additional treatment.
 - (d) If necessary, x-rays may be taken immediately prior to and following the initial naturopathic physician treatment without prior authorization.
 - (e) X-rays immediately prior to and following each subsequent naturopathic physician treatment will be disallowed, unless previously authorized.
 - (f) Prior authorization must be obtained for x-rays subsequent to initial treatment.
 - (g) Payment will not be made for excessive or unnecessary x-rays. No payment will be made for x-rays taken on rejected or closed claims, except those taken in conjunction with a reopening application.
 - (h) See chapter 296-23 WAC for custody requirements for x-rays.
- (4) Drugless therapy as a maintenance or supportive measure will not be authorized or paid.
- (5) Treatment beyond the first twenty treatments or sixty days, whichever occurs first, will not be authorized without submission of a consultation report or a comprehensive comparative exam report regarding need for further care.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-205, filed 8/1/93, effective 9/1/93.]

WAC 296-23-215 Office visits and special services-Naturopathic physicians

Definitions:

Routine office visit: A level of service pertaining to the evaluation and treatment of a condition requiring only an abbreviated history and exam.

Extended office visit: A level of service pertaining to an evaluation of patient with a new or existing problem requiring a detailed history, review of records, exam, and a formal conference with patient or family to evaluate and/or adjust therapeutic treatment management and progress.

Comprehensive office visit: A level of service pertaining to an indepth evaluation of a patient with a new or existing problem, requiring development or complete reevaluation of treatment data; includes recording of chief complaints and present illness, family history, past treatment history, personal history, system review; and a complete exam to evaluate and determine appropriate therapeutic treatment management and progress.

Reporting:

Reporting requirements are outlined in WAC 296-20-06101. The department or self-insurer will accept a brief narrative report of treatment received and the patient's progress as supporting documentation for billings in lieu of routine follow-up office notes.

Modifiers:

-22 Unusual services: When treatment services provided are greater than that usually required for listed procedures. Use of this modifier must be based on the injured worker's need for extended or unusual care. A report is required. The modifier -22 should be added to the procedure number.

-52 Reduced services: Under certain circumstances no treatment may be given, in these cases the procedure should be reduced by ten units and modifier -52 should be added to the procedure number.

Material supplied by doctor:

Department or self-insurer will reimburse the doctor for materials supplied, i.e., cervical collars, heel lifts, etc., at cost only. See RCW 19.68.010, professional license statutes.

All supplies and materials must be billed using HCPCS Level II codes as listed in the fee schedules.

The codes and reimbursement levels are listed in the fee schedules.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-215, filed 8/1/93, effective 9/1/93.]

WAC 296-23-220 Physical therapy rules

Practitioners should refer to WAC 296-20-010 through 296-20-125 for general information] and rules pertaining to the care of workers.

Refer to WAC 296-20-132 and 296-20-135 regarding the use of conversion factors.

All supplies and materials must be billed using HCPCS Level II codes. Refer to chapter 296-21 WAC for additional information. HCPCS codes are listed in the fee schedules.

Refer to chapter 296-20 WAC (WAC 296-20-125) and to the department's billing instructions for additional information.

Physical therapy treatment will be reimbursed only when ordered by the worker's attending doctor and rendered by a licensed physical therapist or a physical therapist assistant serving under the direction of a licensed physical therapist. Doctors rendering physical therapy should refer to WAC 296-21-290.

The department or self-insurer will review the quality and medical necessity of physical therapy services provided to workers. Practitioners should refer to WAC 296-20-01002 for the department's rules regarding medical necessity and to WAC 296-20-024 for the department's rules regarding utilization review and quality assurance.

The department or self-insurer will pay for a maximum of one physical therapy visit per day. When multiple treatments (different billing codes) are performed on one day, the department or self-insurer will pay either the sum of the individual fee maximums, the provider's usual and customary charge, or ~~(((\$99.00))~~ \$102.65 whichever is less. These limits will not apply to physical therapy that is rendered as part of a physical capacities evaluation, work hardening program, or pain management program, provided a qualified representative of the department or self-insurer has authorized the service.

The department will publish specific billing instructions, utilization review guidelines, and reporting requirements for physical therapists who render care to workers.

Use of diapulse or similar machines on workers is not authorized. See WAC 296-20-03002 for further information.

A physical therapy progress report must be submitted to the attending doctor and the department or the self-insurer following twelve treatment visits or one month, whichever occurs first. Physical therapy treatment beyond initial twelve treatments will be authorized only upon substantiation of improvement in the worker's condition. An outline of the proposed treatment program, the expected restoration goals, and the expected length of treatment will be required.

Physical therapy services rendered in the home and/or places other than the practitioner's usual and customary office, clinic, or business facilities will be allowed only upon prior authorization by the department or self-insurer.

No inpatient physical therapy treatment will be allowed when such treatment constitutes the only or major treatment received by the worker. See WAC 296-20-030 for further information.

The department may discount maximum fees for treatment performed on a group basis in cases where the treatment provided consists of a nonindividualized course of therapy (e.g., pool therapy; group aerobics; and back classes).

Biofeedback treatment may be rendered on doctor's orders only. The extent of biofeedback treatment is limited to those procedures allowed within the scope of practice of a licensed physical therapist. See chapter 296-21 WAC for rules pertaining to conditions authorized and report requirements.

Billing codes and reimbursement levels are listed in the fee schedules.

WAC 296-23-225 Work hardening

The department will publish billing instructions, reimbursement limits, quality assurance standards, utilization review guidelines, admission criteria, outcome criteria, measures of effectiveness, minimum staffing levels, certification requirements, special reporting requirements, and other criteria that will ensure workers receive good quality services at cost-effective payment levels. Providers will be required to meet the department's requirements

in order to qualify as a work hardening provider. The department may also establish a competitive or other appropriate selection process for work hardening providers. Providers should refer to WAC 296-20-12050 regarding special programs.

Billing codes and reimbursement levels are listed in the fee schedules.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-225, filed 8/1/93, effective 9/1/93.]

WAC 296-23-230 Occupational therapy rules

Practitioners should refer to WAC 296-20-010 through 296-20-125 for general information and rules pertaining to the care of workers.

Refer to WAC 296-20-132 and 296-20-135 for information regarding the conversion factors.

All supplies and materials must be billed using HCPCS Level II codes, refer to the department's billing instructions for additional information.

Occupational therapy treatment will be reimbursed only when ordered by the worker's attending doctor and rendered by a licensed occupational therapist or an occupational therapist assistant serving under the direction of a licensed occupational therapist. Vocational counselors assigned to injured workers by the department or self-insurer may request an occupational therapy evaluation. However, occupational therapy treatment must be ordered by the worker's attending doctor.

An occupational therapy progress report must be submitted to the attending doctor and the department or self-insurer following twelve treatment visits or one month, whichever occurs first. Occupational therapy treatment beyond the initial twelve treatments will be authorized only upon substantiation of improvement in the worker's condition. An outline of the proposed treatment program, the expected restoration goals, and the expected length of treatment will be required.

The department or self-insurer will review the quality and medical necessity of occupational therapy services. Practitioners should refer to WAC 296-20-01002 for the department's definition of medically necessary and to WAC 296-20-024 for the department's rules regarding utilization review and quality assurance.

The department will pay for a maximum of one occupational therapy visit per day. When multiple treatments (different billing codes) are performed on one day, the department or self-insurer will pay either the sum of the individual fee maximums, the provider's usual and customary charge, or ~~(((\$99.00))~~ \$102.65 whichever is less. These limits will not apply to occupational therapy which is rendered as part of a physical capacities evaluation, work hardening program, or pain management program, provided a qualified representative of the department or self-insurer has authorized the service.

The department will publish specific billing instructions, utilization review guidelines, and reporting requirements for occupational therapists who render care to workers.

Occupational therapy services rendered in the worker's home and/or places other than the practitioner's usual and customary office, clinic, or business facility will be allowed only upon prior authorization by the department or self-insurer.

No inpatient occupational therapy treatment will be allowed when such treatment constitutes the only or major treatment received by the worker. See WAC 296-20-030 for further information.

The department may discount maximum fees for treatment performed on a group basis in cases where the treatment provided consists of a nonindividualized course of therapy (e.g., pool therapy; group aerobics; and back classes).

Billing codes, reimbursement levels, and supporting policies for occupational therapy services are listed in the fee schedules.

WAC 296-23-240 Licensed nursing rules

- (1) Registered nurses and licensed practical nurses may perform private duty nursing care in industrial injury cases when the attending physician deems this care necessary. Registered nurses may be reimbursed for services as outlined by department policy. (See chapter 296-20 WAC for home nursing rules.)
- (2) Advanced registered nurse practitioners (ARNPs) may perform advanced and specialized levels of nursing care on a fee for service basis in industrial injury cases within the limitations of this section. ARNPs may be reimbursed for services as outlined by department policy.
- (3) In order to treat workers under the Industrial Insurance Act, the advanced registered nurse practitioner must be:
 - (a) Recognized by the Washington state board of nursing or other government agency as an advanced registered nurse practitioner (ARNP). For out-of-state nurses an equivalent title and training may be approved at the department's discretion.
 - (b) Capable of providing the department with evidence and documentation of a reliable and rapid system of obtaining physician consultations.
- (4) Billing procedures outlined in the medical aid rules and fee schedules apply to all nurses.
- (5) Advanced registered nurse practitioners cannot sign accident report forms or time loss cards.

WAC 296-23-250 Massage therapy rules

Practitioners should refer to WAC 296-20-010 through 296-20-125 for general information and rules pertaining to the care of workers. See WAC 296-20-125 for billing instructions. Refer to WAC 296-20-132 and 296-20-135 for information regarding use of the conversion factors.

Massage therapy treatment will be permitted when given by a licensed massage practitioner only upon written orders from the worker's attending doctor.

A progress report must be submitted to the attending doctor and the department or the self-insurer following six treatment visits or one month, whichever comes first. Massage therapy treatment beyond the initial six treatments will be authorized only upon substantiation of improvement in the worker's condition in terms of functional modalities, i.e., range of motion; sitting and standing tolerance; reduction in medication; etc. In addition, an outline of the proposed treatment program, the expected restoration goals, and the expected length of treatment will be required.

Massage therapy in the home and/or places other than the practitioners usual and customary business facilities will be allowed only upon prior justification and authorization by the department or self-insurer.

No inpatient massage therapy treatment will be allowed when such treatment constitutes the only or major treatment received by the worker. See WAC 296-20-030 for further information.

Massage therapy treatments exceeding once per day must be justified by attending doctor.

Billing codes, reimbursement levels, and supporting policies for massage therapy services are listed in the fee schedules.

WAC 296-23-255 Independent medical examinations

- (1) Purpose:

Independent medical examinations may be requested by the department, the self-insurer, or the attending physician; this is usually for one of the following purposes:

- (a) To establish a diagnosis. Prior diagnoses may be controversial or ill-defined;

- (b) To outline a program of rational treatment, where treatment or progress is controversial;
 - (c) To establish medical data from which it may be determined whether the medical condition is industrially acquired, or unrelated to industrial work activities;
 - (d) To determine the extent and duration of aggravation of a preexisting medical condition by an industrial injury or exposure;
 - (e) To establish when the accepted medical condition has reached maximum benefit from treatment;
 - (f) To establish a percentage rating of any permanent disability, based on the loss of body function or the category rating when maximum recovery is reached; or
 - (g) To determine the medical indications for reopening of a claim for further treatment on the basis of aggravation of an accepted condition, based on objective findings.
- (2) Workers who are scheduled for independent medical examinations are allowed to bring with them an accompanying person to be present during the physical examination. The accompanying person cannot be compensated in any manner, except that language interpreters may be necessary for the communication process and may be reimbursed for interpretative services.

The department may designate those conditions under which the accompanying person is allowed to be present during the independent medical examination process.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-255, filed 8/1/93, effective 9/1/93.]

WAC 296-23-260 Examination reports

- (1) It is the department's intention to purchase objective examinations to ensure that sure and certain determinations are made of all benefits to which the injured worker might be entitled.

The report of an independent medical examination must include the following items:

- (a) A detailed chronology of the injury or condition including mechanism of injury, diagnostic studies, and treatments attempted. The chronology must mention the results of treatments and diagnostic studies;
 - (b) An opinion as to whether treatment actual or proposed is or will be curative or palliative in nature;
 - (c) An assessment of whether the condition is industrially caused, on a more probable than not basis;
 - (d) Specific diagnoses sorted into the following categories:
 - (i) The accepted condition;
 - (ii) Preexisting conditions, and a statement as to whether they are worsening on their own or are aggravated by the accepted industrially acquired condition; and
 - (iii) Conditions acquired after the industrial injury.
 - (e) Answers to written questions posed by adjudicators, or a description of what would be needed to address the questions; and
 - (f) Conclusions and a summary statement of the objective medical findings upon which the conclusions are based.
- (2) Disability ratings are to be done as specified in WAC 296-20-210.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 1993 c 159. 93-16-072, § 296-23-260, filed 8/1/93, effective 9/1/93.]

WAC 296-23-265 Who may perform independent medical examinations?

Doctors in Washington, Oregon, or Idaho who wish to perform independent medical examinations for the department or self-insurers providing coverage to workers covered under Title 51 RCW must be approved examiners. WAC 296-23-26502 Where can doctors get an application to become an approved examiner and other information about independent medical examinations?

The application for approved examiner status and the standards for independent medical examiners are published in the *Medical Examiners' Handbook* available from the department of labor and industries.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.32.112, 51.32.114 and 51.36.015. 97-09-036, § 296-23-26502, filed 4/14/97 effective 5/15/97.]

WAC 296-23-26503 What factors does the medical director consider in approving, suspending or removing doctors from the approved examiners list?

The medical director may consider several factors in approving, disapproving, or suspending examiners. Examples include, but are not limited to:

- (1) Board certification;
- (2) Complaints from workers about the conduct of the examiner (see WAC 296-23-26506);
- (3) Disciplinary proceedings or actions;
- (4) Experience in direct patient care in the area of specialty;
- (5) Ability to effectively convey and substantiate medical opinions and conclusions concerning workers;
- (6) Quality and timeliness of reports;
- (7) Geographical need of the department and self-insurer;
- (8) Availability and willingness to testify on behalf of the department, worker, or employer; and
- (9) Acceptance of the department fee schedule rate for testimony.

WAC 296-23-26504 What happens if an examiner is suspended or removed from the approved examiner list by the medical director?

Examiners who are suspended or removed from the approved examiners list will not receive examination referrals from the department or self-insurers. In addition, suspended or removed examiners will not be reimbursed by the department or self-insurer for examinations performed at the request of other referral sources.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.32.112, 51.32.114 and 51.36.015. 97-09-036, § 296-23-26504, filed 4/14/97 effective 5/15/97.]

WAC 296-23-26505 Is there a fee schedule for independent medical examinations?

The maximum fee schedule for performing independent medical examinations is published in the *Medical Examiners' Handbook* available from the department.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.32.112, 51.32.114 and 51.36.015. 97-09-036, § 296-23-26505, filed 4/14/97 effective 5/15/97.]

WAC 296-23-26506 Can a worker file a complaint about an independent medical examiner's conduct?

Workers can send written complaints about the examiner's conduct during an independent medical examination to the self-insurer or department. Complaints received by the self-insurer and department staff must be promptly forwarded to the provider review and education unit. Based on the nature of the complaint, the department may refer the complaint to the department of health.

WAC 296-23-267 When may attending doctors perform impairment rating examinations?

Attending doctors may perform impairment rating examinations for workers under their care at the direction of the state fund or self-insurer if licensed to perform:

- Medicine and surgery;
- Osteopathic medicine and surgery;
- Podiatric medicine and surgery;
- Dentistry; or
- Chiropractic (chiropractors must be on the approved examiners list).

Attending doctors performing rating exams must be available and willing to testify on behalf of the department, worker, or employer and accept the department fee schedule rate for testimony.

Cancer hospitals	No	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes
Washington rural (Peer Group 1)	No	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes
Critical access hospitals	No	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes
All other Washington hospitals	Yes	Yes, applies to certain hospital outpatient services excluded from OPPS except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes

Hospitals are reimbursed only for the technical component of rates listed in the fee schedules, for outpatient radiology, pathology and laboratory services.

See chapter 296-23 WAC for rules on radiology, pathology, laboratory, physical therapy, occupational therapy, and work hardening services.

See WAC 296-23A-700 for rules on prospective payment system for hospital outpatient services.

See WAC 296-20-132 and 296-20-135 for information on the conversion factor used for certain hospital outpatient services.

WAC 296-23A-0221 How does the self-insurer pay for hospital outpatient services?

The self-insurer will pay for hospital outpatient services according to the following table:

Hospital Type or Service Location	Do percent of allowed charges (POAC) payment methods apply?	Do the department's Medical Aid Rules and Fee Schedules apply to hospital outpatient radiology, laboratory, pathology, occupational therapy, and physical therapy services?
Children's hospitals	Yes, paid 100% of allowed charges	Yes
Chronic Pain Management Program	Not Applicable	Not Applicable
Health Maintenance Organizations	Yes, paid 100% of allowed charges	Yes
Military	Yes, paid 100% of allowed charges	No, paid 100% of allowed charges
Veterans Administration	Yes, paid 100% of allowed charges	No, paid 100% of allowed charges
State psychiatric facility	Yes, paid 100% of allowed charges	Yes
Other psychiatric hospitals	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes
Rehabilitation hospitals	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes
Cancer hospitals	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes
Washington rural (Peer Group 1)	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes
All other Washington hospitals	Yes, applies to hospital outpatient services except radiology, laboratory, pathology, occupational therapy, and physical therapy	Yes

Hospitals are reimbursed only for the technical component of rates listed in the fee schedules, for outpatient radiology, pathology and laboratory services.

See chapter 296-23 WAC for rules on radiology, pathology, laboratory, physical therapy, occupational therapy, and work hardening services.

See WAC 296-23A-700 for rules on the prospective payment system for hospital outpatient services.

See WAC 296-20-132 and 296-20-135 for information on the conversion factor used for certain hospital outpatient services.

WAC 296-23A-0230 How does the department or self-insurer pay out-of-state hospitals for hospital services?

The department or self-insurer pays out-of-state hospitals for hospital services using a percent of allowed charges (POAC) factor or department fee schedule. The POAC factor may differ for services performed in inpatient and outpatient settings.

Payment rates to hospitals located outside of Washington State are calculated by multiplying the out-of-state percent of allowed charges factor (POAC) by the allowed charges.

$$\text{Amount paid} = (\text{out-of-state POAC Factor}) \times (\text{Allowed Charges})$$

Out-of-state hospital providers should bill and the department or self-insurer will pay out-of state hospitals services according to the following table:

<i>Hospital Professional and Ambulance Services</i>	<i>Hospital Outpatient Services</i>	<i>Hospital Inpatient Services</i>
Professional and ambulance services should be billed with CPT and HCPCS codes on HCFA 1500 forms under separate provider numbers. These services will be paid using the fee schedule rates and payment policies stated in the <i>Washington Medical Aid Rules and Fee Schedules</i> .	All hospital outpatient services should be billed on UB forms under the hospital provider number with revenue codes. These services will be paid at the out-of-state percent of allowed charges (POAC) factor as stated in the <i>Washington Medical Aid Rules and Fee Schedules</i> .	All hospital inpatient services should be billed on UB forms under the hospital provider number using revenue codes. These services will be paid at the out-of-state percent of allowed charges (POAC) factor as stated in the <i>Washington Medical Aid Rules and Fee Schedules</i> .
Military and veteran's administration professional and ambulance services should be billed on HCFA 1500 forms and will be paid at 100% of allowed charges.	Military, veteran's administration, health maintenance organization, children's, and state run psychiatric hospitals will be paid at 100% of allowed charges for outpatient hospital services.	Military, veteran's administration, health maintenance organization, children's, and state run psychiatric hospitals will be paid at 100% of allowed charges for inpatient hospital services.

WAC 296-23A-0240 How does the department define and pay a new hospital?

New hospitals are those open for less than one year prior to the implementation of the department's most recent hospital payment rates. The department will pay new hospitals according to the following table:

<i>Hospital Type or Location</i>	<i>What Diagnosis Related Group (DRG) base price applies?</i>	<i>What Per Diem Payment Rates Apply?</i>	<i>What percent of allowed charges (POAC) factor applies?</i>
Military, Veterans Administration, State Psychiatric, Health Maintenance Organization, Children's	Exempt	Exempt	Paid 100% of allowed charges
Chronic Pain Management Program	Exempt, paid per department agreement	Exempt, paid per department agreement	Exempt, paid per department agreement
Washington Rural Hospital (Peer Group A)	Exempt	Washington state-wide average per diem rates	Washington state-wide average POAC
Other Washington Hospital	Weighted median case-mix adjusted average cost per case for Washington DRG hospitals, except major teaching hospitals	Washington state-wide average per diem rates	Washington state-wide average POAC

A new hospital will be paid using its hospital-specific POAC within three years of receiving a provider account number(s) from the department.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080. 00-06-027, § 296-23A-0240, filed 2/24/00, effective 3/26/00; 97-06-066, § 296-23A-0240, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0250 Does a change in hospital ownership affect a hospital's payment rate?

A change in ownership does not constitute the creation of a new hospital. If a hospital changes ownership, rates will remain the same as those payable to the previous owner.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0250, filed 2/28/97, effective 4/1/97.]

PART 2.1 - PERCENT OF ALLOWED CHARGES PAYMENT METHODS AND POLICIES

WAC 296-23A-0300 When do percent of allowed charges (POAC) payment factors apply?

The department may designate from time to time, those hospitals and hospital services to be paid using POAC factors.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0300, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0310 What is the method for calculating percent of allowed charges (POAC) factors?

POAC factors are based on Medicare cost report data and are calculated by dividing adjusted operating expenses by adjusted patient revenues. The department will allow costs for graduate medical education and charity care. Allowable costs for charity care shall not exceed a maximum of two percent of the facility's total allowable costs. A hospital's POAC factor shall not exceed one hundred percent of allowed charges.

Payment rates are calculated by multiplying the POAC factor by the allowed charges.

$$\text{Amount Paid} = (\text{POAC Factor}) \times (\text{Allowed Charges})$$

Each hospital will be notified of their revised POAC factor thirty days prior to implementation. Incorrect data or erroneous calculations can be appealed in accordance with WAC 296-23A-0600.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0310, filed 2/28/97, effective 4/1/97.]

PART 2.2 - PER DIEM RATES PAYMENT METHODS AND POLICIES

WAC 296-23A-0350 When do per diem rates apply?

The department may designate from time to time, those hospitals and hospital services paid on a per diem basis. For example, the department may develop per diem rates for the following diagnosis-related-group (DRG) categories:

- Psychiatric;
- Rehabilitation;
- Substance abuse;
- Medical;
- Surgical, and
- Other categories as determined by the department.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0350, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0360 What is the method for calculating per diem rates?

Per diem rates are calculated by dividing the total costs for all relevant cases in the historical data base by the total number of days. The total number of days is equal to the sum of the number of days for each relevant case. The number of days per case is equal to the last date of service minus the first date of service. The department will allocate costs at the detailed revenue code level using Medicare cost report data and Medicare definitions for allowable costs. The department will allow costs for graduate medical education and charity care. Allowable costs for charity care shall not exceed a maximum of two percent of the facility's total allowable costs.

Payment rates are equal to the applicable per diem rate multiplied by the number of days allowed by the department. The department does not pay for the day of discharge. Payment shall not exceed allowed billed charges.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0360, filed 2/28/97, effective 4/1/97.]

PART 2.3 - DIAGNOSIS RELATED GROUP PAYMENT METHODS AND POLICIES

WAC 296-23A-0400 What is a “diagnosis-related-group” payment system?

A diagnosis-related-group (DRG) system categorizes patients into clinically coherent and homogenous groups with respect to resource use. The department will use an all-patient grouper to perform the diagnostic categorization. To the extent feasible, where DRG relative weights meet acceptable reliability and validity standards, the department will use DRG per case rates for payment of hospital inpatient services.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0400, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0410 How does the department calculate diagnosis-related-group (DRG) relative weights?

In calculating DRG relative weights, the department will:

- (1) Allocate costs for hospital services at a detailed revenue code level using Medicare cost report data and Medicare definitions for allowable costs. The department will allow costs for graduate medical education and charity care. Allowable costs for charity care shall not exceed a maximum of two percent of the facility's total allowable costs.
- (2) Classify department hospital admissions data and hospital discharge data in the Washington state department of health's comprehensive hospital abstract reporting system (CHARS), using an all-patient grouper.
- (3) Establish relative weights from department of labor and industries' hospital admission data. If the department's data is not sufficient to calculate stable relative weights, the department may use hospital discharge data in the Washington state department of health's comprehensive hospital abstract reporting system (CHARS) or another appropriate data source.
- (4) Exclude the following types of cases from DRG relative weight calculations: Transfers, statistical outliers, length of stay equal to zero, psychiatric, substance abuse and rehabilitation DRGs, out-of-state hospitals, other hospitals and services designated as exempt from DRG payment rates.
 See WAC 296-23A-0470 and 296-23A-0480 for exclusions and exceptions to DRG payments for hospital services.
- (5) Test each DRG statistically for adequacy of sample size to ensure that relative weights meet acceptable reliability and validity standards.
- (6) Replace unstable department relative weights with stable CHARS derived relative weights.
- (7) Standardize department and CHARS relative weights to a state-wide case mix index of 1.0.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0410, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0420 How does the department determine the base price for hospital services paid using per case rates?

The department determines the base price for hospital services paid using per case rates according to the following table:

<i>Type of Hospital</i>	<i>Base Price</i>
<u>Major Teaching Hospital:</u> Harborview Medical Center or University of Washington	Hospital-specific case-mix adjusted average cost per case
Other DRG Hospital	Weighted median case-mix adjusted average cost per case for DRG hospitals, except major teaching hospitals

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0420, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0430 How does the department calculate a hospital specific case-mix adjusted average cost per case?

The department determines the case-mix adjusted average cost per case for each hospital by:

- (1) Allocating costs for hospital services at a detailed revenue code level using Medicare cost report data and Medicare definitions for allowable costs. The department will allow costs for graduate medical education and charity care. Allowable costs for charity care shall not exceed a maximum of two percent of the facility's total allowable costs;
- (2) Totaling the costs of all DRG cases;
- (3) Dividing the total by the number of cases; and
- (4) Then dividing that number by the hospital's case-mix index.
- (5) Per case costs are indexed to the payment period for inflation and other factors.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0430, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0440 How does the department calculate the base price for DRG hospitals, except major teaching hospitals?

The department calculates the base price for DRG hospitals, except major teaching hospitals by:

- (1) Calculating each hospital's case-mix adjusted average cost per case;
- (2) Weighting each hospital's case-mix adjusted average cost per case by the number of cases at that hospital;
- (3) Determining the median (fiftieth percentile) of the list of case-mix adjusted average costs per case.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0440, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0450 What cases does the department exclude from base price calculations?

The department excludes the following types of cases from base price calculations:

- Transfers;
- Statistical outliers;
- Length of stay equal to zero;
- Psychiatric, substance abuse and rehabilitation DRGs;
- Out-of-state hospitals; and
- Other hospitals and services designated as exempt from DRG payment rates.

See WAC 296-23A-0470 and 296-23A-0480 for exclusions and exceptions to DRG payments for hospital services.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0450, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0460 How does the department calculate the diagnosis-related-group (DRG) per case payment rate for a particular hospital?

The DRG per case rate for a particular hospital is calculated by multiplying the assigned DRG relative weight for that admission by the applicable base price.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0460, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0470 Which exclusions and exceptions apply to diagnosis-related-group (DRG) payments for hospital services?

The following exclusions and exceptions apply to DRG payments for hospital services:

- Psychiatric, rehabilitation, and chemical dependency (substance abuse) services will be excluded from payment by DRG rates. These services will be paid using per diem payment rates.
- Ambulance and air transportation services are excluded from DRG payments.
- Bills assigned to a DRG that is defined as ungroupable will be denied.
- Bills where the principal diagnosis is invalid as a discharge diagnosis will be denied.
- Bills where the injured worker has been admitted and discharged in less than twenty-four hours will be reviewed by the department and may be paid as hospital outpatient services.
- The department may choose to exclude other DRGs from DRG payment rates due to concerns about access, case volume or other considerations. These services will be paid using the applicable percent of allowed charges (POAC) factor and per diem rates.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0470, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0480 Which hospitals does the department exclude from diagnosis-related-group (DRG) payments?

The following hospitals are excluded from DRG payments:

- Military, Veterans Administration, state psychiatric facilities, health maintenance organizations (HMO), and children's hospitals will be paid their allowed charges.
- Department-approved chronic pain management programs will be paid according to department agreement or contract.

- Peer Group A hospitals, as defined by the department of health, will be paid using per diem rates.
- Hospitals located outside of Washington will be paid a percent of allowed charges (POAC).
- Other hospitals, as determined by the department, may be excluded from DRG reimbursement rates due to concerns about access, case volume or other considerations. These facilities will be paid using the applicable POAC factor and per diem rates.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0480, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0490 Which hospital services does the department include in diagnosis-related-group (DRG) rates?

Unless otherwise specified, the department will include in the DRG rate all hospital services provided to an injured worker admitted to a hospital. Hospital services must be medically necessary for the treatment of the accepted occupational disease or injury.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0490, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0500 When does a case qualify for high outlier status?

Outlier payments apply only to diagnosis-related-group (DRG) reimbursed cases with unusually high or low costs. Outlier status does not apply to cases paid using a percent of allowed charges (POAC) factor or per diem rates.

A case is considered a high cost outlier if the costs for the case exceed the outlier threshold for the assigned diagnosis-related-group. The costs for a case are determined by multiplying the allowed charges for the case by the hospital specific POAC factor. The threshold used to define a high outlier case is the greater of a dollar threshold of twelve thousand dollars or two standard deviations above the statewide average cost for each DRG paid by the department.

The dollar threshold may be adjusted annually for inflation or other factors as determined by the department. The standard deviations for DRGs will be computed from all relevant cases in the historical data base, excluding statistical outliers.

[Statutory Authority: RCW 51.04.020, 51.04.030. 00-24-066, § 296-23A-0500, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0500, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0520 How does the department pay for high outlier cases?

Cases defined as high cost outliers will be reimbursed at the diagnostic-related-group (DRG) payment rate plus one hundred percent of costs in excess of the threshold. Costs are determined by multiplying the allowed charges by the hospital specific percent of allowed charges (POAC) factor.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0520, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0530 How does a case qualify for low outlier status?

To qualify as a low outlier, the allowed charges multiplied by that hospital's percent of allowed charges (POAC) factor must be less than ten percent of the state-wide diagnosis-related-group (DRG) rate or five hundred dollars, whichever is greater. The standard deviations for DRGs will be computed from all relevant cases in the historical data base, excluding statistical outliers.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0530, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0540 How does the department pay for low outlier cases?

Low outlier cases are paid by multiplying each hospital's specific percent of allowed charges (POAC) factor by the allowed charges for the case.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0540, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0550 Under what circumstances will the department pay for interim bills?

The department will deny interim bills which are assigned to diagnosis-related-groups (DRGs) paid per case rates by the department.

If an interim bill is coded as a diagnosis-related-group (DRG) not paid per case rates by the department, then the bill will be paid using the applicable percent of allowed charges (POAC) factor and per diem rates. If a subsequent bill coded as a DRG paid per case rates by the department, for the same injured worker, has a first date of service within seven days of the last date of service of the previous bill, then the bills will be subject to review and adjustment by the department.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0550, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0560 How does the department define and pay for hospital readmissions?

The department will review hospital readmissions occurring within seven days of discharge and will determine whether the second admission resulted from premature discharge. Payment for services associated with readmission will depend upon the review. For example:

- If the second admission is determined unnecessary, reimbursement may be denied.
- If the admission was avoidable, the two admissions may be combined and a single diagnosis-related-group (DRG) payment made.
- If two different DRG assignments are involved, reimbursement for the appropriate DRG will be based upon review of the case.
- Readmissions involving different hospitals will be reviewed by the department and may be paid using the payment method for transfers.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0560, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0570 How does the department define a transfer case?

A transfer case is defined as an injured worker's admission to another acute care hospital within seven days of that worker's previous discharge. All bills for transfer cases will be subject to review by the department and payment will be determined based on that analysis. The transferring hospital may qualify for high and low outlier status.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0570, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0575 How does the department pay a transferring hospital for a transfer case?

When the stay at the transferring hospital is a diagnosis-related-group (DRG) paid by the department, and does not qualify as a low outlier, the transferring hospital is paid a graduated per diem rate for each day of care allowed by the department. If the case qualifies as a low cost outlier, the hospital will be paid the graduated per diem amount or low cost outlier payment amount, whichever is lower. The per diem rate is determined by dividing that hospital's rate for the appropriate DRG by that DRG's

average length of stay as determined by the department. Payment for the first day of service will be two times the per diem rate. For subsequent allowed days, the basic per diem rate will be paid up to the full DRG payment amount. Unless the case qualifies as a high outlier, payment to the transferring hospital will not exceed the appropriate DRG rate that would have been paid had the injured worker not been transferred to another hospital.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0575, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0580 How does the department pay the receiving hospital for a transfer case?

The hospital receiving a transfer will be paid according to the department's review of the case. If the receiving hospital's stay is a diagnosis-related-group (DRG) paid by the department, then the hospital will receive the appropriate per case and outlier payments. If the case is not a DRG paid by the department, then the hospital is paid using applicable percent of allowed charges (POAC) factor or per diem rates.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0580, filed 2/28/97, effective 4/1/97.]

PART 3 - REQUESTING A HOSPITAL RATE ADJUSTMENT

WAC 296-23A-0600 How can a hospital request a rate adjustment?

Hospitals may submit a request for adjustment to their rate if:

- The rate methodology or principles of reimbursement established in department publications were incorrectly applied; or
- Incorrect data or erroneous calculations were used in the establishment of the hospital's rate.
- In all circumstances, requests for adjustments to rates must show how the rate adjustment was calculated and contain sufficient detail to permit an audit. Requests must specify the nature and the amount of the adjustment sought. The burden of proof is on the requesting hospital.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0600, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0610 Where must hospitals submit requests for rate adjustments?

Hospitals must submit requests for rate adjustments in writing to:

Department of Labor and Industries
Health Services Analysis
Request for Hospital Rate Adjustment
P.O. Box 44322
Olympia, Washington 98504-4322.

Requests must be received within sixty days after the facility receives notice of its payment rates.

[Statutory Authority: RCW 51.04.020, 51.04.030 and 51.36.080. 97-06-066, § 296-23A-0610, filed 2/28/97, effective 4/1/97.]

WAC 296-23A-0620 What action will the department take upon receipt of a request for a rate adjustment?

Upon receipt of the request, the department shall determine the need for a conference with the hospital and will contact the facility to arrange a conference if needed. The conference, if needed, must be held within sixty days of the department's receipt of the request.

Within thirty calendar days of the receipt of the request for review or the date of the conference, the department shall notify the facility of the action to be taken by the department.

If the department's review of the material submitted by the hospital results in a favorable determination for the hospital, the department will modify the hospital's payment rate(s). The revised rate(s) will apply to all bills with a date of admission on or after a date chosen by the department. The chosen date will be within one hundred twenty days of the department's and hospital's agreement to modify the rate(s).

If the department's review of the material submitted by the hospital results in a unfavorable determination for the hospital, the hospital may file an appeal with the board of industrial insurance appeals.

PART 4 - AMBULATORY PAYMENT CLASSIFICATION PAYMENT METHODS AND POLICIES

WAC 296-23A-0700 What is the ambulatory payment classification" (APC) payment system?

The APC outpatient prospective payment system (OPPS) is a reimbursement method that categorizes outpatient visits into groups according to the clinical characteristics, the typical resource use, and the costs associated with the diagnoses and the procedures performed. The groups are called Ambulatory Payment Classifications (APCs). The department uses a modified version of the Centers for Medicare and Medicaid Services' (CMS) Prospective Payment System for Hospital Outpatient Department Services to pay some hospitals for covered outpatient services provided to injured workers. The department will utilize CMS' current outpatient code editor to categorize outpatient visits.

The payment system methodology uses CMS' outpatient prospective payment system's relative weight factor for each APC group and a blend of statewide and hospital-specific rates for each APC.

For a complete description of CMS' Prospective Payment System for Hospital Outpatient Department Services see 42 CFR, Chapter IV, Part 419, et al.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080, 51.36.085. 01-24-045, § 296-23A-0700, filed 11/29/01, effective 1/1/02.]

WAC 296-23A-0710 Definitions. "Alternate outpatient payment."

A payment for proper and necessary services calculated using a method other than the APC method, such as the outpatient hospital rate or fee schedule.

"Ambulatory payment classification (APC) bill." An outpatient bill for hospital services that are grouped and paid using APCs.

"Ambulatory payment classification (APC) weight." The relative value assigned to each APC by CMS. For information on calculating the APC weights, please see 42 CFR, Chapter IV, Part 419, et al. Medicare Program; Prospective Payment System for Hospital Outpatient Services.

"Ambulatory payment classification (APC)." A grouping for outpatient visits which are similar both clinically and in the resources used.

"Ambulatory surgery centers (ASCs)." Ambulatory surgery centers as defined by the department. ASCs are excluded from the APC payment system.

"Blended rate." The dollar amount used to determine APC payments.

"Bundling." Including the costs of supplies and certain other items with the costs of APCs. Bundled services will not be paid separately.

"Cancer hospitals." Freestanding hospitals specializing in the treatment of individuals who have a neoplasm diagnosis.

"Children's hospitals." Freestanding hospitals specializing in the treatment of individuals less than fourteen years of age.

"CMS." Centers for Medicare and Medicaid Services, formerly the Health Care Financing Administration (HCFA).

"Correct coding initiative." A process to encourage hospitals to code the most appropriate diagnosis and procedure for the services rendered.

"Critical access hospitals." Critical access hospitals as defined by the department of health.

"Current procedural terminology (CPT)." A systematic listing of descriptive terms and identifying codes for reporting medical services, procedures, interventions performed by physicians; the American Medical Association (AMA) publishes it annually.

"Discount factor." The percentage applied to additional significant procedures when a claim has multiple significant procedures or when the same procedure is performed multiple times.

"Exempt services." Services and hospitals that have been identified by CMS and/or L&I as exempt from the APC-based payment system.

"Health care financing administration's common procedure coding system (HCPCS)." Medicare's procedure coding system, which consists of Level 1 CPT Codes, Level 2 National Codes, and Level 3 Local Codes.

"Incidental services." Proper and necessary services that are integral to the delivery of the significant procedure or medical visit and are not separately reimbursable.

"Inpatient only procedures." Certain procedures designated by CMS as being of sufficient resource intensity that an inpatient setting is always required.

"Modifier." A two-digit alphabetic and/or numeric identifier that is added to the procedure code to indicate the type of service performed. Modifiers add clarification to procedures and can affect payment. Modifiers are listed in the current CPT and HCPCS manuals.

"Non-APC services." Services specifically excluded by CMS or by L&I from APC payment.

"Out-of-state hospitals." Any hospital not physically located within the state of Washington.

"Outpatient code editor." A prepayment analysis program designed to exclude certain diagnostic and procedure codes from being classified within the APC payment system.

"Outpatient prospective payment system (OPPS)." A payment system that groups hospital outpatient visits into APCs and multiplies the relative weight factor by the OPPS conversion rate to determine the appropriate payment.

"Outpatient services." Proper and necessary healthcare services and treatment ordinarily furnished by a hospital in which the injured worker is not admitted as an inpatient.

"Outpatient." A patient who receives proper and necessary healthcare services or supplies in a hospital-type setting but is not admitted as an inpatient.

"Partial hospitalization." Mental health services provided in an inpatient setting without the traditional inpatient overnight stay.

"Pediatric services." Proper and necessary healthcare services and treatment ordinarily furnished by a hospital in which the injured worker is under the age of fourteen.

"Peer group." Categories of hospitals adopted by the department of health for rate setting purposes. The categories are:

- Group 1 - Usually rural hospitals.
- Group 2 - Usually urban hospitals without a medical education program.

- Group 3 - Hospitals with a medical education program.

"Psychiatric hospitals." Freestanding hospitals specializing in the treatment of individuals with a mental health disease.

"Rehabilitation hospitals." Freestanding hospitals specializing in the treatment of individuals in need of rehabilitative services.

"Related encounters or related services." Multiple encounters which are:

- Provided within the same window of service; and
- By the same provider (hospital).

"Single visit." A single visit includes all related services that are combined for reimbursement when they occur with the same hospital during the window of service.

"Special programs." Programs specifically designated by the department.

"Transitional pass-through." Certain drugs, devices and biologicals, as identified by CMS that are entitled to a specified payment until CMS assigns and reimburses them under their own APC.

"Window of service." A single date of service. All services associated with the visit for that date constitute a single visit, even when those services are provided on different days.

WAC 296-23A-0720 How does the department calculate the hospital-specific per APC rate used for paying outpatient services under the outpatient prospective payment system (OPPS)?

- (1) OPPS payment rates are calculated with a formula that blends a hospital-specific rate and a statewide rate. Each hospital's historic labor and industries' reimbursement level in combination with the department's statewide payments will determine payment rates.
- (2) For the statewide rate, the department:
 - (a) Determines the total number of APC procedures that the department paid the covered hospitals. The relative weights for all of these APCs are summed.
 - (b) Determines the total dollar amount the department paid for those APCs.
 - (c) Determines the total dollar amount the department paid as outlier payments.
 - (d) Subtracts the total outlier payments in (c) of this subsection from the total dollar amount in (b) of this subsection and then divides the adjusted dollar amount by the APC relative weight total from (a) of this subsection.

(Sum of APC payments - Sum of outlier payments)/Sum of APC
relative weights = Statewide rate

- (3) For the hospital-specific rate, the department:
- (a) Segregates all the APCs for each hospital and totals the relative weights for each hospital.
 - (b) Determines the total dollar amount the department historically paid each hospital for those APCs.
 - (c) Determines the total dollar amount the department historically paid each hospital as an outlier payment for those APCs.
 - (d) Subtracts the total hospital-specific outlier payments in (c) of this subsection from the total hospital-specific APC payments in (b) of this subsection and then divides the hospital's adjusted dollar amount by the hospital-specific APC relative weight total from (a) of this subsection.

$$(\text{Sum of hospital-specific APC payment} - \text{Sum of hospital-specific outlier payments}) / \text{Sum of the hospital-specific APC relative weights} = \text{Hospital-specific rate}$$

- (4) The final per APC rate paid to a hospital is a blended combination of the hospital-specific and statewide rates.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080, 51.36.085. 01-24-045, § 296-23A-0720, filed 11/29/01, effective 1/1/02.]

WAC 296-23A-0730 How does the department determine the APC relative weights?

The relative weight for each APC is the current relative weight listed by CMS for the corresponding APC.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080, 51.36.085. 01-24-045, § 296-23A-0730, filed 11/29/01, effective 1/1/02.]

WAC 296-23A-0740 How does the department calculate payments for covered outpatient services through the outpatient prospective payment system (OPPS)?

- (1) Billed services that are reimbursed by the OPPS are grouped into one or more APCs using the outpatient code editor software.
- (2) Additional payment may be made for services classified by CMS as transitional pass-through.
- (3) Incidental services are grouped within an APC and are not paid separately.
- (4) The OPPS APC payment method uses an APC relative weight for each classification group (APC) and the current hospital-specific blended rate to determine the APC payment for an individual service.
- (5) For each additional APC listed on a single claim for services, the payment is calculated with the same formula and then discounted. L&I follows all discounting policies used by CMS for the Medicare Prospective Payment System for Hospital Outpatient Department Services.

- (6) APC payment for each APC = (APC relative weight x hospital-specific blended rate)* discount factor (if applicable) x units (if applicable).
- (7) The total payment on an APC claim is determined mathematically as follows:
 - (a) Sum of APC payments for each APC +
 - (b) Additional payment for each transitional pass-through (if applicable) +
 - (c) Additional outlier payment (if applicable).
- (8) L&I follows all billing policies used by CMS for the Medicare Prospective Payment System for Hospital Outpatient Department Services with respect to:
 - (a) Billing of units of service;
 - (b) Outlier claims;
 - (c) Use of modifiers;
 - (d) Distinguishing between single and multiple visits during a span of time and reporting a single visit on one claim, but multiple visits with unrelated medical conditions on multiple claims; and
 - (e) For paying terminated procedures based on services actually provided and documented in the medical record, and properly indicated by the hospital through the CPT codes and modifiers submitted on the claim.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080, 51.36.085. 01-24-045, § 296-23A-0740, filed 11/29/01, effective 1/1/02.]

WAC 296-23A-0750 What exclusions and exceptions apply to ambulatory-payment-classification (APC) payments for hospital services?

- (1) Peer Group 1 (rural) hospitals as identified by the Washington state department of health (DOH).
- (2) Critical access hospitals as identified by the Washington state department of health (DOH).
- (3) All out-of-state hospitals.
- (4) Military/veterans hospitals.
- (5) Psychiatric hospitals.
- (6) Rehabilitation hospitals.
- (7) Cancer hospitals.
- (8) Children's hospitals.
- (9) Ambulatory surgery centers.
- (10) Any outpatient service or special program identified by the department or by CMS as being a non-APC service.
- (11) Any inpatient-only procedures as identified by CMS.
- (12) Any APCs identified by the department as a non-APC service.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080, 51.36.085. 01-24-045, § 296-23A-0750, filed 11/29/01, effective 1/1/02.]

WAC 296-23A-0770 How will excluded outpatient services and hospitals be paid?

Services excluded from APC-payment, if deemed appropriate for reimbursement, will be reimbursed using an alternate outpatient payment method, such as a specific fee schedule and/or using the hospital-specific or the statewide average percent of allowed charges (POAC).

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080, 51.36.085. 01-24-045, § 296-23A-0770, filed 11/29/01, effective 1/1/02.]

WAC 296-23A-0780 What information needs to be submitted for the hospital to be paid for outpatient services?

Each claim for services must include the required elements as described within the current L&I hospital billing and administrative guidelines.

Note: Includes Provider General Billing Manual; Billing Instructions for Hospital Services; Provider Bulletins; and Provider Updates.

[Statutory Authority: RCW 51.04.020, 51.04.030, 51.36.080, 51.36.085. 01-24-045, § 296-23A-0780, filed 11/29/01, effective 1/1/02.]

Washington Administrative Code
Chapter 296-23B

AMBULATORY SURGERY CENTER PAYMENT

WAC 296-23B-0100 Who may bill for ambulatory surgery center services?

Only facilities that meet the criteria below may bill for ambulatory surgery center (ASC) services.

An ambulatory surgery center is an outpatient facility where surgical services are provided and that meets the following three requirements:

- (1) Must be licensed by the state(s) in which it operates, unless that state does not require licensure.
- (2) Must have at least one of the following credentials:
 - (a) Medicare certification as an ambulatory surgery center; or
 - (b) Accreditation as an ambulatory surgery center by a nationally recognized agency acknowledged by the Centers for Medicare and Medicaid Services (CMS).
- (3) Must have an active ambulatory surgery center provider account with the department of labor and industries.

Note: A provider account application may be obtained from Department of Labor and Industries, Provider Accounts, P.O. Box 44261, Olympia, WA 98504-4261, 360-902-5140. A copy can also be obtained online at www.lni.wa.gov.

[Statutory Authority: RCW 51.36.080, 51.04.030, 51.36.010, 51.04.020. 01-21-140, § 296-23B-0100, filed 10/24/01, effective 1/1/02.]

WAC 296-23B-0110 How does an ambulatory surgery center bill for services?

Ambulatory surgery centers must submit bills for services on a national standard form specified by the department of labor and industries. Bills also may be submitted electronically using department file format specifications. Providers must follow the instructions in the *General Provider Billing Manual* and *Billing Instructions*. Special billing policies for ambulatory surgery centers are in the *Medical Aid Rules and Fee Schedules* under *Ambulatory Surgery Center Payment Policies*.

Note: Copies of billing manuals, billing instructions and the *Medical Aid Rules and Fee Schedules* may be obtained from Department of Labor and Industries, Warehouse, P.O. Box 44843, Olympia, WA 98504-4843 or 360-902-5754. The *Medical Aid Rules and Fee Schedules* may also be viewed online at www.lni.wa.gov.

WAC 296-23B-0120 What procedures are covered in an ambulatory surgery center?

The department will use the Centers for Medicare and Medicaid Services (CMS) list of procedures covered in an ambulatory surgery center plus additional procedures as determined by the department. All procedures covered in an ambulatory surgery center are listed in the *Medical Aid Rules and Fee Schedules, Ambulatory Surgery Center Payment Policies* section. Certain procedures are still subject to the utilization review program. Procedures that are not listed are not covered in an ambulatory surgery center.

Under certain conditions, the director, the director's designee, or self-insurer, in their sole discretion, may determine that a procedure not on the list may be authorized in an ambulatory surgery center. For example, if the procedure could be harmful to a particular patient unless performed in an ambulatory surgery center. Requests for coverage under these special circumstances require prior authorization. The process for requesting coverage is outlined in

the *Medical Aid Rules and Fee Schedules, Ambulatory Surgery Center Payment Policies* section.

The department will allow some procedures to be covered in an outpatient setting that CMS covers only in an inpatient setting. The department will cover these procedures in an ambulatory surgery center if the following criteria are met:

- (1) The surgeon deems that it is safe and appropriate to perform such a procedure in an outpatient setting; and

The procedure meets the department's utilization review requirements.

Notes: For information on the utilization review program please see the following:
WAC 296-20-024 for utilization management authority.
WAC 296-20-01002 for definition of utilization review.
WAC 296-20-02700 through 296-20-03002 for medical coverage policies.
Provider bulletins describing the utilization review program.
These may be viewed online at www.lni.wa.gov.

WAC 296-23B-0130 What payment can an ambulatory surgery center expect for providing services?

The department pays the lesser of the billed charge (the ASC's usual and customary fee) or the fee schedule's maximum allowed rate. The fee schedule for ambulatory surgery centers is in the *Medical Aid Rules and Fee Schedules*.

[Statutory Authority: RCW 51.36.080, 51.04.030, 51.36.010, 51.04.020. 01-21-140, § 296-23B-0130, filed 10/24/01, effective 1/1/02.]

WAC 296-23B-0140 When will the rates and policies for ambulatory surgery centers be updated?

The fee schedule, codes, and policies for ambulatory surgery centers will be reviewed periodically. The department will publish provider bulletins to clarify, update, and inform ambulatory surgery centers about changes in policies or fees. They also will be published each July in the *Medical Aid Rules and Fee Schedules*.

[Statutory Authority: RCW 51.36.080, 51.04.030, 51.36.010, 51.04.020. 01-21-140, § 296-23B-0140, filed 10/24/01, effective 1/1/02.]

Introduction

All providers must follow the administrative rules, medical coverage decisions and payment policies contained within the *Medical Aid Rules and Fee Schedules, Provider Bulletins, and Provider Updates*. If there are any services, procedures, or text contained in the CPT® and HCPCS coding books that are in conflict with the *Medical Aid Rules and Fee Schedules*, the department's rules and policies apply (WAC 296-20-010). All policies in this document apply to claimants receiving benefits from the State Fund, the Crime Victims Compensation Program and Self-Insurers unless otherwise noted.

Questions may be directed to the Provider Hotline at 1-800-848-0811.

GENERAL INFORMATION

EFFECTIVE DATE

This edition of the *Medical Aid Rules and Fee Schedules* is effective for services performed on or after July 1, 2002.

UPDATES AND CORRECTIONS TO THE FEE SCHEDULES

Additional fee schedule and policy information is published throughout the year in the department's *Provider Bulletins* and *Provider Updates*. If necessary, corrections to the *Medical Aid Rules and Fee Schedules* will be published on the department's web site at <http://www.lni.wa.gov/hsa/>.

STATE AGENCIES' FEE SCHEDULE AND PAYMENT POLICY DEVELOPMENT

The Washington state government payers coordinate fee schedule and payment policy development. The intent of this coordination is to develop payment systems and policies that make billing and payment requirements as consistent as possible for providers.

The state government payers are:

- The Washington State Fund workers' compensation program (The State Fund), administered by the Department of Labor and Industries
- The Uniform Medical Plan, administered by the Health Care Authority for state employees and retirees
- The State Medicaid Program, administered by the Medical Assistance Administration (MAA) within the Department of Social and Health Services (DSHS)

These agencies comprise the Interagency Reimbursement Steering Committee (RSC). The RSC receives input from the State Agency Technical Advisory Group (TAG) on the development of fee schedules and payment policies. The TAG consists of representatives from almost all major state professional provider associations.

While the basis for most of the agencies' fee schedules is the same, payment and benefit levels differ because each agency has its own source of funding, benefit contracts, rates and conversion factors.

BECOMING A PROVIDER

WORKERS' COMPENSATION PROGRAM

Every provider who treats a Washington injured worker must have an active L&I provider account number to receive payment. Providers can apply for account numbers by completing a Provider Account Application. More information about the provider application process is published in WAC 296-20-12401, which can be found in the Medical Aid Rules section. Provider applications are available on the department's web site at www.lni.wa.gov/forms (form #F248-011-000) or can be requested by contacting the department's Provider Accounts section or the Provider Hotline.

BILLING INSTRUCTIONS AND FORMS

BILLING PROCEDURES

Billing procedures are outlined in WAC 296-20-125, which can be found in the Medical Aid Rules section.

BILLING MANUALS AND BILLING INSTRUCTIONS

The General Provider Billing Manual (publication #F248-100-000) and the department's provider specific billing instructions contain billing guidelines, reporting and documentation requirements, resource lists and contact information. These publications are available on the department's web site at www.lni.wa.gov/hsa or can be requested from the department's Provider Accounts section. (Refer to "Becoming a Provider" above for contact information.)

BILLING FORMS

Providers should use the department's most recent billing forms. Using out-of-date billing forms may result in delayed payment. To order new billing forms or other department publications, complete the Medical Forms Request Card (located at the end of this document or on the department's web site at www.lni.wa.gov/forms/) and send it to the department's warehouse.

SUBMITTING CLAIM DOCUMENTS TO THE STATE FUND

MAILING ADDRESSES

Sending State Fund bills, reports and correspondence to the right mailing address is important. Mailing State Fund bills to the right address helps the department pay you promptly. Reports and chart notes should be mailed separately from bills. Sending reports or chart notes with your bill may delay or even prevent the information from reaching the claims manager.

TIPS FOR SUBMITTING CORRESPONDENCE TO THE STATE FUND

Put the Patient's Name and Claim Number in the Upper Right Hand Corner

All correspondence you submit to the State Fund should be legible and should include the patient's name and claim number in the upper right hand corner of each page. If you do not have the claim number, put the worker's social security number in the upper right hand corner of all pages of your correspondence. Including this information will ensure that your correspondence is routed to the correct worker's file.

If more than one report about a claimant is submitted at the same time, staple together all reports pertaining to the claim number. If abbreviations are used, please provide a copy of the abbreviation key with all chart notes submitted.

Submit Reports on Plain White, 8 ½" x 11" Paper (One Side Only)

The type of paper you use when submitting your reports can cause significant delays in claim management and bill payment. The State Fund uses an imaging system to store electronic copies of all documents submitted on injured worker's claims. This system cannot read some types of paper and has difficulty passing other types through automated machinery.

All reports submitted to the State Fund should be on plain white, 8 ½" x 11" paper printed only on one side. Submitting reports on other types of paper may require manual handling or re-processing. These delays may cause claims managers to request information you have already submitted.

Documents with highlighter markings can black out information or make information difficult to read. To emphasize text, please use asterisks or underlining. Please **DO NOT** submit reports on:

- Colored paper, particularly "hot" or intense colors,
- Thick or textured paper,
- Carbonless paper,
- Paper with highlighter markings,
- Paper with shaded areas,
- Paper with black or dark borders, especially on the top border, or
- Paper with logos or other information in the top ½" edge of the document.

DOCUMENTATION REQUIREMENTS

Providers must maintain documentation in workers' medical files to verify the level, type and extent of services provided to injured workers. The department may deny or reduce a provider's level of payment for a specific visit or service if the required documentation is not provided or indicates the level or type of service does not match the procedure code billed. No additional amount is payable for documentation required to support billing.

In addition to the documentation requirements published by the American Medical Association in the physicians' Current Procedural Terminology, CPT® book, the department or Self-Insurer has additional reporting and documentation requirements. These requirements are described in the provider specific sections and in WAC 296-20-06101. The department may pay separately for specialized reports or forms required for claims management.

RECORD KEEPING REQUIREMENTS

As a provider with a signed agreement with the department, you are the legal custodian of the injured workers' medical records. You must include subjective and objective findings, records of clinical assessment (diagnoses), as well as reports and interpretations of x-rays, laboratory studies and other key clinical information in patient charts.

Providers are required to keep all records necessary for the department to audit the provision of services for a minimum of five years. (See *WAC 296-20-02005 Keeping of records.*)

Providers are required to keep all x-rays for a minimum of ten years. (See *WAC 296-23-140 Custody of x-rays.*)

CHARTING FORMAT

For progress and ongoing care, use the standard "SOAP" (Subjective, Objective, Assessment, Plan and progress) format. Chart notes should also document employment issues, including a record of the patient's physical and medical ability to work, and information regarding any rehabilitation that the worker may need to undergo. Restrictions to recovery, any temporary or permanent physical limitations, and any unrelated condition(s) that may impede recovery must be documented.

OVERVIEW OF PAYMENT METHODS

HOSPITAL INPATIENT PAYMENT METHODS

The following is an overview of the department's payment methods for services in the hospital inpatient setting. Refer to Chapter 296-23A in the *Medical Aid Rules* and the Hospital Payment Policies section for more information.

All Patient Diagnosis Related Groups (AP-DRG)

The department uses All Patient Diagnosis Related Groups (AP-DRGs) to pay for most inpatient hospital services.

Percent of Allowed Charges (POAC)

The department uses a POAC payment method for some hospitals that are exempt from the AP-DRG payment method.

Self-insurers and Crime Victims pay all hospitals using POAC.

The department uses the POAC as part of the outlier payment calculation for hospitals paid by the AP-DRG. P

Per Diem

The department uses statewide average per diem rates for five AP-DRG categories: chemical dependency, psychiatric, rehabilitation, medical, and surgical. Some hospitals are paid for all

inpatient services using per diem rates. Hospitals paid using the AP-DRG method are paid per diem rates for AP-DRGs designated as low volume.

HOSPITAL OUTPATIENT PAYMENT METHODS

The following is an overview of the department's payment methods for services in the hospital outpatient setting. Refer to Chapter 296-23A in the *Medical Aid Rules* and the Hospital Payment Policies section for more detailed information.

Ambulatory Payment Classifications (APC)

The department pays for most hospital outpatient services with the APC payment method.

Professional Services Fee Schedule

The department pays for most services not paid with the APC payment method according to the maximum fees in the Professional Services Fee Schedule.

Self-insurers and Crime Victims pay for most radiology, pathology, laboratory, physical therapy, and occupational therapy services according to the maximum fees in the Professional Services Fee Schedule.

Percent of Allowed Charges (POAC)

Hospital outpatient services that are not paid with the APC payment method, the Professional Services Fee Schedule or by department contract are paid by a POAC payment method. Self-insurers and Crime Victims use POAC to pay for hospital outpatient services that are not paid with the Professional Services Fee Schedule.

Department Contract

The department pays for chronic pain management services by department contract.

AMBULATORY SURGERY CENTER PAYMENT METHODS

Ambulatory Surgery Center (ASC) Groups

The department uses a modified version of the ASC Grouping system that was developed by the Centers for Medicare and Medicaid Services (CMS) to pay for facility services in an ASC. Refer to Chapter 296-23B in the *Medical Aid Rules* and the ASC Payment Policies section for more information.

PROFESSIONAL PROVIDER PAYMENT METHODS

Resource Based Relative Value Scale (RBRVS)

The department uses the Resource Based Relative Value Scale (RBRVS) to pay for most professional services. More information about RBRVS is contained in the Professional Services section. Services priced according to the RBRVS fee schedule have a fee schedule indicator of "R" in the Professional Services Fee Schedule.

Anesthesia Fee Schedule

The department pays for most anesthesia services using anesthesia base and time units. More information is available in the Professional Services section.

Pharmacy Fee Schedule

The department pays pharmacies for drugs and medications according to the pharmacy fee schedule. More information is available in the Professional Services section.

Average Wholesale Price

The department's rates for most drugs dispensed from a prescriber's office are priced based on a percentage of the average wholesale price (AWP) or the average average wholesale price (AAWP) of the drug. Drugs priced with an AWP or AAWP method have a fee schedule indicator of "D" in the Professional Services Fee Schedule.

Clinical Laboratory Fee Schedule

The department's clinical laboratory rates are based on a percentage of the clinical laboratory rates established by the Centers for Medicare and Medicaid Services. Services priced according to the department's clinical laboratory fee schedule have a fee schedule indicator of "L" in the Professional Services Fee Schedule.

Flat fees

The department establishes rates for some services that are not priced with other payment methods. Services priced with flat fees have a fee schedule indicator of "F" in the Professional Services Fee Schedule.

Department Contracts

The department pays for some services by contract. Some of the services paid by contract include TENS units and supplies, utilization management, pain management, and chemically related illness center services. Services paid by department agreement have a fee schedule indicator of "C" in the Professional Services Fee Schedule.

By Report

The department pays for some covered services on a by report basis. Services paid by report have a fee schedule indicator of "N" in the Professional Services Fee Schedule.

BILLING CODES AND MODIFIERS

The department's fee schedules use the federal Healthcare Common Procedure Coding System (HCPCS), select codes from the American Society of Anesthesiologists (ASA), and agency unique "local codes."

HCPCS Level I codes are the Physicians' Current Procedural Terminology (CPT®) codes that are developed, updated and copyrighted annually by the American Medical Association (AMA). There are three categories of CPT® codes:

CPT® Category I codes are codes used for professional services and pathology and laboratory tests. These services are clinically recognized and generally accepted services, not newly emerging technologies. These codes consist of five numbers (e.g. 99201).

CPT® Category II codes are optional codes used to facilitate data collection for tracking performance measurement. These codes consist of four numbers followed by the letter "F" (e.g. 1234F).

CPT® Category III codes are temporary codes used to identify new and emerging technologies. These codes consist of four numbers followed by the letter "T" (e.g. 0001T).

HCPCS Level I modifiers are the CPT® modifiers that are developed, updated and copyrighted annually by the American Medical Association (AMA). CPT® modifiers are used to indicate that a procedure or service has been altered without changing its definition. These modifiers consist of two numbers (e.g. -22). The department does not accept the five digit modifiers.

HCPCS Level II codes, commonly called HCPCS (pronounced “Hick-Picks”), are updated annually by the Centers for Medicare and Medicaid Services (CMS). CMS develops most of the codes. Codes beginning with “D” are developed and copyrighted by the American Dental Association (ADA) and are published in the *Current Dental Terminology* (CDT-3). HCPCS codes are used to identify miscellaneous services, supplies and materials not contained in the CPT® coding system. These codes begin with a single letter, followed by four numbers (e.g. K0007).

HCPCS Level II modifiers are developed and updated annually by CMS and are used to indicate that a procedure has been altered. These modifiers consist of two letters (e.g. -AA) or one letter and one number (e.g. -E1).

ASA codes* are developed, updated and copyrighted by the American Society of Anesthesiologists (ASA) and published in the ASA Relative Value Guide (ASARVG). These codes consist of five numbers (e.g. 02100) and are clearly distinguished from CPT® codes where used in the fee schedules.

* Copyright 2002 American Society of Anesthesiologists. All Rights Reserved.

Local codes are used to identify department unique services or supplies. They consist of four numbers followed by one letter (not “F” or “T”). For example, 1040M should be used to code completion of the department’s accident report form.

Local modifiers are used to identify department unique alterations to services. They consist of one number and one letter (e.g. -1S).

The fee schedules do not contain the full text descriptions of the CPT®, HCPCS, CDT or ASA codes. Providers must bill according to the full text descriptions published in the CPT® and HCPCS books and in the ASARVG, which can be purchased from private sources. Refer to Washington Administrative Code (WAC) 296-20-010(1) for additional information.

PROVIDER BULLETINS AND UPDATES

Provider Bulletins and Provider Updates are adjuncts to the *Medical Aid Rules and Fee Schedules*, providing additional fee schedule, medical coverage decisions, and policy information throughout the year.

Provider Bulletins give official notification of new or revised policies, programs and/or procedures that have not been previously published.

Provider Updates give official notification of corrections or important information, but the contents do not represent new policies, programs, and/or procedures.

All users of the *Medical Aid Rules and Fee Schedules* are encouraged to keep Provider Bulletins and Updates on file. The bulletins and updates listed below were in effect at the time this fee schedule was printed.

Provider Bulletins are available on the department's web site at www.lni.wa.gov/hsa. If you need hard copies, you may request them from the Provider Hotline at 1-800-848-0811.

If a bulletin or update is not listed here, it is either no longer current or has been incorporated into the *Medical Aid Rules and Fee Schedules*. Refer to the body of the *Medical Aid Rules and Fee Schedules* for changes affecting your practice.

Professional Services

This section contains payment policy information for professional services. Many of the policies contain information previously published in *Provider Bulletins*.

In addition to the policies outlined in this section, all providers must follow the administrative rules, medical coverage decisions and payment policies contained within the *Medical Aid Rules and Fee Schedules*, *Provider Bulletins*, and *Provider Updates*. If there are any services, procedures, or text contained in the CPT[®] and HCPCS coding books that are in conflict with the *Medical Aid Rules and Fee Schedules*, the department's rules and policies apply (WAC 296-20-010). All policies in this document apply to claimants receiving benefits from the State Fund, the Crime Victims Compensation Program and Self-Insurers unless otherwise noted.

Questions may be directed to the Provider Hotline at 1-800-848-0811.

GENERAL INFORMATION

COVERED SERVICES

The department makes general policy decisions, called medical coverage decisions, to ensure quality of care and prompt treatment of workers. Medical coverage decisions include or exclude a specific health care service as a covered benefit.

No payment will be made for non-covered codes. Non-covered codes are listed with "Not Covered" in the dollar value columns in the Professional Services Fee Schedule. They are also listed in Appendix D at the end of this document.

For more information on coverage decisions and covered services, refer to WAC 296-20 sections -01505, -02700 through -02850, -03002 and -1102.

UNITS OF SERVICE

Payment for billing codes that do not specify a time increment or unit of measure is limited to one unit per day. For example, only one unit is payable for CPT® code 97022, whirlpool therapy, regardless of how long the therapy lasts.

UNLISTED CODES

A covered service or procedure may be provided that does not have a specific code or payment level listed in the fee schedules. When reporting such a service, the appropriate unlisted procedure code may be used and a special report is required as supporting documentation. No additional payment is made for the supporting documentation. Refer to WAC 296-20 of the Washington Administrative Code (including the definition section), and to the fee schedules for additional information.

WASHINGTON RBRVS PAYMENT SYSTEM AND POLICIES

The department uses the Resource Based Relative Value Scale (RBRVS) to pay for most professional services. Services priced according to the RBRVS fee schedule have a fee schedule indicator of "R" in the Professional Services Fee Schedule.

BASIS FOR CALCULATING RBRVS PAYMENT LEVELS

RBRVS fee schedule allowances are based on relative value units (RVUs), geographic adjustment factors for Washington State, and a conversion factor. The three state agencies (the Department of Labor and Industries, the Health Care Authority and the Department of Social and Health Services) use a common set of RVUs and geographic adjustment factors for procedures, but use different conversion factors.

The primary source for the current RVUs is the 2002 Medicare Physician Fee Schedule Database (MPFSDB), which was published by the Centers for Medicare and Medicaid Services (CMS) in the November 1, 2001 *Federal Register*. The *Federal Register* can be accessed online from the "Laws and Regulations" link on CMS's website or can be purchased from the U.S. Government in hard copy, microfiche, or disc formats. The *Federal Register* can be ordered from the following addresses:

Superintendent of Documents		U.S. Government Bookstore
PO Box 371954	or	915 2nd Avenue
Pittsburgh, PA 15250-7954		Seattle, WA 98174

Under CMS's approach, relative values are assigned to each procedure based on the resources required to perform the procedure, including the work, practice expense, and liability insurance (malpractice expense). The state agencies geographically adjust the RVUs for each of these components based on the costs for Washington State. The Washington State geographic adjustment factors for July 1, 2002 are: 98.9% of the work component RVU, 101.1% of the practice expense RVU, and 78.8% of the malpractice RVU.

To calculate the department's maximum fee for each procedure:

- 1) Multiply each RVU component by the corresponding geographic adjustment factor,
- 2) Sum the geographically adjusted RVU components and round the result to the nearest hundredth,
- 3) Multiply the rounded sum by the department's RBRVS conversion factor (published in WAC 296-20-135) and round to the nearest penny.

The department's maximum fees are published as dollar values in the Professional Services Fee Schedule.

SITE OF SERVICE PAYMENT DIFFERENTIAL

The site of service differential is based on CMS's payment policy and establishes distinct maximum fees for services performed in facility and non-facility settings. The department will pay professional services at the RBRVS rates for facility and non-facility settings based on where the service was performed. Therefore, it is important to **include a valid two-digit place of service code on your bill**.

The department's maximum fees for facility and non-facility settings are published in the Professional Services Fee Schedule.

Services Paid at the RBRVS Rate for Facility Settings

When services are performed in a facility setting, the department makes two payments, one to the professional provider and another to the facility. The payment to the facility includes resource costs such as labor, medical supplies and medical equipment. To avoid duplicate payment of resource costs, these costs are excluded from the RBRVS rates for facility settings.

Professional services will be paid at the RBRVS rate for facility settings when the department also makes a payment to a facility. Therefore, services billed with the following place of service codes will be paid at the rate for facility settings:

Place of Service Code	Place of Service Description
05	Indian health service free-standing facility
06	Indian health service provider-based facility
07	Tribal 638 free-standing facility
08	Tribal 638 provider-based facility
21	Inpatient hospital
22	Outpatient hospital
23	Emergency room- hospital
24	Ambulatory surgery center
25	Birthing Center
26	Military treatment facility
31	Skilled nursing facility
51	Inpatient psychiatric facility
61	Comprehensive inpatient rehabilitation facility
62	Comprehensive outpatient rehabilitation facility
99	Other unlisted facility
(none)	(Place of service code not supplied)

Services Paid at the RBRVS Rate for Non-Facility Settings

When services are provided in non-facility settings, the professional provider typically bears the costs of labor, medical supplies and medical equipment. These costs are included in the RBRVS rate for non-facility settings.

Professional services will be paid at the RBRVS rate for non-facility settings when the department does not make a separate payment to a facility. Therefore, services billed with the following place of service codes will be paid at the rate for non-facility settings:

Place of Service Code	Place of Service Description
03	School
04	Homeless shelter
11	Office
12	Home
15	Mobile unit
32	Nursing facility
33	Custodial care facility
34	Hospice
41	Ambulance (land)
42	Ambulance (air or water)
50	Federally qualified health center
52	Psychiatric facility partial hospitalization
53	Community mental health center
54	Intermediate care facility/mentally retarded
55	Residential substance abuse treatment center
56	Psychiatric residential treatment center
60	Mass immunization center
65	End stage renal disease treatment facility
71	State or local public health clinic
72	Rural health clinic
81	Inpatient laboratory

Facilities will be paid at the RBRVS rate for non-facility settings when the department does not make a separate payment directly to the provider of the service.

Remember to include a valid two-digit place of service code on your bill. Bills without a place of service code will be processed at the RBRVS rate for facility settings, which could result in lower payment.

EVALUATION AND MANAGEMENT SERVICES (E/M)

NEW AND ESTABLISHED PATIENT

The department uses the CPT® definitions of *new* and *established* patients.

If a patient presents with a work related condition and meets the definition of a new patient in a provider's practice, then the appropriate level of a new patient E/M should be billed.

If a patient presents with a work related condition and meets the definition of an established patient in a provider's practice, then the appropriate level of established patient E/M service

should be billed, **even if the provider is treating a new work related condition for the first time.**

MEDICAL CARE IN THE HOME OR NURSING HOME

The department allows attending physicians to charge for nursing facility services (CPT® codes 99301-99313), domiciliary, rest home (e.g., boarding home), or custodial care services (CPT® codes 99321-99333) and home services (CPT® codes 99341-99350). The attending physician (not staff) must perform these services. The medical record must document the medical necessity as well as the level of service.

PROLONGED EVALUATION AND MANAGEMENT

Payment of prolonged E/M (CPT® codes 99354-99357) is allowed with a maximum of three hours per day per patient. These services are payable only when another E/M code is billed on the same day using the following CMS payment criteria:

CPT® Code	Other CPT® Code(s) Required on Same Day
99354	99201-99205, 99212-99215, 99241-99245 or 99324-99350
99355	99354 <i>and</i> one of the E/M codes required for 99354
99356	99221-99223, 99231-99233, 99251-99255, 99261-99263, 99301-99303, or 99311-99313
99357	99356 <i>and</i> one of the E/M codes required for 99356

The time counted toward payment for prolonged E/M services includes only direct face-to-face contact between the provider and the patient (whether the service was continuous or not). Prolonged physician services without direct contact (CPT® codes 99358 and 99359) are bundled and are not payable in addition to other E/M codes.

A narrative report is required when billing for prolonged evaluation and management services.

PHYSICIAN STANDBY SERVICES

The department pays for physician standby services (CPT® code 99360) when all the following criteria are met:

- Another physician requested the standby service,
- The standby service involves prolonged physician attendance without direct (face-to-face) patient contact,
- The standby physician is not concurrently providing care or service to other patients during this period,
- The standby service does not result in the standby physician's performance of a procedure subject to a "surgical package," and
- Standby services of 30 minutes or more are provided.

Subsequent periods of standby beyond the first 30 minutes may be reported and are payable only when a *full* 30 minutes of standby was provided for each unit of service reported. Round all fractions of a 30-minute unit downward.

Justification for the physician standby service must be documented and retained in the provider's office and submitted to the department or Self-Insurer for review upon request.

A narrative report is required when billing for physician standby services.

CASE MANAGEMENT SERVICES

Team conferences (CPT® codes 99361-99362) may be payable when the attending doctor, consultant, or psychologist meets with an interdisciplinary team of health professionals, department staff, vocational rehabilitation counselors, nurse case managers, department medical consultants, Self-Insurer representatives or employers. Documentation must include a goal-oriented, time-limited treatment plan covering medical, surgical, vocational or return to work activities, or objective measures of function that allow a determination as to whether a previously created plan is effective in returning the injured worker to an appropriate level of function.

Telephone calls (CPT® codes 99371-99373) are payable only when personally made by the attending doctor, consultant or psychologist. These services are payable when discussing or coordinating care or treatment with the injured worker, department staff, vocational rehabilitation counselors, nurse case managers, department medical consultants, Self-Insurer representatives or employers. Telephone calls for authorization, resolution of billing issues, or ordering prescriptions are not payable.

Documentation for case management services (CPT® codes 99361-99373) must include:

- The date,
- The participants and their titles,
- The length of the call or visit,
- The nature of the call or visit, and
- All medical, vocational or return to work decisions made.

Psychiatrists and clinical psychologists may only bill for case management services when also providing consultation or evaluation.

PHYSICIAN CARE PLAN OVERSIGHT

The department allows separate payment for physician care plan oversight services (CPT® codes 99375, 99378 and 99380). Payment is limited to one per attending physician, per patient, per 30-day period. Care plan services (CPT® codes 99374, 99377 and 99379) of less than 30 minutes within a 30-day period are considered part of E/M services and are not separately payable.

Payment for care plan oversight to a physician providing postsurgical care during the postoperative period will be made only if the care plan oversight is documented as unrelated to the surgery, and modifier –24 is used. The attending physician (not staff) must perform these services. The medical record must document the medical necessity as well as the level of service.

TELECONSULTATIONS

The department has adopted a modified version of CMS's policy on teleconsultations. Teleconsultations require an interactive telecommunication system, consisting of special audio and video equipment that permits real-time consultation between the patient, consultant and referring provider. Telephones, faxes and electronic mail systems do not meet the definition of an interactive telecommunication system.

Coverage of Teleconsultations

Teleconsultations are covered in the same manner as face-to-face consultations (refer to WACs 296-20-045 and –051), but *in addition*, **all** of the following conditions must be met:

- The **consultant** must be a doctor as described in WAC 296-20-01002, which includes a MD, DO, ND, DPM, OD, DMD, DDS, or DC. A consulting DC must be an approved consultant with the department.
- The **referring provider** must be one of the following: MD, DO, ND, DPM, OD, DMD, DDS, DC, ARNP, PA, or PhD Clinical Psychologist.
- The patient must be present at the time of the consultation.
- The examination of the patient must be under the control of the consultant.
- The referring provider must be physically present with the patient during the consultation.
- The consultant must submit a written report documenting this service to the referring provider, and must send a copy to the insurer.
- A referring provider who is not the attending must consult with the attending provider before making the referral.

Payment of Teleconsultations

Teleconsultations are paid in a different manner than face-to-face consultations. Also, the department and Self-Insurers pay for teleconsultations in a different manner than CMS. Insurers may directly pay both consultants and referring providers for their services. Insurers will pay according to the following criteria:

- Providers (consulting and/or referring) must append a “GT” modifier to one of the appropriate codes listed in the table below.
- The amount allowable for the appropriate code is the lesser of the billed amount or 75% of the fee schedule amount.
- No separate payment will be made for the review and interpretation of the patient’s medical records and/or the required report that must be submitted to the referring provider and to the department.
- No payment is allowed for telephone line charges and facility fees incurred during the teleconsultation.

The Consultant May Bill Codes:

CPT® codes 99241-99245
 CPT® codes 99251-99255
 CPT® codes 99261-99263
 CPT® codes 99271-99275
 CPT® codes 99241-99244 (for DCs)
 Local codes 2130A-2134A (for NDs)

The Referring Provider May Bill Codes:

CPT® codes 99211-99215
 CPT® codes 99218-99239
 CPT® codes 99301-99313
 CPT® codes 99331-99333
 CPT® codes 99347-99357
 CPT® codes 99211-99214 (for DCs)
 CPT® codes 90801 (for PhD Clinical Psychologists)
 Local codes 2133A-2134A (for NDs)

END STAGE RENAL DISEASE (ESRD)

The department follows CMS’s policy regarding the use of E/M services along with dialysis services. E/M services (CPT® codes 99231-99233 and 99261-99263) are not payable on the same date as hospital *inpatient* dialysis (CPT® codes 90935, 90937, 90945 and 90947). These E/M services are *bundled* in the dialysis service.

Separate billing and payment for an initial hospital visit (CPT® codes 99221-99223), an initial inpatient consultation (CPT® codes 99251-99255), and a hospital discharge service (CPT®

code 99238 or 99239), will be allowed when billed on the same date as an inpatient dialysis service.

APHERESIS

The department follows CMS's policy regarding apheresis services. Separate payment for established patient office or other outpatient visits (CPT® codes 99211-99215), subsequent hospital care (CPT® codes 99231-99233), and follow-up inpatient consultations (CPT® codes 99261-99263), will not be allowed on the same date that therapeutic apheresis (CPT® code 36520) is provided.

Physicians furnishing therapeutic apheresis services may bill for the appropriate E/M visit or consultation code indicating the level of services provided rather than billing for the therapeutic apheresis services. This will permit physicians to be paid for the level of service furnished.

The time spent in apheresis management may not be counted in determining the duration of time spent in critical care services (CPT® codes 99291 and 99292). The code for therapeutic apheresis includes payment for all medical management services provided to the patient on the same date of service. Payment will be made for only one unit of CPT® code 36520 provided by the same physician, on the same date, for the same patient.

SURGERY SERVICES

GLOBAL SURGERY POLICY

Many surgeries have a follow-up period during which charges for normal postoperative care are bundled into the global surgery fee. The global surgery follow-up day period for each surgery is listed in the "Fol-Up" column in the Professional Services Fee Schedule.

Services and Supplies Included in the Global Surgery Policy

The following services and supplies are included in the global surgery follow-up day period and are considered bundled into the surgical fee:

- The operation itself.
- Preoperative visits, in or out of the hospital, beginning on the day before the surgery.
- Services by the primary surgeon, in or out of the hospital, during the postoperative period.
- Dressing changes; local incisional care and removal of operative packs; removal of cutaneous sutures, staples, lines, wires, tubes, drains and splints; insertion, irrigation and removal of urinary catheters, cast room charges, routine peripheral IV lines, nasogastric and rectal tubes; and change and removal of tracheostomy tubes. *Casting materials are not part of the global surgery policy and are paid separately.*
- Additional medical or surgical services required because of complications that do not require additional operating room procedures.

How to Apply the Follow-Up Day Period

The follow-up day period applies to **any provider** who participated in the surgical procedure. These providers include:

- Surgeon or physician who performs any component of the surgery (e.g., the pre, intra, and/or postoperative care of the patient; identified by modifiers –56, –54, and –55)
- Assistant surgeon (identified by modifiers –80, –81, and –82)
- Two surgeons (identified by modifier –62)
- Team surgeons (identified by modifier –66)
- Anesthesiologists and CRNAs

The follow-up day period always applies to the following CPT® codes, *unless* modifier -24, -25, -57, or -79 is appropriately used:

<u>E/M Codes</u>		<u>Ophthalmological Codes</u>
99211-99215	99301-99303	92012-92014
99218-99220	99311-99316	
99231-99239	99331-99333	
99261-99263	99347-99350	
99291-99292		

Professional inpatient services (CPT® codes 99211-99223) are only payable during the follow-up day period if they are performed on an emergency basis (i.e., they are not payable for scheduled hospital admissions).

Codes that are considered *bundled* are **not payable** during the global surgery follow-up period.

PRE, INTRA, OR POSTOPERATIVE SERVICES

The department or Self-Insurer will allow separate payment when the preoperative, intraoperative or postoperative components of the surgery are performed by different physicians or providers. The appropriate modifiers (-54, -55 or -56) must be used. The percent of the maximum allowable fee for each component is listed in the Professional Services Fee Schedule.

If different providers perform different components of the surgery (pre, intra, or postoperative care), the global surgery policy applies to each provider. For example, if the surgeon performing the operation transfers the patient to another physician for the postoperative care, the same global surgery policy, including the restrictions in the follow-up day period, applies to both physicians.

STARRED SURGICAL PROCEDURES

In the *Surgery* section of the CPT® book, many minor surgeries are designated by a star (*) following the procedure code.

For these starred procedures, the department follows CMS's policy to not allow payment for an E/M office visit during the global period unless:

- A documented, unrelated service is furnished during the postoperative period and modifier –24 is used, or
- The practitioner who performs the procedure is seeing the patient for the first time, in which case an initial new patient E/M service can be billed. This is considered a significant, separately identifiable service and modifier –25 must be used. Appropriate documentation must be made in the chart describing the E/M service.

CPT® code 99025, initial surgical evaluation, is considered bundled and is not separately payable. Modifier –57, decision for surgery, is not payable with minor surgeries (e.g., starred procedures). When the decision to perform the minor procedure is made immediately before the service, it is considered a routine preoperative service and a visit or consultation is not paid in addition to the procedure.

Modifier –57 is payable with an E/M service only when the visit results in the initial decision to perform *major* surgery.

STANDARD MULTIPLE SURGERY POLICY

When multiple surgeries are performed on the same patient at the same operative session or on the same day, the total payment equals the sum of:

100% of the global fee for the procedure or procedure group with the highest value according to the fee schedule

50% of the global fee for the ***second through fifth procedures*** with the next highest values, according to the fee schedule.

Procedures in excess of five require submission of documentation and individual review to determine payment amount.

When different types of surgical procedures are performed on the same patient on the same day for accepted conditions, the payment policies should always be applied in the following sequence:

- Multiple endoscopy policy for endoscopy procedures
- Other modifier policies, and finally
- Standard multiple surgery policy.

BILATERAL PROCEDURES POLICY

Bilateral surgeries should be billed as two line items. Modifier –50 should be applied to the second line item. When billing for bilateral surgeries, the two line items should be treated as one procedure. The second line item is paid at the lesser of the billed charge or 50% of the fee schedule maximum.

Check the Professional Services Fee Schedule to see if modifier –50 is valid with the procedure performed.

Example: Bilateral Procedure

Line Item	CPT® Code/Modifier	Maximum Payment (non-facility setting)	Bilateral Policy Applied	Allowed Amount
1	64721	\$ 574.30		\$ 574.30 ⁽¹⁾
2	64721-50	\$ 574.30	\$ 287.15 ⁽²⁾	\$ 287.15
Total Allowed Amount in Non-Facility Setting:				\$ 861.45 ⁽³⁾

- (1) Allowed amount for the highest valued procedure is the fee schedule maximum.
- (2) When applying the bilateral payment policy, the two line items will be treated as one procedure. The second line item billed with a modifier –50 is always paid at 50% of the value paid for the first line item.
- (3) Represents total allowable amount.

ENDOSCOPY PROCEDURES POLICY

For the purpose of these payment policies, the term, “endoscopy” will be used to refer to any invasive procedure performed with the use of a fiberoptic scope or other similar instrument.

Payment is not allowed for an E/M office visit (CPT® codes 99201-99215) on the same day as a diagnostic or surgical endoscopic procedure unless a documented, separately identifiable service is provided and modifier –25 is used.

Endoscopy procedures are grouped into clinically related “families.” Each endoscopy family contains a “base” procedure that is generally defined as the *diagnostic* procedure (as opposed to a *surgical* procedure).

The base procedure for each code belonging to an endoscopy family is listed in the “Endo Base” column in the Professional Services Fee Schedule. Base procedures and their family members are also identified in **Appendix A**, “Endoscopy Families.”

When multiple endoscopy procedures belonging to the same family (related to the same base procedure) are billed, maximum payment is calculated as follows:

1. Maximum payment for the endoscopy procedure with the highest dollar value listed in the fee schedule is 100% of the fee schedule value.
2. For subsequent endoscopy procedures, maximum payment is calculated by subtracting the fee schedule maximum for the base procedure from the fee schedule maximum for the endoscopy family member.

When the fee schedule maximum for a family member is less than that of the base code, no add-on will be provided nor will there be a reduction in payment. Consider the portion of payment for this family member equal to \$0.00 (see example #2).

3. No additional payment is made for a base procedure when a family member is billed.

Once payment for all endoscopy procedures is calculated, each family is defined as an “endoscopic group.” If more than one endoscopic group or other non-endoscopy procedure is billed for the same patient on the same day by the same provider, the standard multiple surgery policy will be applied to all procedures (see example #3).

Multiple endoscopies that are *not* related (e.g., each is a separate and unrelated procedure) are priced as follows:

1. 100% for each unrelated procedure, then
2. Apply the standard multiple surgery policy

Example #1: Two Endoscopy Procedures in the Same Family

Line Item	CPT® Code	Maximum Payment (non-facility setting)	Endoscopy Policy Applied	Allowed Amount
<i>Base</i> ⁽¹⁾	29870	\$ 600.06	\$ 000.00 ⁽²⁾	
1	29874	\$ 803.11	\$ 203.05 ⁽⁴⁾	\$ 203.05 ⁽⁵⁾
2	29880	\$ 928.88	\$ 928.88 ⁽³⁾	\$ 928.88 ⁽⁵⁾
Total Allowed Amount in Non-Facility Setting:				\$ 1,131.93 ⁽⁶⁾

(1) Base code listed is for reference only (not included on bill form).

(2) Payment is not allowed for a base code when a family member is billed.

- (3) Allowed amount for the highest valued procedure in the family is the fee schedule maximum.
- (4) Allowed amount for other procedures in the same endoscopy family is calculated by subtracting the fee schedule maximum for the base code from the fee schedule maximum for the non-base code.
- (5) Amount allowed under the endoscopy policy.
- (6) Represents total allowed amount after applying all applicable global surgery policies. Standard multiple surgery policy does not apply because only one family of endoscopic procedures was billed.

Example #2: Endoscopy Family Member With Fee Less than Base Procedure

Line Item	CPT® Code	Maximum Payment (non-facility setting)	Endoscopy Policy Applied	Allowed Amount
Base ⁽¹⁾	43235	\$ 450.55		
1	43241	\$ 200.02	\$ 000.00 ⁽³⁾	
2	43251	\$ 277.81	\$ 277.81 ⁽²⁾	\$ 277.81 ⁽⁴⁾
Total Allowed Amount in Non-Facility Setting:				\$ 277.81 ⁽⁵⁾

- (1) Base code listed is for reference only (not included on bill form).
- (2) Allowed amount for the highest valued procedure in the family is the fee schedule maximum.
- (3) When the fee schedule maximum for a code in an endoscopy family is less than the fee schedule maximum for the base code, no add-on will be provided nor will there be a reduction in payment. Consider the portion of payment for the lesser family member equal to \$0.00.
- (4) Allowed amount under the endoscopy policy.
- (5) Represents total allowed amount. Standard multiple surgery policy does not apply because only one endoscopic group was billed.

Example #3: Two Surgical Procedures Billed with an Endoscopic Group

Line Item	CPT® Code	Maximum Payment (non-facility setting)	Endoscopy Policy Applied	Standard Multiple Surgery Policy Applied
1	11402	\$ 218.71		\$ 109.36 ⁽⁵⁾
2	11406	\$ 317.71		\$ 158.86 ⁽⁵⁾
Base ⁽¹⁾	29830	\$ 632.89		
3	29835	\$ 713.71	\$ 80.82 ⁽³⁾	\$ 80.82 ⁽⁴⁾
4	29838	\$ 822.30	\$ 822.30 ⁽²⁾	\$ 822.30 ⁽⁴⁾
Total Allowed Amount in Non-Facility Setting:				\$ 1,171.34 ⁽⁶⁾

- (1) Base code listed is for reference only (not included on bill form).
- (2) Allowed amount for the highest valued arthroscopy procedure is the fee schedule maximum.
- (3) Allowed amount for the second highest valued arthroscopy procedure in the family is calculated by subtracting the fee schedule maximum for the base code from the fee schedule maximum for the non-base code.
- (4) Standard multiple surgery policy is applied, with the highest valued surgical procedure or procedure group being paid at 100%
- (5) Standard multiple surgery policy is applied, with the second and third highest valued surgical procedures being paid at 50% each.
- (6) Represents total allowed amount after applying all applicable global surgery policies.

MICROSURGERY

CPT® code 69990 is an “add-on” surgical code that indicates an operative microscope has been used. As an “add-on” code, it is not subject to multiple surgery rules.

CPT® code 69990 is not payable when:

- Using magnifying loupes or other corrected vision devices, or
- Use of the operative microscope is an inclusive component of the procedure, (i.e. the procedure description specifies that microsurgical techniques are used), or
- Another code describes the same procedure being done with an operative microscope. For example, CPT® code 69990 may not be billed with CPT® code 31535, operative laryngoscopy, because CPT® code 31536 describes the same procedure using an operating microscope. The table below contains a complete list of all such codes.

CPT® Codes Not Allowed with CPT® 69990

15756-15758	26551-26554	31540-31541	61548
15842	26556	31560-31561	63075-63078
19364	31520	31570-31571	64727
19368	31525-31526	43116	64820-64823
20955-20962	31530-31531	43496	65091-68850
20969-20973	31535-31536	49906	

REGISTERED NURSES AS SURGICAL ASSISTANTS

Licensed registered nurses may perform surgical assistant services if the registered nurse submits the following documents to the department or Self-Insurer along with a completed provider application.

- A photocopy of her or his valid and current registered nurse license, and
- A letter granting on-site hospital privileges for **each** institution where surgical assistant services will be performed.

Payment for these services is **ninety** percent (90%) of the allowed fee that would otherwise be paid to an assistant surgeon.

MISCELLANEOUS

Angioscopy

Payment for angioscopies (CPT® code 35400) is limited to only one unit based on its complete code description encompassing multiple vessels. The work involved with varying numbers of vessels was incorporated in the RVUs.

Closure of Enterostomy

Closure of enterostomy (CPT® codes 44625 and 44626) is not payable with mobilization (take down) of splenic flexure performed in conjunction with partial colectomy (CPT® code 44139). If both are billed, only CPT® code 44139 will be paid.

ANESTHESIA SERVICES

Anesthesia payment policies are established by the department with input from the Interagency Reimbursement Steering Committee (RSC) and the Anesthesia Technical Advisory Group (ATAG). The RSC is a standing committee with representatives from the Department of Labor and Industries, the Department of Social and Health Services, and the Health Care Authority. The ATAG includes anesthesiologists, certified registered nurse anesthetists (CRNAs), and billing professionals.

NON-COVERED AND BUNDLED SERVICES

The department does not cover anesthesia assistant services.

Anesthesia is not payable for procedures that are not covered by the department. Refer to Appendix D for a list of non-covered procedures.

Patient acuity does not affect payment levels. Payment for qualifying circumstances (CPT® codes 99100, 99116, 99135 and 99140) is considered bundled and is not payable separately. CPT® physical status modifiers (-P1 to -P6) and CPT® five-digit modifiers are not accepted.

Anesthesia by surgeon (modifier -47) is not payable. Payment for local, regional or digital block or general anesthesia administered by the surgeon is considered included in the RBRVS payment for the procedure. These services will not be paid separately. Bills for anesthesia services with modifier -47 will be denied.

ANESTHESIA CODES AND MODIFIERS

Anesthesia Codes Accepted by the Department

Anesthesia services should be billed using CPT® anesthesia codes 00100 through 01999 and the appropriate anesthesia modifier.

In addition to the CPT® anesthesia codes, the department will also accept two anesthesia codes published in the American Society of Anesthesiologists' Relative Value Guide (ASARVG):

ASA Code*	ASA Description
02100	Anesthesia for diagnostic or therapeutic nerve blocks and injections (when block or injection is performed by a different provider)
02101	Anesthesia for diagnostic or therapeutic nerve blocks and injections-patient in the prone position (when block or injection is performed by a different provider)

* Copyright 2002 American Society of Anesthesiologists. All Rights Reserved.

The department will not accept any other ASA codes. All other anesthesia codes should be billed according to the descriptions published in the CPT® coding book.

In 2001, the department paid for anesthesia nerve blocks using ASA codes 01961 and 01962. These code numbers have since been deleted from ASARVG and incorporated into the CPT® coding system. CPT® codes 01961 and 01962 represent anesthesia for obstetric services. When the CPT® and ASARVG code descriptions differ, providers should bill according to the CPT® descriptions.

Anesthesia Modifiers

Anesthesiologists and CRNAs should use the following modifiers when billing for anesthesia services paid with base and time units. Services billed with CPT® five-digit modifiers and physical status modifiers (-P1 through -P6) *will not be paid*. Refer to the CPT® and HCPCS books for complete modifier descriptions and instructions.

CPT® Modifiers

-23 Unusual anesthesia

Applies only to services paid with anesthesia base and time units. Services billed with this modifier may be individually reviewed prior to payment. Supporting documentation is required for this review.

-99 Multiple modifiers

This modifier should only be used when two or more modifiers affect payment. Payment is based on the policy associated with each individual modifier that describes the services performed. For billing purposes, only enter modifier -99 in the modifier column. List the individual descriptive modifiers elsewhere on the billing document.

HCPCS Modifiers

Physician Modifiers:

-AA Anesthesia services performed personally by anesthesiologist

Payment will be made to the physician using base and time units. Time is billed in total minutes.

-QK Medical direction of two, three, or four concurrent anesthesia procedures involving qualified individuals

Only physicians may use this modifier. Payment will be based on the policies for team services.

-QY Medical direction of one CRNA for a single anesthesia procedure

Only physicians may use this modifier. Payment will be based on the policies for team services.

CRNA Modifiers:

-QX CRNA service: with medical direction by a physician

Only CRNAs may use this modifier. Payment will be based on the policies for team services.

-QZ CRNA service: without medical direction by a physician

Only CRNAs may use this modifier. Payment will be made at 90% of the allowed fee that would otherwise be paid to a physician.

MEDICAL DIRECTION OF ANESTHESIA (TEAM CARE)

The department follows CMS's policy for medical direction of anesthesia, which is the same as "Team Care." Physicians directing qualified individuals performing anesthesia must:

- Perform a pre-anesthetic examination and evaluation,
- Prescribe the anesthesia plan
- Personally participate in the most demanding aspects of the anesthesia plan, including, if applicable, induction and emergence,

- Ensure that any procedures in the anesthesia plan that he or she does not perform are performed by a qualified individual as defined in program operating instructions,
- Monitor the course of anesthesia administration at frequent intervals,
- Remain physically present and available for immediate diagnosis and treatment of emergencies, and
- Provide indicated post-anesthesia care.

In addition, the physician may direct no more than four anesthesia services concurrently and may not perform any other services while directing the single or concurrent services. The physician may attend to medical emergencies and perform other limited services as allowed by Medicare instructions and still be deemed to have medically directed anesthesia procedures.

The physician must document in the patient's medical record that the medical direction requirements were met. The physician does not need to submit this documentation with the bill, but must make the documentation available to the insurer upon request.

When billing for team care situations, anesthesiologists and CRNAs should submit separate bills using their own provider account numbers. Anesthesiologists billing for team care should use the appropriate modifier for medical direction or supervision (-QK or -QY). CRNAs billing for team care should use modifier -QX. Once the total maximum anesthesia payment is calculated, 50% of that amount may be paid to the physician, and 45% to the CRNA (90% of the other 50% share).

CERTIFIED REGISTERED NURSE ANESTHETISTS

Licensed nursing rules and billing instructions are contained in WACs 296-23-240 and -245. CRNA services will be paid at a maximum of ninety percent of the allowed fee that would otherwise be paid to a physician. The only modifiers that are valid for CRNAs are -QX and -QZ.

Billing Tip

CRNA services must be billed on a separate HCFA-1500 form from those of an anesthesiologist. This applies to CRNAs providing solo services as well as team care. More information and examples of how to submit bills can be found in the department's HCFA-1500 billing instructions (publication #F248-094-000).

ANESTHESIA SERVICES PAID WITH BASE AND TIME UNITS

Most anesthesia services are paid with base and time units. The department's anesthesia base units are adapted from CMS's anesthesia base units with input from the Anesthesia Technical Advisory Group (ATAG). The anesthesia codes and base units are listed in the Professional Services Fee Schedule.

Anesthesia time begins when the anesthesiologist or CRNA starts to physically prepare the patient for the induction of anesthesia in the operating room area (or its equivalent). Anesthesia time ends when the anesthesiologist or CRNA is no longer in constant attendance (i.e. when the patient can be safely placed under postoperative supervision). Anesthesia should be billed in *one-minute* time units.

Billing Tip

List only the time *in minutes* on your bill. Do not include the base units. The appropriate base units will be automatically added by the department's payment system when the bill is processed.

Anesthesia Payment Calculation

The maximum payment for anesthesia services paid with base and time units is calculated using the base value for the procedure, the time the anesthesia service is administered, and the department's anesthesia conversion factor. The anesthesia conversion factor is published in WAC 296-20-135. For services provided on or after July 1, 2002, the anesthesia conversion factor is \$41.70 per 15 minutes (\$2.78 per minute). Providers are paid the lesser of their charged amount or the department's maximum allowed amount.

To determine the maximum anesthesia payment for a procedure:

1. Multiply the base units listed in the fee schedule by fifteen.
2. Add the value from step 1 to the total number of whole minutes.
3. Multiply the result from step 2 by \$2.78.

Example:

CPT® code 01382 (anesthesia for knee arthroscopy) has 3 anesthesia base units. If the anesthesia service takes 60 minutes, the maximum payment would be calculated as follows:

1. Base units x 15 = 3 x 15 = 45 base units
2. 45 base units + 60 time units (minutes) = 105 base and time units.
3. Maximum Payment = 105 x \$2.78 = \$ 291.90

ANESTHESIA ADD-ON CODES

Anesthesia add-on codes should be billed with a primary anesthesia code. There are three anesthesia add-on codes in the 2002 CPT® book: 01953, 01968 and 01969. CPT® add-on code 01953 should be billed with primary code 01952. CPT® add-on codes 01968 and 01969 should be billed with primary code 01967.

Anesthesia add-on codes 01968 and 01969 should be billed in the same manner as other anesthesia codes paid with base and time units. Providers should report the total time for the add-on procedure (in minutes) in the "Units" column (Field 24G) of the HCFA-1500 form.

Anesthesia for Burn Excisions or Debridement

The anesthesia add-on code for burn excision or debridement, CPT® code 01953, should be billed according to the instructions in the following table.

Total Body Surface Area	Primary Code	Units of Add-On Code 01953
Less than 1 percent	01951	None
1 - 9 percent	01952	None
Up to 18 percent	01952	1
Up to 27 percent	01952	2
Up to 36 percent	01952	3
Up to 45 percent	01952	4
Up to 54 percent	01952	5
Up to 63 percent	01952	6
Up to 72 percent	01952	7
Up to 81 percent	01952	8
Up to 90 percent	01952	9
Up to 99 percent	01952	10

ANESTHESIA SERVICES PAID WITH RBRVS

Some services commonly performed by anesthesiologists and CRNAs are *not* paid with anesthesia base and time units. These services include code 01996, most pain management services and other selected services. These services are paid with the Washington RBRVS fee schedule and are listed in Appendix F.

No anesthesia modifiers should be used when billing for services payable under RBRVS; if an anesthesia modifier is used, the payment for that code will be denied. Payment rates for codes payable under RBRVS are located in the Professional Services Fee Schedule.

Billing Tip

When services are billed under RBRVS, the total number of times the procedure is performed, not the total minutes, should be entered in the “Units” column (Field 24G) on the HCFA-1500 bill form.

E/M Services Payable with Pain Management Procedures

An evaluation and management service is payable on the same day as a pain management procedure *only when*:

- It is the patient’s *initial visit* to the practitioner who is performing the procedure or
- The E/M service is clearly separate and identifiable from the pain management procedure performed on the same day, and meets the criteria for an E/M service.

The office notes or report must document the objective and subjective findings used to determine the need for the procedure and any future treatment plan or course of action. The use of E/M codes on days after the procedure is performed is subject to the global surgery policy (refer to “Surgery Services” section).

Injection Code Treatment Limits

Details regarding treatment guidelines and limits for the following kinds of injections can also be found in WAC 296-20-03001. Refer to “Medication Administration” in the “Other Medicine Services” section for information on billing for medications.

Injection	Treatment Limit
Epidural and caudal injections of substances other than anesthetic or contrast solution	<i>Maximum of six</i> injections per acute episode are allowed.
Facet injections	<i>Maximum of four</i> injection procedures per patient are allowed.
Intramuscular and trigger point injections of steroids and other non-scheduled medications and trigger point <i>dry needling</i> *	<i>Maximum of six</i> injections per patient are allowed.

* Dry needling is considered a variant of trigger point injections with medications. It is a technique where needles are inserted (no medications are injected) directly into trigger point locations as opposed to the distant points or meridians used in acupuncture. The department does not cover acupuncture services (WAC 296-20-03002). Dry needling of trigger points should be billed using trigger point injection codes 20552 or 20553. Dry needling follows the same rules as trigger point injections in WAC 296-20-03001(14).

RADIOLOGY

X-RAY SERVICES

Repeat X-Rays

No payment will be made for excessive or unnecessary x-rays. Repeat or serial x-rays may be performed only upon adequate clinical justification to confirm changes in the accepted condition(s) when need is supported by documented changes in objective findings or subjective complaints.

Number of Views

There is no code that is specific for “additional views” for radiology services. Therefore, the number of views of x-rays that may be paid is determined by the CPT® description for the particular service.

For example, the following CPT® codes for radiologic exams of the spine are payable as outlined below:

CPT® Code	Payable
72020	Once for a single view
72040	Once for two to three views
72050	Once for four or more views
72052	Once, regardless of the number of views it takes to complete the series

-RT and -LT Modifiers

HCPSC modifiers -RT (right side) and -LT (left side) do *not affect payment*, but may be used with CPT® radiology codes 70010-79999 to identify duplicate procedures performed on opposite sides of the body.

Portable X-Rays

Radiology services furnished in the patient's place of residence are limited to the following tests, which must be performed under the general supervision of a physician:

- Skeletal films involving extremities, pelvis, vertebral column or skull
- Chest or abdominal films that do not involve the use of contrast media
- Diagnostic mammograms

HCPSC codes for transportation of portable x-ray equipment R0070 (one patient) or R0075 (multiple patients) may be paid in addition to the appropriate radiology code(s).

Custody

X-rays must be retained for ten years. See WAC 296-23-140(1)

CONSULTATION SERVICES

CPT® code 76140, x-ray consultation, is not covered. For radiology codes where a consultation service is performed, providers should bill the specific x-ray code with the modifier

-26. For example, if a consultation is made on a chest x-ray, single view, frontal, the provider should bill 71010-26.

Separate payment will not be made for review of films taken previously or elsewhere if a face-to-face service is performed on the same date as the x-ray review. Review of records and diagnostic studies is bundled into the E/M, chiropractic care visit or other procedure(s) performed.

Payment for a radiological consultation will be made at the established professional component (modifier -26) rate for each specific radiology service. A written report of the radiology consultation is required.

CONTRAST MATERIAL

Separate payment will not be made for contrast material unless a patient requires low osmolar contrast media (LOCM). LOCM may be used in intrathecal, intravenous, and intra-arterial injections for patients with one or more of the following conditions:

- A history of previous adverse reaction to contrast material, with the exception of a sensation of heat, flushing, or a single episode of nausea or vomiting,
- A history of asthma or allergy,
- Significant cardiac dysfunction including recent imminent cardiac decompensation, arrhythmias, unstable angina pectoris, recent myocardial infarction, and pulmonary hypertension,
- Generalized severe debilitation, or
- Sickle cell disease.

To bill for LOCM, use the appropriate HCPCS code, A4644, A4645 or A4646. The brand name of the LOCM and the dosage must be documented in the patient's chart. HCPCS codes and payment levels are listed in the Professional Services Fee Schedule.

HCPCS codes A4644, A4645 and A4646 are paid at a flat rate based on the Average Wholesale Price (AWP) per ml. Bill one unit per ml.

NUCLEAR MEDICINE

The standard multiple surgery policies apply to the following radiology codes for nuclear medicine services.

CPT® Code	Abbreviated Description
78306	Bone imaging, whole body
78320	Bone imaging (3D)
78802	Tumor imaging, whole body
78803	Tumor imaging (3D)
78806	Abscess imaging, whole body
78807	Nuclear localization/abscess

The multiple procedures reduction will be applied when these codes are billed:

- With other codes that are subject to the standard multiple surgery policy, and
- For the same patient, on the same day, by the same physician or by more than one physician of the same specialty in the same group practice.

Refer to the "Surgery Services" section for more information about the standard multiple surgery payment policies.

PHYSICAL MEDICINE

GENERAL INFORMATION

Units of Service

Supervised modalities and therapeutic procedures that do not list a specific time increment in their description are limited to one unit per day.

Non-Covered and Bundled Codes

The following physical medicine codes are not covered:

Code	Abbreviated Description
CPT® 97005	Athletic train eval
CPT® 97006	Athletic train reeval
CPT® 97033	Iontophoresis, each 15 min
CPT® 97545*	Work hardening/conditioning
CPT® 97546*	Each additional hour
CPT® 97781	Acupuncture
HCPCS Q0086	PT evaluation/treatment, per visit

* Work hardening services are paid with local codes only to approved providers.

The following are examples of bundled items or services:

- CPT® code 97010, application of hot or cold packs
- Ice packs, ice caps and collars
- Electrodes and gel
- Activity supplies used in work hardening, such as leather and wood
- Exercise balls
- Thera-taping
- Wound dressing materials used during an office visit and/or physical therapy treatment

Refer to the appendices for complete lists of non-covered and bundled codes.

PHYSICAL CAPACITIES EVALUATION

The following local code is payable only to physicians who are board qualified or certified in physical medicine and rehabilitation, and physical and occupational therapists.

1045M Performance-based physical capacities evaluation with report and
summary of capacities..... \$ 613.53

PHYSICAL MEDICINE AND REHABILITATION (PHYSIATRY)

Medical or Osteopathic physicians who are board qualified or board certified in physical medicine and rehabilitation may be paid for CPT® codes 97001 through 97799. CPT® code 64550, application neurostimulator (TENS), is payable only once per claim.

NON-BOARD CERTIFIED/QUALIFIED PHYSICAL MEDICINE PROVIDERS

Special payment policies apply for attending doctors who are not board qualified or certified in physical medicine and rehabilitation:

- Attending doctors who are not board qualified or certified in physical medicine and rehabilitation will not be paid for CPT® codes 97001 - 97799. They may *perform* physical medicine modalities and procedures described in CPT® codes 97001 - 97750 if their scope of practice and training permit it, but must *bill* local code 1044M for these services.
- Local code 1044M is limited to six visits per claim, except when the attending doctor practices in a remote location where no licensed, registered physical therapist is available.
- After six visits, the patient must be referred to a licensed, registered physical therapist or physiatrist for such treatment. Refer to WAC 296-20-290 for more information.

1044M Physical medicine modality(ies) and/or procedure(s) by attending doctor who is not board qualified or certified in physical medicine and rehabilitation. Limited to first six visits except when doctor practices in a remote area..... \$37.88

PHYSICAL AND OCCUPATIONAL THERAPY

Physical and occupational therapists should use the appropriate physical medicine CPT® codes 97001-97799, with the exceptions noted later in this section. In addition, physical and occupational therapists should bill the appropriate covered HCPCS codes for miscellaneous materials and supplies. For information on surgical dressings dispensed for home use, refer to WAC 296-23-220 or to the “Supplies, Materials and Bundled Services” section.

If more than one patient is treated at the same time in a group setting, use CPT® code 97150, group therapeutic procedures.

Daily Maximum for Services

The daily maximum allowable fee for physical and occupational therapy services is \$102.65 (see WACs 296-23-220 and -230). The daily maximum applies to CPT® codes 64550 and 97001-97799 when performed for the same patient for the same date of service. If both physical and occupational therapy services are provided on the same day, the daily maximum applies *once* for each provider type.

The daily maximum allowable fee does not apply to performance based physical capacities examinations (PCEs), work hardening services or job/pre-job accommodation consultation services billed with local codes.

Physical and Occupational Therapy Evaluations

Physical and occupational therapy evaluations should be billed with CPT® codes 97001 through 97004 according to the table below.

Provider	Initial Evaluation	Re-evaluation
Physician or Physical Therapist	CPT® 97001	CPT® 97002
Physician or Occupational Therapist	CPT® 97003	CPT® 97004

CPT® codes 97001 and 97003 are used to report the initial evaluation before the plan of care is established by the physician or therapist. The purpose of the initial evaluation is to evaluate the patient’s condition and establish a plan of care.

CPT® codes 97002 and 97004 are used to report the re-evaluation of a patient who has been under a plan of care established by the physician or therapist. This evaluation is for the purpose of re-evaluating the patient's condition and revising the plan of care under which the patient is being treated.

Wound Debridement

Therapists may not bill the surgical CPT® codes for wound debridement. Therapists must bill CPT® 97601 or 97602 when performing wound debridement that exceeds what is incidental to a therapy (e.g. whirlpool).

Wound dressings and supplies used in the office are bundled and are not separately payable. Wound dressings and supplies sent home with the patient for self-care can be billed with HCPCS codes appended with local modifier -1S. See the "Supplies, Materials and Bundled Services" section for more information.

OSTEOPATHIC MANIPULATIVE TREATMENT

Only osteopathic physicians may bill osteopathic manipulative treatment (OMT) using CPT® codes 98925 through 98929. CPT® code 97140, manual therapy, is not covered for osteopathic physicians.

For OMT services (CPT® codes 98925-98929) body regions are defined as: head region, cervical region, thoracic region, lumbar region, sacral region, pelvic region, lower extremities, upper extremities, rib cage region, abdomen and viscera region.

These codes ascend in value to accommodate the additional body regions involved. Therefore, only one code is payable per treatment. For example, if three body regions were manipulated, one unit of CPT® code 98926 would be payable.

OMT includes pre- and post-service work (e.g. cursory history and palpatory examination). E/M office visit services are not to be routinely billed in conjunction with OMT. E/M office visit service (CPT® codes 99201-99215) may be billed in conjunction with OMT *only when all of the following conditions are met*:

- When the E/M service constitutes a significant separately identifiable service that exceeds the usual pre- and post-service work included with OMT.
- There is documentation in the patient's record supporting the level of E/M billed.
- The E/M service is billed using the -25 modifier. E/M codes billed on the same day as OMT without the -25 modifier will not be paid.

The E/M service may be caused or prompted by the same diagnosis as the OMT service. A separate diagnosis is not required for payment of E/M in addition to OMT services on the same day.

The department or Self-Insurer may reduce payment or process recoupments when E/M services are not documented sufficiently to support the level of service billed. The CPT® book describes the key components that must be present for each level of service.

CHIROPRACTIC SERVICES

Chiropractic physicians should use the codes listed in this section to bill for services. In addition chiropractic physicians should use the appropriate CPT® codes for radiology, office visit and case management services and HCPCS codes for miscellaneous materials and supplies.

Evaluation and Management

Chiropractic physicians may bill the first four levels of CPT® new and established patient office visit codes (99201-99204 and 99211-99214). The department uses the CPT® definitions for *new* and *established* patients. If a provider has treated a patient for any reason within the last three years, the person is considered an *established patient*. Refer to a CPT® book for complete code descriptions, definitions and guidelines.

New Patient E/M Payment Policies

The following payment policies apply when chiropractic physicians use E/M new patient office visit codes for the initial visit for a new work injury:

- A new patient E/M office visit code is payable only once for the initial visit.
- Modifier -22 is not payable with E/M codes for chiropractic services.
- New patient E/M office visit codes are payable with L&I chiropractic care codes **only when all of the following conditions are met:**
 1. The E/M service constitutes a significant separately identifiable service that exceeds the usual pre- and post-service work included in the chiropractic care visit, and
 2. Modifier 25 is added to the new patient E/M code, and
 3. Supporting documentation describing the service(s) provided is in the patient's record.

Established Patient E/M Payment Policies

The following payment policies apply when chiropractic physicians use E/M established patient office visit codes for the initial visit for a new work injury:

- An established patient E/M office visit code is not payable on the same day as a new patient E/M office visit code.
- Office visits in excess of 20 visits or 60 days require prior authorization.
- Modifier -22 is not payable with E/M codes for chiropractic services.
- Established patient E/M codes are not payable in addition to L&I chiropractic care codes for follow-up visits.
- Established patient E/M codes are payable in addition to L&I chiropractic care codes **only when all of the following conditions are met:**
 1. The E/M service is for the *initial visit* for a *new claim*, and
 2. The E/M service constitutes a significant separately identifiable service that exceeds the usual pre- and post-service work included in the chiropractic care visit, and
 3. Modifier -25 is added to the new patient E/M code, and
 4. Supporting documentation describing the service(s) provided is in the patient's record.

When a patient requires re-evaluation for an existing claim, either an established patient E/M code (99211-99214) or a chiropractic care local code (2050A-2052A) is payable. Payment will not be made for both. Modifier -25 is not applicable in this situation.

Chiropractic Care Visits

Billing Codes

The department has developed the following clinical complexity based local codes for chiropractic care visits. CPT® codes for chiropractic manipulative treatment (98940-98943) are not covered.

2050A	Level 1: Chiropractic Care Visit (straightforward complexity).....	\$ 35.81
2051A	Level 2: Chiropractic Care Visit (low complexity)	\$ 45.87
2052A	Level 3: Chiropractic Care Visit (moderate complexity)	\$ 55.88

Chiropractic care visits are defined as office or other outpatient visits involving subjective and objective assessment of patient status. The table below outlines the treatment requirements, presenting problems and face-to-face patient time involved in the three levels of chiropractic care visits.

Clinical decision making complexity is the primary component in selecting the level of chiropractic care visit. The department defines clinical decision making complexity according to the definitions for medical decision making complexity in the *Evaluation and Management Services Guidelines* section of the CPT® book.

	2050A: Level 1	2051A: Level 2	2052A: Level 3
Primary: Clinical decision making is typically:	Straightforward	Low complexity	Moderate complexity
Typical number of body regions manipulated	Up to 2	Up to 3 or 4	Up to 5 or more
Typical face-to-face time with patient and/or family	Up to 10-15 minutes	Up to 15-20 minutes	Up to 25-30 minutes

Body regions for chiropractic services are defined as:

- Cervical (includes atlanto-occipital joint);
- Thoracic (includes costovertebral and costotransverse joints);
- Lumbar;
- Sacral;
- Pelvic (includes sacro-iliac joint); and
- Extraspinal: Any and all extraspinal manipulations are considered to be one region. Extraspinal manipulations include head (including temporomandibular joint, excluding atlanto-occipital), lower extremities, upper extremities, rib cage (excluding costotransverse and costovertebral joints).

The following examples of chiropractic care visits are for illustrative purposes only. They are not intended to be clinically prescriptive.

EXAMPLES	
Level 1 Chiropractic Care Visit (straightforward complexity)	26-year-old male presents with mild low back pain of several days duration. Patient receives manipulation/adjustment of the lumbar region
Level 2 Chiropractic Care Visit (low complexity)	55-year-old male presents with complaints of neck pain, midback and lower back pain. Patient receives 5 minutes of myofascial release prior to being adjusted. The cervical, thoracic and lumbar regions are adjusted.
Level 3 Chiropractic Care Visit (moderate complexity)	38-year-old female presents with headache, right anterior rib pain, low back pain with pain at the sacrococcygeal junction, as well as pain in the sacroiliac regions and right sided foot drop. Patient receives 10 minutes of moist heat application, 10 minutes of myofascial work, and manipulation/adjustment to the cervical and atlanto-occipital, thoracic, anterior rib area, lumbar, sacroiliac and sacrococcygeal regions.

Chiropractic Care Visit Payment Policies

- Only **one** chiropractic care visit code is payable per day.
- Office visits in excess of 20 visits or 60 days require prior authorization.
- Modifier -22 will be individually reviewed when billed with chiropractic care visit local codes (2050A-2052A). A report is required detailing the nature of the unusual service and the reason it was required. Payment will vary based on findings of the review. No payment will be made when this modifier is used for non-covered or bundled services (for example: application of hot or cold packs).
- Chiropractic care visit codes are payable in addition to E/M office visit codes only when all of the following conditions are met:
 1. The E/M service is for the initial visit for a new claim, and
 2. The E/M service constitutes a significant separately identifiable service that exceeds the usual pre- and post-service work included in the chiropractic care visit, and
 3. Modifier -25 is added to the new patient E/M code, and
 4. Supporting documentation is included in the patient's record.

Complementary and Preparatory Services

Chiropractic physicians are not separately paid for patient education or complementary and preparatory services. The department defines complementary and preparatory services as interventions that are used to prepare a body region for or facilitate a response to a chiropractic manipulation/adjustment. The application of heat or cold is considered a complementary and preparatory service.

For Example: Routine patient counseling regarding lifestyle, diet, self-care and activities of daily living, thermal modalities or some soft tissue work, exercise instruction involving a provision of a sheet of home exercises and a description in the course of a routine office visit.

Physical Medicine Treatment

The CPT® physical medicine codes (97001-97799) are not payable to chiropractic physicians. Refer to “Non-Board Certified/Qualified Physical Medicine Providers” for more information.

Case Management

Refer to “Case Management Services” in the “Evaluation and Management” section for information on billing for case management services. These codes may be paid in addition to other services performed on the same day.

Consultations

Approved chiropractic consultants may bill the first four levels of CPT® office consultation codes (99241-99244). The department annually publishes a Provider Bulletin describing the department’s policy on consultation referrals. The bulletin also includes a list of approved chiropractic consultants. To obtain the most recent bulletin, call the department’s Provider Hotline at 1-800-848-0811.

Chiropractic Independent Medical Exams

Chiropractic physicians must be on the Approved Examiners List to perform independent medical exams (IMEs). To be considered for placement on the Approved Examiners List, a chiropractic physician must have all of the following:

- Two years experience as a chiropractic consultant on the department’s approved consultant list,
- Successfully completed the department’s annual disability rating course for Washington State,
- Attended the department’s annual Chiropractic Consultant Seminar during the previous 12 months,
- Submitted the written examination required for certification.

For more information, refer to the *Medical Examiners’ Handbook* (publication #F252-001-000).

Chiropractic physicians performing impairment ratings on their own patients or upon referral should refer to the *Medical Examiners’ Handbook* and “Impairment Rating by Attending Doctors/Consultants” later in this section.

Supplies

Refer to the “Supplies, Materials, and Bundled Services” section for information about billing for supplies.

Radiology Services

Chiropractic physicians should bill diagnostic x-ray services using CPT® radiology codes and the policies described in the “Radiology Services” section. If needed, x-rays immediately prior to and immediately following the initial chiropractic adjustment may be allowed without prior authorization. X-rays subsequent to the initial study require prior authorization.

Only chiropractic physicians who are on the department’s list of approved radiological consultants may bill for x-ray consultation services. To qualify, a chiropractic physician must

be a Diplomate of the American Chiropractic Board of Radiology and must be approved by the department.

MASSAGE THERAPY

Massage therapists will be paid for CPT® code 97124 for all forms of massage therapy, regardless of the technique used. The department will not pay massage therapists for additional codes.

Massage therapists should bill their usual and customary fee and designate the duration of the massage therapy treatment. Massage is a physical medicine service and is subject to the daily maximum allowable amount of \$102.65.

The application of hot or cold packs (CPT® code 97010), anti-friction devices, and lubricants (e.g. oils, lotions, emollients, etc.) are bundled into the massage therapy service and are not payable separately.

Refer to WAC 296-23-250 for additional information.

Massage therapy services should be billed in 15-minute time increments. Bill one unit of CPT® code 97124 for each 15 minutes of massage therapy.

ELECTRICAL NERVE STIMULATORS

Transcutaneous Electrical Nerve Stimulators (TENS)

Rental and Purchase of TENS

TENS units and supplies for State Fund injured workers are provided under contract. TENS units may be prescribed by licensed medical, osteopathic, naturopathic and podiatric physicians and dental surgeons. All providers who prescribe TENS units for State Fund injured workers must use the department's contracted vendor. Refer to Provider Bulletin 01-11 for more information about TENS rental and purchase for State Fund claims.

- TENS use requires prior authorization by the insurer. Call the Provider Hotline at 1-800-848-0811 for authorization.
- A trial evaluation period of up to 30 days is required. During this time, the provider and injured worker will assess whether the TENS treatment is working and if rental of the unit is medically necessary.
- If the TENS is beneficial for the injured worker, a four-month rental period may be approved.
- Following a four month rental period, the provider may submit a request for TENS purchase for consideration by the insurer.

TENS Billing Codes

The department's contracted vendor and providers treating Self-Insured workers should use the appropriate HCPCS codes to bill for TENS units and supplies.

Sales tax and delivery charges are not separately payable and should be included in the total charge for the TENS unit and supplies.

HCPCS Code	Description	Coverage Status
A4595	TENS Supplies	For State Fund claims: Payable only to the department's contracted vendor.
A4630	Replacement batteries	
E0730	TENS, four lead, larger area, multiple nerve stimulation	For Self-Insured and Crime Victims claims: Payable to DME suppliers.

TENS Application

The department allows the initial TENS application and training by a physical therapist or other qualified provider only once per claim. Use CPT® code 64550.

Electrical Stimulators Used in the Office Setting

Providers using stimulators in the office setting may bill professional services for application of stimulators with the CPT® physical medicine codes when such application is within the provider's scope of practice.

Devices and Supplies for Home Use or Surgical Implantation

The following devices or supplies are intended for home use or surgical implantation.

HCPCS Code	Description	Coverage Status
A4365	Adhesive remover	Bundled for physician office use. Payable only for home use.
A4455	Adhesive remover wipe	
A4556	Electrodes	
A4557	Lead wires	
A4558	Conductive paste or gel	
A5119	Skin barrier wipes	
A6250	Skin seal protect moisturizer	
E0745	Neuromuscular stimulator electric shock unit	Covered for home use for muscle denervation only. Prior authorization is required.
E0747	Osteogenic stimulator, electrical, non-invasive, other than spinal applications	Prior authorization is required.
E0749	Osteogenic stimulator, electrical (surgically implanted)	Authorization subject to utilization review.
E0760	Osteogenic stimulator, low intensity, ultrasound, non-invasive	Prior authorization is required. For appendicular skeleton only (not the spine).
E0731	Form fitting conductive garment for TENS or NMES	Not Covered
E0740	Incontinence treatment system	
E0744	Neuromuscular stimulator for scoliosis	
E0748	Osteogenic stimulator, electrical, non-invasive, spinal applications	
E0753	Implantable neurostimulator electrodes, per group of four	
E0755	Electronic salivary reflex stimulator	

PSYCHIATRIC SERVICES

The psychiatric services policies in this section apply only to workers covered by the State Fund and Self-Insured employer workers (see WAC 296-21-270). For information on psychiatric policies applicable to the Crime Victims Compensation Program, refer to the department's booklet *Mental Health Treatment Rules and Fees* and WAC 296-31.

PROVIDERS OF PSYCHIATRIC SERVICES

Authorized psychiatric services **must** be performed by either a psychiatrist (MD or DO) or a licensed psychologist (PhD), per WAC 296-21-270. Licensed clinical psychologists and psychiatrists are paid at the same rate when performing the same service. Each provider must obtain his or her own L&I provider account number for billing and payment purposes.

The department does not cover psychiatric evaluation and treatment services provided by social workers, psychiatric nurse practitioners, and other master's level counselors, even when delivered under the direct supervision of a clinical psychologist or a psychiatrist. Staff supervised by a psychiatrist or licensed clinical psychologist may administer psychological testing; however, the psychiatrist or licensed clinical psychologist must interpret the testing and prepare the reports.

PSYCHIATRISTS AS ATTENDING PHYSICIANS

A psychiatrist can only be an injured worker's attending physician when the department has accepted a psychiatric condition and it is the **only** condition being treated. Psychologists cannot be the attending physician and may not certify time loss or rate Permanent Partial Disability under department rules (WAC 296-20-210).

NON-COVERED AND BUNDLED SERVICES

The following services are not covered:

CPT® Code	Abbreviated Description
90802, 90810-90815, 90823-90829 and 90857	Interactive psychiatric interview/exam and interactive psychotherapy
90845	Psychoanalysis
90846	Family psych w/o patient
90849	Multiple family group psych tx

The following services are bundled and are not payable separately:

CPT® Code	Abbreviated Description
90885	Psy evaluation of records
90887	Consultation with family
90889	Preparation of report

PSYCHIATRIC CONSULTATIONS AND EVALUATIONS

All referrals for psychiatric care require prior authorization (per WAC 296-21-270). This requirement includes referrals for psychiatric consultations and evaluations.

When an authorized referral is made to a psychiatrist, the psychiatrist may bill either the evaluation and management consultation codes (CPT® codes 99241-99275) or the psychiatric diagnostic interview examination code (CPT® code 90801).

When an authorized referral is made to a clinical psychologist for an evaluation, the psychologist may bill only the psychiatric diagnostic interview exam code (CPT® code 90801).

Authorization for CPT® code 90801 is limited to one occurrence every six months, per patient, per provider.

Refer to WAC 296-20-045 and WAC 296-20-051 for more information on consultation requirements.

CASE MANAGEMENT SERVICES

Psychiatrists and clinical psychologists may only bill for case management services (CPT® codes 99361, 99362, and 99371-99373) when providing consultation or evaluation.

Refer to “Case Management Services” in the “Evaluation and Management” section for payment criteria and documentation requirements for case management services.

INDIVIDUAL INSIGHT ORIENTED PSYCHOTHERAPY

Individual insight oriented psychotherapy services are divided into services *with* an evaluation and management (E/M) component, and services *without* an E/M component. Coverage of these services is different for psychiatrists and clinical psychologists.

Psychiatrists may bill individual insight oriented psychotherapy codes either *with* or *without* an evaluation and management component (CPT® codes 90804-90809, 90816-90819 and 90821-90822). Psychotherapy *with* an E/M component may be billed when services such as medical diagnostic evaluation, drug management, writing physician orders, and/or interpreting laboratory or other medical tests are conducted along with psychotherapy treatment.

Clinical psychologists may bill only the individual insight oriented psychotherapy codes *without* an E/M component (CPT® codes 90804, 90806, 90808, 90816, 90818 and 90821). They may not bill psychotherapy with an E/M component because medical diagnostic evaluation, drug management, writing physician orders, and/or interpreting laboratory or other medical tests are outside the scope of clinical psychologist licensure.

Further explanation of this policy and CMS’s response to public comments about it are published in *Federal Register* Volume 62 Number 211, issued on October 31, 1997.

To report individual psychotherapy, use the time frames in the CPT® code descriptions for each unit of service. When billing these codes, do not bill more than one unit per day. When the time frame is exceeded for a specific code, bill the code with the next highest time frame.

USE OF CPT® EVALUATION AND MANAGEMENT CODES FOR OFFICE VISITS

Psychologists may not bill the E/M codes for office visits.

Psychiatrists may not bill the E/M codes for office visits on the same day psychotherapy is provided for the same patient. If it becomes medically necessary for the psychiatrist to provide an E/M service for a condition other than that for which psychotherapy has been authorized, the provider must submit documentation of the event and request a review before payment can be made.

PHARMACOLOGICAL EVALUATION AND MANAGEMENT

Pharmacological evaluation (CPT® code 90862) is payable only to psychiatrists. If a pharmacological evaluation is conducted on the same day as individual psychotherapy, the psychiatrist should bill the appropriate psychotherapy code with and E/M component. The psychiatrist should not bill the individual psychotherapy code and a separate E/M code in this case (CPT® codes 99201-99215). No payment will be made for psychotherapy and pharmacological management services performed on the same day, by the same physician, on the same patient.

HCPCS code M0064 is not payable in conjunction with the pharmacological evaluation code (CPT® code 90862) or with a (CPT® Evaluation and Management office visit or consultation code (CPT® codes 99201-99215, 99241-99275). The description for HCPCS code M0064 is "Brief office visit for the sole purpose of monitoring or changing drug prescriptions used in treatment of mental psychoneurotic and personality disorders." It will only be payable if these described conditions are accepted by the department as industrially related.

NEUROPSYCHOLOGICAL TESTING

The following three codes may be used if appropriate when performing neuropsychological evaluation. Reviewing records and/or writing and submitting a report is included in these codes and may not be billed separately.

CPT®		
Code	Abbreviated Description	Billing Restriction
90801	Psy dx interview	May be billed only once every six months.
96100	Psychological testing/per hour	May be billed up to a four hour maximum. May be billed in addition to CPT® code 96117.
96117	Neuropsychological testing/per hour	May be billed per hour up to a twelve hour maximum.

GROUP PSYCHOTHERAPY SERVICES

Group psychotherapy treatment (CPT® code 90853) is authorized on an individual case by case basis only. If authorized, the worker may participate in group therapy as part of his or her individual treatment plan. The department does not pay a "group rate" to providers who conduct psychotherapy exclusively for groups of injured workers.

If group psychotherapy is authorized and performed on the same day as individual insight oriented psychotherapy (with or without an E/M component), both services may be billed, as long as they meet the CPT® definitions.

NARCOSYNTHESIS AND ELECTROCONVULSIVE THERAPY

Narcosynthesis (CPT® code 90865) and electroconvulsive therapy (CPT® codes 90870 and 90871) require prior authorization. Authorized services are payable only to psychiatrists because they require the administration of medication.

OTHER MEDICINE SERVICES

BIOFEEDBACK

Biofeedback treatment requires an attending doctor's order and prior authorization. Refer to WAC 296-20-03001 for information on what to include when requesting authorization. Rental of home biofeedback devices are time limited and require prior authorization. Refer to WAC 296-20-1102 for the department's policy on rental equipment.

The extent of biofeedback treatment is limited to those procedures allowed within the scope of practice of the licensed and approved biofeedback provider administering the service.

WAC 296-21-280 limits provision of biofeedback to those practitioners who are either certified by the Biofeedback Certification Institute of America (BCIA) or who meet the certification requirements. The WAC also sets forth authorization conditions, treatment limitations and reporting requirements for biofeedback services.

Anyone who is a qualified or certified biofeedback provider as defined in WAC 296-21-280, but is not licensed as a practitioner as defined in WAC 296-20-01002 may not receive direct payment for biofeedback services. These persons *may perform* biofeedback as a para-professional as defined in WAC 296-20-015 under the direct supervision of a qualified, licensed practitioner whose scope of practice includes biofeedback and who is BCIA certified or who meets the certification qualifications. The supervising licensed practitioner must bill the biofeedback services.

When biofeedback is performed in conjunction with individual psychotherapy, use either CPT® code 90875 or 90876 for psychophysiological therapy; do not bill CPT® codes 90901 or 90911 with the individual psychotherapy codes.

The following table contains the biofeedback codes payable to approved providers:

Code	Abbreviated Description	Payable to:	Maximum Fee
CPT® 90875	Psychophysiological thrpy 20-30 min	Department approved biofeedback providers who are: Clinical Psychologists or Psychiatrists (MD or DO).	See Professional Services Fee Schedule
CPT® 90876	Psychophysiological thrpy 45-50 min		
CPT® 90901	Biofeedback, any modality	Any department approved biofeedback provider	
CPT® 90911	Biofeedback peri/uro/rectal		
HCPCS E0746	Electromyography (EMG) biofeedback device	DME or pharmacy providers (for rental or purchase). Bundled for RBRVS providers for use in the office.	
Local 1042M	Biofeedback initial eval, 1 hr, includes report	Any department approved biofeedback provider	\$ 126.64
Local 1043M	Biofeedback follow-up eval, 30 min, includes report		\$ 63.32

Note: CPT® codes 90901 and 90911 are not time limited and only one unit of service per day is payable, regardless of the length of the biofeedback session or number of modalities. The local codes for diagnostic evaluation (1042M and 1043M) are payable in addition to treatment on the same day. Initial evaluation is limited to once per claim per provider.

ELECTROMYOGRAPHY (EMG) SERVICES

Payment for needle electromyography (EMG) services (CPT® codes 95860-95870) is limited as follows:

CPT®		
Code	Abbreviated Description	Limitations
95860	Muscle test, one limb	<ul style="list-style-type: none">• Extremity muscles innervated by 3 nerves or 4 spinal levels must be evaluated with a minimum of 5 muscles studied.• Not payable with CPT® code 95870
95861	Muscle test, two limbs	
95863	Muscle test, 3 limbs	
95864	Muscle test, 4 limbs	
95869	Muscle test, thoracic paraspinal	<ul style="list-style-type: none">• May be billed alone (for thoracic spine studies only)• Limited to one unit per day• For this to pay with extremity codes, test must be for T3-T11 areas only; if only T1 or T2 are studied it is not payable separately.
95870	Muscle test, non-paraspinal	<ul style="list-style-type: none">• Limited to one unit per extremity and one unit for cervical or lumbar paraspinal muscles regardless of the number of levels tested.• Not payable with extremity codes. (5 units maximum payable)

ELECTROCARDIOGRAMS (EKG)

Separate payment is allowed for electrocardiograms (CPT® codes 93000, 93010, 93040 and 93042) when an interpretation and report is included. These services may be paid in conjunction with office services. EKG tracings without interpretation and report (CPT® codes 93005 and 93041) are not payable in addition to office services.

Transportation of portable EKG equipment to a facility or other patient location (HCPCS code R0076) is bundled into the EKG procedure and is not separately payable.

VENTILATOR MANAGEMENT SERVICES

No payment will be made for ventilator management services (CPT® codes 94656, 94657, 94660 and 94662) when an E/M service (CPT® codes 99201-99215) is reported on the same day by the same provider. Providers will be paid for either the appropriate ventilation management code or the E/M service, but not both. If a provider bills a ventilator management code on the same day as an E/M service, payment will be made for the E/M service and not for the ventilator management code.

MEDICATION ADMINISTRATION

Immunizations

Refer to WAC 296-20-03005 for authorization and requirements for work related exposure to an infectious disease. If authorized, immunization materials are payable. Immunization administration codes (CPT® codes 90471 and 90472) are payable in addition to the immunization materials code(s). Add-on CPT® code 90472 has a maximum daily fee of \$5.44.

An E/M code is not payable in addition to the immunization administration service, unless it is performed for a separately identifiable purpose and billed with a -25 modifier.

Immunotherapy

Professional services for the supervision and provision of antigens for allergen immunotherapy must be billed as component services. Complete service codes (CPT® codes 95120 – 95134) will not be paid. The provider must bill as appropriate, one of the injection codes (CPT® codes 95115 or 95117) and one of the antigen/antigen preparation codes (CPT® codes 95145 – 95149, 95165 or 95170).

Infusion Therapy Services and Supplies for RBRVS Providers

Prior authorization is required for any scheduled or ongoing infusion therapy services (including supplies) performed in the office, clinic, or home, regardless of who performs the service (e.g. physicians, nurses, IV infusion therapy company, pharmacy or home health agency). Refer to the “Home Health Services” section for further information on home infusion therapy.

Outpatient infusion therapy services are allowed without prior authorization when medically necessary to treat urgent or emergent care situations that arise in an office or clinic. In these situations, infusion therapy services are payable to physicians, ARNPs, and PAs (CPT® codes 90780 and 90781). HCPCS code Q0081 is only payable to hospitals. Intravenous or intra-arterial therapeutic or diagnostic injection codes (CPT® codes 90783 and 90784) will not be paid separately in conjunction with the IV infusion codes (CPT® codes 90780 and 90781).

Providers will be paid for E/M office visits (CPT® codes 99201 – 99215) in conjunction with infusion therapy only if the services provided meet the service code definitions.

Billing instructions for non-pharmacy providers are located in “Injectable Medications” later in this section. Drugs supplied by a pharmacy should be billed on pharmacy forms with national drug codes (NDCs, or UPCs if no NDC is available).

Infusion therapy supplies and related durable medical equipment such as infusion pumps are not separately payable for RBRVS providers. Payment for these items is bundled into the fee for the professional service. If rental or purchase of an infusion pump is medically necessary to treat a patient in the home, refer to the “Home Health Services” section for further information.

The department does **not** cover implantable infusion pumps and supplies (HCPCS codes A4220, E0782, E0783, and E0785). The department also does **not** cover the implantation of epidural or intrathecal catheters, including their revision, repositioning, replacement, or removal (CPT® codes 62350 – 62368).

Note: When a spinal cord injury is an accepted condition, the department or Self-Insurer may authorize payment for anti-spasticity medications by any indicated route of administration (e.g., some benzodiazepines, Baclofen). Prior authorization is required.

Placement of non-implantable epidural or subarachnoid catheters for single or continuous injection of medications are covered services with CPT® 62310 – 62319, 62281 – 62284 and 62290 – 62294.

Intrathecal and epidural infusions of any substance other than anesthetic or contrast material are not covered (per WAC 296-20-03002). Infusion of any opiates and their derivatives (natural, synthetic or semi-synthetic) are not covered unless they are part of providing anesthesia, short term post operative pain management (up to 48 hours post discharge), or unless medically necessary in emergency situations (per WAC 296-20-03014). No exceptions to this payment policy will be granted.

Therapeutic or Diagnostic Injections

Professional services associated with therapeutic or diagnostic injections (CPT® code 90782 or 90788), are payable along with the appropriate HCPCS “J” code for the drug, as long as no E/M office visit service (CPT® codes 99201 – 99215) is provided on the same day. If an E/M office visit service is provided on the same day as an injection, providers will be paid only the E/M service and the appropriate HCPCS “J” code for the drug. Providers must document the name, strength, dosage and quantity of the drugs administered in the medical record.

Intra-arterial and intravenous diagnostic and therapeutic injection services (CPT® codes 90783 and 90784) may be billed separately and are payable if they are not provided in conjunction with IV infusion therapy services (CPT® codes 90780 and 90781).

Note: Injections of narcotics or analgesics are not permitted or paid in the outpatient setting except on an emergency basis per WAC 296-20-03014 (6), or for pain management related to outpatient surgical procedures and dressing and cast changes for severe soft tissue injuries, burns or fractures.

“Dry needling” is considered a variant of trigger point injections with medications. Dry needling is a technique where needles inserted (no medications are injected) directly into trigger point locations as opposed to the distant points or meridians used in acupuncture. The department does not cover acupuncture services (WAC 296-20-03002). Dry needling of trigger points should be billed using only the trigger point injection code (CPT® 20550). Dry needling follows the same rules as trigger point injections in WAC 296-20-03001(14).

Injectable Medications

Providers should use the “J” codes for injectable drugs that are administered during an E/M office visit or other procedure. The “J” codes are not intended for self-administered medications.

When billing for a non-specific injectable drug, the name, strength, dosage and quantity of drug administered or dispensed must be noted on the bill as well as documented in the medical record.

Providers should bill their acquisition cost for the drugs. Department fees for injectable medications are based on the Average Wholesale Prices (AWP). Payment is made according to the published fee schedule amount, or the billed charge for the covered drug(s), whichever is less.

Hyaluronic Acid for Osteoarthritis of the Knee

See Provider Bulletin 98-10 for more information about the use of hyaluronic acid for osteoarthritis of the knee. Only the following local codes should be billed for these services:

3020A	Hyalgan or Supartz including injection procedure, per injection (limited to 5 injections per knee joint per claim)	\$161.84
3040B	Synvic including injection procedure, per injection (limited to 3 injections per knee joint per claim)	\$208.92

The correct side of body modifier (-RT or -LT) will be required for authorization and billing. If bilateral procedures are required, both modifiers should be authorized and each should be billed as a separate line item.

The HCPCS codes for Hyaluronic acid (J7316 and J7320) are not covered and will not be paid. CPT® injection procedure code 20610 will not be paid on the same date as the above local codes.

Non-Injectable Medications

Providers may administer oral or non-injectable medications during office procedures or dispense them for short-term use until the worker can have their prescription filled at a pharmacy. In these cases, providers should bill the distinct "J" code that describes the medication. If no distinct "J" code describes the medication, the most appropriate non-specific HCPCS code listed below should be used:

J3535	Drug administered through a metered dose inhaler
J7599	Immunosuppressive drug, not otherwise classified
J7699	Inhalation solution administered through DME, not otherwise specified
J7799	Other than inhalation drug administered through DME, not otherwise specified
J8499	Prescription drug, oral, non-chemotherapeutic, not otherwise specified
J8999	Prescription drug, oral, chemotherapeutic, not otherwise specified.

The name, strength, dosage and quantity of drug administered or dispensed must be noted on the bill as well as documented in the medical record. No payment will be made for pharmaceutical samples.

HIV Prophylaxis

Insurers will pay for the initial prophylactic drug kit for post HIV exposure when it is dispensed by the treating physician. The kit allows prophylaxis to begin immediately and gives the worker time to get a routine prescription filled. Each kit contains a two-day supply of Combivir and Viracept, or other appropriate antiviral drugs. A maximum of two kits per exposure are payable. A claim must be filed for a documented HIV exposure at work for the kit (s) to be payable. Providers should bill the following local code for the HIV drug kit:

3060A	HIV exposure initial treatment kit	\$ 131.50
-------	------------------------------------	-----------

OBESITY TREATMENT

While obesity does not meet the definition of an industrial injury or occupational disease, temporary treatment of obesity may be allowed in some cases. All obesity treatment services require prior authorization. Refer to Provider Bulletin 97-03 for more information.

The attending doctor may request a consultation with a registered dietician or nutritionist (RD) to determine if an obesity treatment program is appropriate for the injured worker. The following local codes are payable only to RDs.

1030M	Obesity treatment; intake dietary evaluation (limited to one per obesity treatment program)	\$ 80.23
1034M	Obesity treatment; dietary re-evaluation (limited to 3 per obesity treatment program)	\$ 55.01

IMPAIRMENT RATING BY ATTENDING DOCTORS AND CONSULTANTS

These local codes are for use by attending doctors who are doctors of medicine, osteopathic medicine and surgery, chiropractic, podiatry, and dentistry. In accordance with WAC 296-23-267, doctors of naturopathy and optometry may not bill these codes. For more information on impairment rating, refer to the *Medical Examiners Handbook*.

Consultants performing impairment ratings must be on the department's list of approved examiners.

1190M	Impairment rating by attending doctor, limited	\$ 219.43
1191M	Impairment rating by attending doctor, standard	\$ 319.18
1192M	Impairment rating by attending doctor, complex	\$ 398.96
1193M	Impairment rating by consultant, limited	\$ 219.43
1194M	Impairment rating by consultant, standard	\$ 319.18
1195M	Impairment rating by consultant, complex	\$ 398.96

PHYSICIAN ASSISTANTS

Physician assistants must be certified to qualify for payment. Physician assistants must have valid individual L&I provider account numbers to be paid for services.

Consultations, impairment ratings and administrative or reporting services related to workers' compensation benefit determinations are not payable to physician assistants. Physician assistant services are paid to the supervising physician or employer at a maximum of ninety percent (90%) of the allowed fee.

Further information about physician assistant services and payment can be found in Provider Bulletin 99-04 and WAC 296-20-12501 and WAC 296-20-01501.

NATUROPATHIC PHYSICIANS

Naturopathic physicians should use the local codes listed in this section to bill for office visit services, CPT® codes 99361 – 99373 to bill for case management services and the appropriate HCPCS codes to bill for miscellaneous materials and supplies.

Refer to "Case Management Services" in the "Evaluation and Management" section for payment criteria and documentation requirements for case management services.

The department will not pay naturopathic physicians for services that are not specifically allowed. Refer to WAC 296-23 for additional information.

INITIAL VISITS

2130A	Routine examination, history, and/or treatment (routine procedure), and submission of a report	\$44.74
2131A	Extended office visit including treatment – report required	\$67.12
2132A	Comprehensive office visit including treatment – report required in addition to the report of accident	\$89.51

FOLLOW-UP VISITS

2133A	Routine office visit including evaluation and/or treatment	\$35.81
2134A	Extended office visit including treatment – report required	\$67.12

PATHOLOGY AND LABORATORY SERVICES

PANEL TESTS

Automated Multichannel Tests

When billing for panels containing automated multichannel tests, performing providers may bill either the panel code or individual test codes, but not both.

The following tests are automated multichannel tests or panels comprised solely of automated multichannel tests:

CPT®	Abbreviated Description	CPT®	Abbreviated Description
80048	Basic metabolic panel	82565	Assay of creatine
80051	Electrolyte panel	82947	Assay of glucose, qualitative
80053	Comprehensive metabolic panel	82977	Assay of GGT
80069	Renal function panel	83615	Lactate (LD) (LDH) enzyme
80076	Hepatic function panel	84075	Assay alkaline phosphatase
82040	Assay of serum albumin	84100	Assay of phosphorus
82247	Bilirubin, total	84132	Assay of serum potassium
72248	Bilirubin, direct	84155	Assay pf protein
82310	Assay of calcium	84450	Transferase (AST) (SGOT)
82374	Assay, blood carbon dioxide	84460	Alanine amino (ALT) (SGPT)
82435	Assay of blood chloride	84478	Assay of triglycerides
82465	Assay of serum cholesterol	84520	Assay of urea nitrogen
82550	Creatine kinase (CK) (CPK)	84550	Assay of blood/uric acid

Payment Calculation for Automated Tests

The automated individual and panel tests above will be paid based on the total number of unduplicated automated multichannel tests performed per day per patient. Payment calculation is made according to the following steps:

- When a panel is performed, the CPT® codes for each test within the panel are determined.
- The CPT® codes for each test in the panel are compared to any individual tests billed separately for that day.
- Any duplicated tests are denied.
- Then the total number of remaining unduplicated automated tests are counted. See the following table to determine the payable fee based on the total number of unduplicated automated tests performed:

Number of Tests	Fee
1 test	Lower of the single test or \$10.08
2 tests	\$10.08
3 -12 tests	\$12.36
13 -16 tests	\$16.51

Number of Tests	Fee
17 - 18 tests	\$18.49
19 tests	\$21.39
20 tests	\$22.09
21 tests	\$22.78
22 -23 tests	\$23.48

Payment Calculation for Panels with Automated and Non-Automated Tests

When panels are comprised of both automated multichannel tests and individual non-automated tests, they will be priced based on:

- the automated multichannel test fee based on the number of tests, added to:
- the sum of the fee(s) for the individual non-automated test(s).

For example, panel test 80061 is comprised of two automated multichannel tests and one non-automated test. As shown below, the fee for 80061 is **\$25.91**.

CPT® 80061 Component Tests	Number of Automated Tests	Fee
Automated: CPT® 82465 CPT® 84478	2	Automated: \$10.08
Non-Automated: CPT® 83718		Non-Automated: \$ 15.83
TOTAL FEE:		\$ 25.91

Payment Calculation for Multiple Panels

When multiple panels are billed or when a panel and individual tests are billed for the same date of service for the same patient, payment will be limited to the total fee allowed for the unduplicated component tests.

For example, if panel codes 80050, 80076 and 80090 are performed on the same day for the same patient, the fee for the tests will be \$165.75. This fee is based on the fee for the 15 unduplicated automated multichannel tests, and the sum of the fees for the six unduplicated non-automated tests.

		COMPONENT TESTS FOR CPT® CODE:				
		80050	80076	80090	Test Count	Fee
Automated Tests	82040	84075	82040*	None	15 Unduplicated Automated Tests	\$16.51

	85025**				\$ 15.04	
					\$ 25.45	
					\$ 25.45	
					\$ 25.45	
					\$ 25.45	
TOTAL FEE					\$165.75	

* duplicated tests

** 80050 specifies that either 85022 or 85025 is performed; this example uses 85025

REPEAT TESTS

Additional payment will be allowed for repeat test(s) performed for the same patient on the same day. However, a specimen(s) must be taken from separate encounters. Test(s) normally performed in a series, e.g. glucose tolerance tests, or repeat testing of abnormal results do not qualify as separate encounters. The medical necessity for repeating the test must be documented in the patient's record.

Modifier –91 must be used to identify the repeated test(s). Payment for repeat panel tests or individual components tests will be made based on the methodology described above.

SPECIMEN COLLECTION AND HANDLING

Specimen collection charges are allowed for provider or practitioner, independent laboratory or outpatient hospital laboratory services as follows:

- The fee is payable only to the provider (practitioner or laboratory) who actually draws the specimen.
- Payment for the specimen may be made to nursing homes or skilled nursing facilities when an employee who is qualified to do specimen collection performs the draw.
- Payment for performing the test is separate from the specimen collection fee.
- Costs for media, labor and supplies (e.g. gloves, slides, antiseptics, etc.) are included in the specimen collection.
- A collection fee is not allowed when the cost of collecting the specimen(s) is minimal, such as a throat culture, Pap smear or a routine capillary puncture for clotting or bleeding time.
- No fee is payable for specimen collection performed by patients in their homes (such as stool sample collection).

Billing Tip

Use CPT® code 36415 or HCPCS code G0001 for venipuncture. Use HCPCS code P9612 or P9615 for catheterization for collection of specimen.

Complex vascular injection procedures, such as arterial punctures and venisections are not subject to this policy and will be paid with appropriate CPT® or HCPCS codes.

No payment for travel will be made to nursing home or skilled nursing facility staff who perform the specimen collection. Travel will be paid in addition to the specimen collection fee when all of the following conditions are met:

- It is medically necessary for a provider, practitioner or laboratory technician to draw a specimen from a nursing home, skilled nursing facility or homebound patient, and
- the provider, practitioner or lab technician personally draws the specimen, and
- the trip is solely for the purpose of collecting the specimen. If the specimen draw is incidental to other services, no travel is payable.

Billing Tip

Use HCPCS code P9603 to bill for actual mileage (one unit equals one mile). HCPCS code P9604 is not covered.

Payment will not be made for handling and conveyance, e.g. shipping or messenger or courier service of specimen(s) (CPT® codes 99000 and 99001). This includes preparation and handling of specimen(s) for shipping to a reference laboratory. These services are considered to be integral to the testing process and are bundled into the total fee for the testing service.

STAT LAB FEES

Usual laboratory services are covered under the Professional Services Fee Schedule. In cases where laboratory tests are appropriately performed on a STAT basis, the provider may bill local code 8949M. Payment is limited to one STAT charge per episode (not once per test). Tests ordered STAT should be limited to only those that are needed to manage the patient in a true emergency situation. The laboratory report should contain the name of the provider who ordered the STAT test(s). The medical record must reflect the medical necessity and urgency of the service.

PHARMACY AND DURABLE MEDICAL EQUIPMENT PROVIDERS

PHARMACY FEE SCHEDULE

Payment for drugs and medications including all oral non-legend drugs will be based on the pricing methodology described below. Refer to Provider Bulletin 99-10 for more information on the Pharmacy Fee Schedule and WAC 296-20-01002 for definitions of Average Wholesale Price (AWP) and Base Line Price (BLP).

The department's outpatient formulary can be found in Appendix G at the end of this document.

Generic	The lesser of BaseLine Price™ (BLP) or Average Wholesale Price (AWP) less 10% + \$4.50 Professional Fee
Brand with Generic Equivalent (Substitution Allowed)	The lesser of BLP or AWP less 10% + \$3.00 Professional Fee
Brand with Generic Equivalent (Dispensed as Written)	AWP less 10% + \$4.50 Professional Fee
Single or multi-source brand name drugs	AWP less 10% + \$4.50 Professional Fee

Compounded prescriptions will be paid at the allowed cost of the ingredients, a compounding time fee of \$4.00 per 15 minutes plus the applicable professional component as indicated above.

Over-The-Counter Items

Orders for over-the-counter non-oral drugs or non-drug items must be written on standard prescription forms. These items are to be priced on a forty percent margin.

Per RCW 82.08.0281 prescription drugs and oral or topical over-the-counter medications are nontaxable.

EMERGENCY CONTRACEPTIVES AND PHARMACIST COUNSELING

Effective November 1, 1998, the department began covering Emergency Contraceptive Pills (ECPs) and associated pharmacist counseling services. These are covered only when all of the following conditions are met:

- a valid claim for rape in the workplace is established with the insurer,
- the ECP and/or counseling service is sought by the injured worker,
- the claim manager authorizes payment for the ECP and/or the counseling, and
- the pharmacist is approved by the Department of Health Board of Pharmacy to follow this particular protocol.

Once these conditions have been met, the dispensed medication should be billed with the appropriate NDC, and the counseling service should be billed with local code 4805A. The maximum allowable amount for the counseling is listed below.

4805A	ECP counseling by a pharmacist at the time the ECP is dispensed	\$33.05
-------	---	---------

INFUSION THERAPY SERVICES

Prior authorization is required for any scheduled or ongoing infusion therapy services (including supplies) performed in the office, clinic or home, regardless of who performs the service (e.g. physicians, nurses, IV infusion therapy company, pharmacy or home health agency).

Infusion therapy services (CPT® codes 90780 and 90781) and/or therapeutic, diagnostic, or vascular injections (CPT® codes 90782, 90783, 90784, 90788 and 36000-36640), are not payable to pharmacies and IV infusion companies. If nurses work for these companies providing infusion therapy services, the services must be billed with an L&I home health agency provider account number or an independent registered nurse provider account number.

Supplies used during infusion therapy, including infusion pumps, are payable only if authorized, and must be billed with HCPCS codes. Refer to WAC 296-20-1102 for information on the rental or purchase of infusion pumps. Pharmacies and IV infusion companies must bill for infusion therapy supplies under their L&I provider account numbers.

Drugs used during infusion therapy, including injectable drugs, are payable only if authorized and must be billed with the NDC codes, (or UPC codes if no NDC codes are available) under an L&I pharmacy provider account number.

DURABLE MEDICAL EQUIPMENT

Pharmacies and durable medical equipment providers may bill for supplies and equipment with appropriate HCPCS and local codes (local codes for supplies are listed at the end of this section). Delivery charges, shipping and handling, tax, and fitting fees are not payable separately. DME suppliers should include these charges in the total charge for the supply. For taxable items, an itemized invoice may be attached to the bill, but is not required.

DME suppliers may bill for equipment and supplies required to provide authorized IV infusion therapy under their L&I DME provider account number. Refer to WAC 296-20-1102 for information on the rental or purchase of infusion pumps.

TENS units and supplies (transcutaneous electrical nerve stimulators) are paid under special contract only. See the "Transcutaneous Electrical Nerve Stimulators (TENS) section.

For further information on miscellaneous services and appliances, refer to WAC 296-23-165.

BUNDLED CODES

The concept of "bundled" codes does not apply to pharmacy and durable medical equipment providers. This is because there is no office visit or procedure associated with these provider types into which supplies can be bundled. As a result, covered HCPCS codes listed as "bundled" in the fee schedules are payable to pharmacy and durable medical equipment providers.

HOME HEALTH SERVICES

Home health care providers, nursing homes, hospices and other residential care facilities should use the codes listed in this section to bill for services. All home health and residential care services require prior authorization. The insurer will pay only for proper and necessary care and supplies needed because of physical restrictions caused by the industrial injury or disease. The insurer will not pay for codes that are not specifically authorized.

Chore services and other services required to meet the worker's environmental needs are not covered except for home hospice care.

ATTENDANT SERVICES

Attendant services are proper and necessary personal care services provided to maintain the injured worker in his or her residence. All attendant services must be provided through a home health or home care agency except for continuing care from approved spouses. Spouses who provided attendant services to injured workers prior to October 1, 2001 and who meet department criteria may continue to provide attendant services.

To be covered by the department, attendant services must be requested by the attending physician and authorized by the department before care begins.

The department will determine the maximum hours of authorized attendant services based on an independent nursing assessment of the worker's care needs. Refer to WAC 296-20-303 and Provider Bulletin 01-08 for additional information.

8901H	Attendant services by department approved spouse provider (per hour)	\$11.11
-------	--	---------

HOME HEALTH AND HOSPICE CARE

Approved hours will be based on health care assessments and review by the insurer. Respite care must be approved in advance. Chore services and other services required to meet the worker's environmental needs are not covered except for home hospice care.

The following are examples of **covered** home health care services:

- Administration of medications that can't be self-administered
- Assistance with range of motion exercises
- Bathing and personal hygiene
- Bowel and bladder care
- Changing or caring for IV's or ventilators (Only family members or licensed persons may perform these services)
- Dressing assistance
- Feeding assistance (not meal preparation)
- Mobility assistance including toileting and other transfers, walking
- Specialized skin care including caring for or changing dressings or ostomies
- Tube feeding
- Turning and positioning

The following services are considered to be “chore services” and are **not covered (except for hospice)**;

- Childcare
- Errand for the injured worker
- Housecleaning
- Laundry
- Meal preparation and shopping
- Transportation
- Recreational activity
- Yard work
- Other everyday environmental needs unrelated to the medical care of the injured worker

Nursing Evaluations

Periodic independent RN evaluation requested by the department or Self- Insurer. These services require prior authorization. Staffing evaluations required as part of the home health care plan are not payable as separate services.

8913H	Independent RN evaluation requested by the department or Self-Insurer including travel and report	\$428.41
-------	---	----------

HOME INFUSION THERAPY SERVICES

Prior authorization is required for all scheduled or ongoing infusion therapy services (including supplies) provided in the home. This authorization requirement applies to all home infusion therapy regardless of who performs the service (e.g. physicians, nurses, IV infusion therapy company, pharmacy or home health agency).

Payment for performing home infusion therapy is included with the allowed payment for home health agency nursing services. It may not be billed separately. Injections of medications also may not be billed separately.

Supplies used during home infusion therapy, including infusion pumps, are payable only if authorized, and must be billed with HCPCS codes. Refer to WAC 296-20-1102 for information on the rental or purchase of infusion pumps. Bills for home infusion therapy services and supplies must be billed under the home health agency's L&I provider account number.

Drugs used during home infusion therapy, including injectable drugs, are payable only if authorized and must be billed with the NDC codes, (or UPC codes if no NDC codes are available) under a separate L&I pharmacy provider account number.

SUPPLIES, MATERIALS AND BUNDLED SERVICES

Services and supplies provided must be medically necessary and must be prescribed by an approved provider for the direct treatment of a covered condition.

CPT® code 99070, which represents miscellaneous supplies and materials provided by the physician, will not be paid. Providers must bill specific HCPCS or local codes for supplies and materials provided during an office visit or with other office services.

ACQUISITION COST POLICY

Supply codes that do not have a fee listed will be paid at their acquisition cost. The acquisition cost equals the wholesale cost plus shipping and handling and sales tax. These items should be billed together as one charge. For taxable items, an itemized listing of the cost plus sales tax may be attached to the bill, but is not required.

Wholesale invoices for all supplies and material must be retained in the provider's office files for a minimum of five years. A provider must submit a hard copy of the wholesale invoice to the department or Self-Insurer when an individual supply costs \$150.00 or more, or upon request. The insurer may delay payment of the provider's bill if the insurer has not received this information

Supplies used in the course of on office visit are considered bundled and are not payable separately. Fitting fees are bundled into the office visit, or into the cost of any durable medical equipment, and are not payable separately.

Sales tax and shipping and handling charges are not separately payable, and should be included in the total charge for the supply. An itemized statement showing net price plus tax may be attached to bills, but is not required.

BUNDLED SERVICES AND SUPPLIES

Under the fee schedules, some services and supply items are considered "bundled" into the cost of other services (associated office visits or procedures) and will not be paid separately. See WAC 296-20-01002 for the definition of a "bundled" code. Bundled codes are listed as "bundled" in the dollar value column in the Professional Services Fee schedule. Bundled services and supplies are also listed in the appendices at the end of this document.

CASTING MATERIALS

Providers should bill for casting materials with HCPCS codes Q4001 – Q4051. The department no longer accepts HCPCS codes A4580 – A4590, or local codes 2978M – 2987M. No payment will be made for the use of a cast room. Use of a cast room is considered part of a provider's practice expense.

CATHETERIZATION

Separate payment is allowed for placement of a temporary indwelling catheter when performed in a provider's office and used to treat a temporary obstruction. To bill for this Service, use HCPCS code G0002.

Payment for the service is not allowed when the procedure is performed on the same day as, or during the postoperative period of, a major surgical procedure that has a follow-up day period.

For catheterization to obtain specimen(s) for lab tests, see the "Pathology and Laboratory services" section.

SURGICAL TRAYS AND SUPPLIES USED IN THE PHYSICIAN'S OFFICE

The department follows CMS's policy of bundling HCPCS codes A4263, A4300, A4550 and G0025 for surgical trays and supplies used in a physician's office. In 1999, CMS began a four-year process to gradually incorporate the cost of these codes into the practice expense portion (overhead) of the Relative Value Units for pertinent surgical CPT® codes. CMS completed this process in 2002. Payment for these codes is now "bundled" into the payment for the surgical procedure.

SURGICAL DRESSINGS DISPENSED FOR HOME USE

The policy for surgical dressings dispensed for home use is based on CMS's policy. If a health services provider applies surgical dressings during the course of a procedure or office or clinic visit, the cost is included in the practice expense component of the Relative Value Unit (overhead) for that provider, and no separate payment is allowed.

Primary and secondary surgical dressings dispensed by health services providers *for home use* are payable at *acquisition cost* when all of the following conditions are met:

- They are dispensed to a patient for home care of a wound, and
- They are medically necessary, and
- The wound is due to an accepted work related condition.

Primary Surgical Dressings

Primary surgical dressings are therapeutic or protective coverings applied directly to wounds or lesions either on the skin or caused by an opening to the skin. Examples of primary surgical dressings include items such as Telfa, adhesive strips for wound closure, petroleum gauze, etc.

Secondary Surgical Dressings

Secondary surgical dressings are material that serve a therapeutic or protective function, and that are needed to secure a primary dressing. Examples of secondary surgical dressings include items such as adhesive tape, roll gauze, binders, and disposable compression material etc. It does *not* include items such as elastic stockings, support hose, pressure garments etc. These items must be billed with the appropriate HCPCS or local codes.

In order to receive payment for dressings, providers must bill the appropriate HCPCS code for each dressing item, along with the local modifier –1S for each item.

Surgical dressing supplies and codes billed without the local modifier –1S are considered bundled and will not be paid. The department or Self-Insurer may audit the use of these modifiers to ensure appropriate usage and billing.

HOT AND COLD PACKS OR DEVICES

Application of hot or cold packs (CPT® code 97010) is bundled for all providers. WAC 296-20-1102 prohibits payment for heat devices for home use (this includes heating pads). These devices are either “bundled” or not covered (see appendices at the end of this document).

OTHER SERVICES

AUDIOLOGY SERVICES

A physician’s prescription is required and prior authorization must be obtained from the department or Self-Insurer for all hearing related services and devices, in accordance with WAC 296-20-03001 and WAC 296-20-1101.

Hearing Aid Replacement Policy

The department will only replace hearing aids when a defective hearing aid cannot be repaired or when the department determines that an injured worker’s hearing loss has worsened due to continued on-the-job exposure.

If an injured worker’s hearing loss worsens and the hearing aid is no longer effective for the hearing loss, a new claim must be filed. If the new degree of hearing loss was due to continued on-the-job exposure, the claim can be accepted. If the increased loss is not due to on-the-job noise exposure the claim will be denied. The department does not pay for new hearing aids for: hearing loss resulting from noise exposure that occurs outside the workplace, non-work related diseases and conditions, or the natural aging process.

Repairs and Warranties

Hearing aid industry standards provide a minimum of a one-year warranty on most hearing aid devices, **including parts and labor**. The department or Self-Insurer will not pay for any repairs within the first twelve months.

The department will repair the hearing aid when the repair is related to normal wear or a work related incident that causes the unit to fail. The department at its sole discretion may authorize the replacement of a hearing aid in lieu of repairing the unit.

Providers must indicate in the medical or office record the length of the manufacturer’s warranty and what it covers. This information must be submitted to the insurer for all hearing aid devices and hearing aid repairs provided to injured workers.

Some wholesale companies also include a replacement policy to pay for lost hearing aids. If the wholesaler/manufacturer includes loss under its warranty, the provider must honor the warranty and replace the worker's lost hearing aid without charge.

The department may replace the hearing aid exterior (mold) when an injured worker has ear canal changes or the mold is cracked. The department will not pay for a new set of hearing aids when only a new ear mold is needed.

Injured workers who lose or damage their hearing aids in non-work related accidents or mishaps are responsible for the expenses associated with these types of losses or damages when the manufacturer's warranty expires.

Audiology Billing Codes

All hearing aids and supplies must be billed using the following local codes. The department will only purchase the hearing aids described in these local codes. The department does not purchase 100% digital hearing aids.

AFTER HOURS SERVICES

After hours services are payable in addition to other services only when the provider's office is not regularly open during the time the service is provided. The medical record must document the medical necessity and urgency of the service. *Only one of these codes will be paid per patient per day.*

These services include:

CPT®	Abbreviated Description
99050	Medical services after hrs
99052	Medical services at night
99054	Medical services, unusual hrs

INTERPRETER SERVICES

These local codes are for use by interpreters who provide language communication between injured workers and medical or vocational service providers. Refer to Provider Bulletin 99-09 for complete payment and eligibility information.

Family members, friends, medical, health care and vocational providers may provide interpretive services, but are not eligible to receive payment. Attorneys, employees of law firms, and agents of the employer of injury are not eligible to interpret or be paid for interpretive services.

When interpreter services are provided for two or more injured workers concurrently, time must be prorated among the claims. Wait time and mileage in connection with multiple claims must also be prorated. Total time billed for interpreter services and wait time for all claims must not exceed actual time spent interpreting and waiting. Total mileage billed for all claims must not exceed the total miles driven.

9980M	Interpreter services, per 15 minutes	\$15.18
9981M	Wait time/form completion, per 15 minutes (maximum of 30 minutes per date of services)	\$15.18
9982M	Interpreter, IME no show, per 15 minutes (maximum of 30 minutes per date of service)	\$15.18
9986M	Interpreter mileage, per mile	state rate
9987M	Documentation translation at insurer request only, per 15 minutes (prior authorization required for each document)	\$15.18

MEDICAL TESTIMONY AND DEPOSITIONS

These local codes are for use by any provider requested by the Office of the Attorney General or the Self-Insurer to provide testimony or deposition. Bills for these services should be submitted directly to the Office of the Attorney General or Self- Insurer.

Local codes 1049M, 1050M, 1053M, and 1054M are calculated on a “portal to portal” basis i.e., from the time you leave your office until you return. This does not include side trips.

The time calculation for testimony or deposition done in the provider’s office or via phone is based upon the actual face-to-face time consumed for the testimony or deposition.

Code	Description	Maximum Fee
1049M	Medical testimony approved in advance by Office of the Attorney General, first hour	\$384.41
1050M	Each additional 30 minutes	\$128.14
1053M	Deposition approved in advance by Office of Attorney General, first hour	\$320.35
1054M	Each additional 30 minutes	\$107.31

NURSE CASE MANAGEMENT

All nurse case management services require prior authorization. Refer to Provider Bulletin 98-01 for a complete description of the services, provider qualifications and billing instructions.

The following local codes and fees apply to nurse case management services:

Code	Description	Maximum Fee
1220M	Phone calls per 6 minute unit	\$8.38
1221M	Visits per 6 minute unit	\$8.38
1222M	Case planning per 6 minute unit	\$8.38
1223M	Travel/Wait per 6 minute unit	\$4.12
1224M	Mileage per mile	state rate
1225M	Expenses (parking, ferry, toll fees, lodging and airfare) at cost or state per diem rate (lodging)	

Nurse case management services are capped at 50 hours of service including professional and travel/wait time. An additional 25 hours may be authorized after staffing with the insurer. Further extensions may be granted in exceptional cases contingent upon review by the insurer.

REPORTS AND FORMS

The fees listed below include postage for sending the document to the department or Self-Insurer.

More information on some of the reports and forms listed below is provided in WAC 296-20-06101. Some department forms are available online at www.lni.wa.gov/forms. Some forms are available by completing the Medical Forms Request card included at the end of this document or online at the above web site. Special reports and forms will be sent by the department or Self-Insurer when required. All reports and forms may be requested from the Provider Hotline 1-800-848-0811.

1055M	Occupational Disease History Form	\$159.57	Must be requested by insurer. Payable only to attending doctor. Includes review of claimant information and preparation of report on relationship of occupational history to present condition (s).
1056M	Supplemental Medical Report (SMR)	\$15.65	Must be requested by insurer. Payable only to attending doctor. Limit of one per day.
1057M	Opioid Progress Report Supplement	\$15.65	Paid when the worker is prescribed opioids for chronic, non-cancer pain. Must be submitted at least every 60 days. See 296-20-03021 and Provider Bulletin 00-04. Limit of one per day.
1063M	Attending Doctor Review of Independent Medical Exam (IME)	\$33.78	Must be requested by insurer. Payable only to attending doctor. Limit of one per request.
1064M	Initial report documenting need for opioid treatment	\$33.08	Paid when initiating opioid treatment for chronic, non-cancer pain. See WAC 296-20-03020 and Provider Bulletin 00-04 for what to include in the report.

COPIES OF MEDICAL RECORDS

Providers may bill for copies of medical records when requested by the department or Self-Insurer. This fee is only payable to providers providing care or services to an injured worker. It is not payable to commercial copy centers or printers who reproduce records for providers.

Code	Description	Maximum Fee
1051M	Copies of medical records, payable to any provider when requested by the department or Self-insurer or their representative(s); not payable when required to support billing for services performed, per page. Fee includes all costs including postage.	\$0.42

PROVIDER MILEAGE

Providers may bill for mileage when round trip exceeds 14 miles.

Code	Description	Maximum Fee
1046M	Mileage, per mile; allowed when round trip exceeds 14 miles	\$4.23

REVIEW OF JOB OFFERS AND JOB ANALYSES

A job offer is based on an employer's desire to offer a specific job to a worker. The job offer may be based on a job description or a job analysis.

A **job description** is an employer's brief evaluation of a specific job or type of job that the employer intends to offer a worker.

A **job analysis (JA)** is a detailed evaluation of a specific job or type of job. A job analysis is used during vocational services to help determine the types of jobs a worker could reasonably perform considering the worker's skills, work experience, non-work related skills, and physical limitations. The job evaluated in the JA may or may not be offered to the worker and it may or may not be linked to a specific employer.

Only attending doctors will be paid for review of job descriptions or job analyses. A job description/job analysis review may be performed at the request of the State Fund employer, the insurer, a vocational rehabilitation counselor (VRC), or third party administrator (TPA) acting for the insurer or the employer. Reviews requested by other persons (e.g. attorneys or injured workers) will not be paid. This service does not require prior authorization and is payable in addition to other services performed on the same day. Refer to the job offer guideline under WAC 296-19A guidelines (<http://www.lni.wa.gov/hsa/vocational.htm>.) for more information about job offers.

Code	Report/Form	Maximum Fee	Special notes
1038M	Review of Job Descriptions or Job Analysis	\$33.08	Payable only to attending doctor. Must be requested by insurer, State Fund employer or vocational counselor. Limit of one per day.
1028M	Review of Job Descriptions or Job Analysis, each additional review	\$16.54	Payable only to attending doctor. Must be requested by insurer, State Fund employer or vocational counselor. Limit of 5 per claimant per day. Bill to the department - see Provider Bulletin 96-10.

VEHICLE, HOME AND JOB MODIFICATIONS

Vehicle, home and job modification services require prior authorization. Refer to Provider Bulletins 96-11 for home modification information and 99-11 for job modification and pre-job accommodation information.

Code	Description	Maximum Fee
8914H	Home modification, construction and design	Maximum payable for all work is the current Washington state average annual wage
8915H	Vehicle modification	Maximum payable for all work is ½ current Washington state average wage
8916H	Home modification evaluation and consultation	BR
8917H	Home/vehicle modification mileage, lodging, airfare, car rental	State rates
8918H	Vehicle modification initial evaluation or consultation	BR
8920H	Vehicle modification follow up consultation	BR
0380R	Job modification (equipment etc.)	Maximum allowable for 0380R and 0385R combined is \$5000
0385R	Pre-job accommodation (equipment etc.)	

VOCATIONAL SERVICES

Vocational Rehabilitation providers should use the codes listed in this section to bill for services. For more detailed information on billing, consult Miscellaneous Services Billing Instructions and Provider Bulletin 01-03.

All vocational rehabilitation services require prior authorization. Vocational rehabilitation services are authorized by referral type. The five referral types the department uses are: early intervention, assessment, plan development, plan implementation and forensic. Each referral is a separate authorization for services.

The department will pay interns at 85% of the VRC professional rate and forensic evaluators at 120% of the VRC professional rate. Hourly rates for professional vocational services are as follows: Vocational Rehabilitation Counselors, \$75.70 per hour; Interns \$64.35 per hour; and Forensic Evaluators, \$91.20 per hour. Please note, however, vocational services must be billed in six-minute time increments, or ten units per hour.

Early Intervention

0800V	Early Intervention Services, VRC (per 6 minutes)	\$7.57
0801V	Early Intervention Services, Intern (per 6 minutes)	\$6.43

Assessment

0810V	Assessment Services, VRC (per 6 minutes)	\$7.57
0811V	Assessment Services, Intern (per 6 minutes)	\$6.43

Vocational Evaluation

0821V	Work Evaluation, VRC (per 6 minutes)	\$7.57
0823V	Pre-Job or Modification Consultation, VRC (per 6 minutes)	\$7.57
0824V	Pre-job or Job Modification Consultation, Intern (per 6 minutes)	\$6.43

Plan Development

0830V	Plan Development Services, VRC (per 6 minutes)	\$7.57
0831V	Plan Development Services, Intern (per 6 minutes)	\$6.43

Plan Implementation

0840V	Plan Implementation Services, VRC (per 6 minutes)	\$7.57
0841V	Plan Implementation Services, Intern (per 6 minutes)	\$6.43

Forensic and Testimony

0881V	Forensic Services, Forensic VRC (per 6 minutes)	\$9.12
0882V	Testimony on VRC's Own Work, VRC (per 6 minutes)	\$7.57
0883V	Testimony on Intern's Own Work, Intern (per 6 minutes)	\$6.43
0884V	AGO Witness Testimony, VRC (per 6 minutes)	\$7.57

Travel, Wait Time, and Mileage

0891V	Travel/Wait Time, VRC or Forensic VRC (per 6 minutes)	\$3.78
0892V	Travel/Wait Time – Intern (per 6 minutes)	\$3.78
0893V	Professional Mileage, VRC (per mile)	state rate
0894V	Professional Mileage, Intern (per mile)	state rate
0895V	Air Travel, VRC, Intern, or Forensic VRC	BR

Fee Caps

Vocational services are subject to the fee caps. These caps are hard caps, with no exceptions. The following fee caps are by referral. All services provided for the referral are included in the cap.

Early Intervention Referral Cap	\$1550.
Assessment Referral Cap	\$2590.
Plan Development Referral Cap	\$5180.
Plan Implementation Referral Cap	\$4900.

The fee cap for work evaluation services applies to multiple referral types. Total payment for work evaluation services provided under all referral types will not exceed \$1140. For example, if \$500 of work evaluation services are paid as part of a plan development referral, only \$640 is available for payment under another referral type.

Work Evaluation Services Cap	\$1140.

Facility Services

This section contains payment policies and information for facility services.

All providers must follow the administrative rules, medical coverage decisions and payment policies contained within the *Medical Aid Rules and Fee Schedules*, *Provider Bulletins*, and *Provider Updates*. If there are any services, procedures, or text contained in the CPT® and HCPCS coding books that are in conflict with the *Medical Aid Rules and Fee Schedules*, the department's rules and policies apply (WAC 296-20-010). All policies in this document apply to claimants receiving benefits from the State Fund, the Crime Victims Compensation Program and Self-Insurers unless otherwise noted.

Questions may be directed to the Provider Hotline at 1-800-848-0811.

HOSPITAL PAYMENT POLICIES

HOSPITAL PAYMENT POLICIES OVERVIEW

Hospital payment policies established by the department are reflected in Washington Administrative Code **Chapters 296-20, 296-21, 296-23, 296-23A**, Provider Bulletin 01-13, and the Hospital Billing Instructions.

The Washington State Department of Labor and Industries, or Self-Insured employer, will pay for the costs of proper and necessary hospital services associated with an accepted industrial injury. No co-payments or deductibles are required or allowed from injured workers.

HOSPITAL BILLING REQUIREMENTS

All charges for hospital inpatient and outpatient services provided to injured workers must be submitted on the UB-92 billing form following the **UB-92 National Uniform Data Element Specifications**.

Hospitals are responsible for establishing criteria to define inpatient and outpatient services.

All inpatient bills will be evaluated according to the department's Utilization Review Program.

Inpatient bills submitted without a treatment authorization number may be selected for retrospective review.

See www.lni.wa.gov/hsa for the most current Hospital Billing Instructions.

HOSPITAL INPATIENT PAYMENT INFORMATION

State Fund

Services for hospital inpatient care provided to injured workers covered by the State Fund are paid using three payment methods:

1. An All Patient Diagnosis Related Group (AP-DRG) system. See WAC 296-23A-0470 for exclusions and exceptions. The current AP-DRG Grouper version is 14.1.
2. A statewide Per Diem rate for those AP-DRGs that have low volume or for inpatient services provided in Washington rural hospitals.
3. Percent-of Allowed Charges (POAC) for hospitals excluded from the AP-DRG system.

The following table provides a summary of how the above methods are applied.

Hospital Type or Location	Payment Method for Hospital Inpatient Services
Hospitals not in Washington	Paid by an Out-of-State POAC factor. Effective July 1, 2002 the rate is 64.2% .
Washington Excluded Hospitals: <ul style="list-style-type: none"> • Children's Hospitals • Health Maintenance Organizations (HMOs) • Military Hospitals • Veterans Administration • State Psychiatric Facilities 	Paid 100% of allowed charges.
<ul style="list-style-type: none"> • Washington Rural Hospitals [Department of Health (DOH) Peer Group 1] 	Paid using Washington state-wide per diem rates for designated AP-DRG categories, including: <ul style="list-style-type: none"> • Chemical dependency • Psychiatric • Rehabilitation • Medical and • Surgical.
All other Washington Hospitals	Paid on a per case basis for admissions falling within designated AP-DRGs. For low volume AP-DRGs, Washington hospitals are paid using the statewide per diem rates for designated AP-DRG categories, including: <ul style="list-style-type: none"> • Chemical dependency • Psychiatric • Rehabilitation • Medical and • Surgical See www.lni.wa.gov/hsa for the current AP-DRG list and assignments.

Hospital Inpatient AP-DRG Base

Effective **July 1, 2002** the AP-DRG Base Rate is **\$7,151.25**.

The AP-DRG Assignment list with AP-DRG codes and descriptions and length of stay is in the Fee Schedules section and online at www.lni.wa.gov/hsa.

Hospital Inpatient AP-DRG Per Diem Rates

Effective July 1, 2002 the AP-DRG Per-Diem Rates are as follows:

PAYMENT CATEGORY	RATE	DEFINITION
Psychiatric AP-DRG Per Diem	<u>\$865.60</u> Multiplied by the number of days allowed by the department. Payment will not exceed allowed billed charges.	AP-DRG Numbers 424-432.
Chemical Dependency AP-DRG Per Diem	<u>\$660.62</u> Multiplied by the number of days allowed by the department. Payment will not exceed allowed billed charges.	AP-DRGs Numbers 743-751.
Rehabilitation AP-DRG Per Diem	<u>\$1,266.87</u> Multiplied by the number of days allowed by the department. Payment will not exceed allowed billed charges.	AP-DRG Number 462.
Medical AP-DRG Per Diem	<u>\$1,445.41</u> Multiplied by the number of days allowed by the department. Payment will not exceed allowed billed charges.	AP-DRGs identified as medical
Surgical AP-DRG Per Diem	<u>\$2,185.97</u> Multiplied by the number of days allowed by the department. Payment will not exceed allowed billed charges.	AP-DRGs identified as surgical

For information on how specific rates are determined see Chapter 296-23A in the Medical Aid Rules and Fee Schedules.

Additional Hospital Inpatient Rates

PAYMENT CATEGORY	RATE	DEFINITION
Transfer-out Cases	<p>Unless the transferring hospital's charges qualify for low outlier status, the stay at this hospital is compared to the AP-DRG's average length of stay.</p> <p>If the patient's stay is less than the average length of stay, a "per-day rate" is established by dividing the AP-DRG payment amount by the average length of stay for the AP-DRG. Payment for the first day of service is two times the "per-day rate." For subsequent allowed days, the basic per-day rate will be paid.</p> <p>If the patient's stay is equal to or greater than the average length of stay, the AP-DRG payment amount will be paid.</p>	A transfer is defined as an admission to another acute care hospital within 7 days of a previous discharge.
Low Outlier Cases (costs are less than the threshold)	Hospital Specific Percent of Allowed Charge (POAC) Factor multiplied by allowed billed charges.	Cases where the cost* of the stay is less than ten percent (10%) of the statewide AP-DRG rate or \$ 500.00, whichever is greater.
High Outlier Cases (costs are greater than the threshold)	AP-DRG payment rate plus 100% of costs in excess of the threshold.	Cases where the cost* of the stay exceeds \$12,000.00 or two standard deviations above the statewide AP-DRG rate, whichever is greater.

*Costs are determined by multiplying the allowed billed charges by the hospital specific POAC factor.

Self-Insured

Services for hospital inpatient care provided to injured workers covered by self-insured employers are paid using a hospital-specific POAC factor. See WAC 296-23A-0210.

Crime Victims

Services for hospital inpatient care provided to crime victims covered by the Crime Victims Compensation Program are paid using Medicaid POAC factors. See WAC 296-30-090.

HOSPITAL OUTPATIENT PAYMENT INFORMATION

Services for hospital outpatient care provided to injured workers covered by the State Fund are paid using three payment methods:

1. Ambulatory Payment Classification (APC) system. See WAC 296-23A Section 4, and Provider Bulletin 01-13 for a description of the department's APC system.
2. An amount established through the department's Professional Fee Schedule for items not covered by the APC system.
3. Percent of Allowed Charges (POAC) for hospital outpatient services not paid by either the APC system or with an amount from the Professional Fee Schedule.

The following table provides a summary of how the above methods are applied.

Hospital Type or Location	Payment Method, Hospital Outpatient Services
Hospitals not in Washington	Paid by an Out-of-State POAC factor. Effective July 1, 2002 the rate is 64.2% .
Washington Excluded Hospitals: <ul style="list-style-type: none"> • Children's Hospitals • Military Hospitals • Veterans Administration • State Psychiatric Facilities 	Paid 100% of allowed charges.
<ul style="list-style-type: none"> • Rehabilitation Hospitals • Cancer Hospitals • Rural Hospitals (DOH Peer Group 1) • Critical Access Hospitals • Private Psychiatric Facilities 	Paid a facility-specific POAC
All other Washington Hospitals	Paid on a per APC basis for services falling within designated APCs. For non-APC paid services, Washington hospitals are paid using an appropriate Professional Services Fee Schedule amount, or a facility-specific POAC*.

*Hospitals will be sent their individual POAC and APC rate each year.

Self-Insured

Services for hospital outpatient care provided to injured workers covered by self insured employers are paid using facility-specific POAC factor or the appropriate Professional Services Fee Schedule amount, (see WAC 296-23A-0221).

Crime Victims

Services for hospital outpatient care provided to crime victims covered by the Crime Victims Compensation Program are paid using either Medicaid POAC factors or the Professional Services Fee Schedule amount, (see WAC 296-30-090).

Note: HCPCS code Q0081 listed as non-covered in the fee schedule will be covered for hospitals until the Centers for Medicare and Medicaid Services (CMS) issues a more appropriate code.

AMBULATORY SURGERY CENTER (ASC) PAYMENT POLICIES

Information about the department's requirements for ASCs can be found in WAC 296-23B and Provider Bulletin 01-12. These are available online at <http://www.lni.wa.gov/hsa>.

ASC SERVICES INCLUDED IN THE FACILITY PAYMENT

Facility payments for ASCs include the following services, which are not paid separately:

- Nursing, technician and related services.
- Use by the recipient of the facility, including the operating room and the recovery room.
- Drugs, biologics, surgical dressings, supplies, splints, casts and appliances and equipment directly related to the provision of surgical procedures.
- Diagnostic or therapeutic services or items directly related to the provision of a surgical procedure.
- Administration, record keeping, and housekeeping items and services.
- Intraocular lenses.
- Materials for anesthesia.
- Blood, blood plasma and platelets.

ASC SERVICES NOT INCLUDED IN THE FACILITY PAYMENT

Facility payments for ASCs do not include the following services, which are paid separately:

- Professional services including physicians.
- Laboratory services.
- X-Ray or diagnostic procedures (other than those directly related to the performance of the surgical procedure).
- Prosthetics and Implants (except intraocular lenses).
- Ambulance services.
- Leg, arm, back and neck braces.
- Artificial limbs.
- Durable Medical Equipment (DME) for use in the patient's home.

ASC PROCEDURES COVERED FOR PAYMENT

The department will use the Centers for Medicare and Medicaid Services (CMS) list of procedures covered in an ASC plus additional procedures as determined by the department. All procedures covered in an ASC are listed in the *Medical Aid Rules and Fee Schedules, Ambulatory Surgery Center Fee Schedule* section.

The department has decided to expand the list that CMS established for allowed procedures in an ASC. There are three areas where the list has been expanded:

1. Labor & Industries will cover surgical procedures that other Washington State agencies cover in ASCs and that meet L&I's coverage policies.

2. Labor & Industries will cover surgical procedures that CMS covers in its hospital outpatient prospective payment system called Ambulatory Payment Classifications (APCs) that are not on the CMS ASC list and that meet L&I's coverage policies.
3. Labor & Industries will cover some procedures in an ASC that CMS covers only in an inpatient setting, if the following criteria are met:
 - a. The surgeon deems that it is safe and appropriate to perform such a procedure in an outpatient setting; and
 - b. The procedure meets the department's utilization review requirements.

ASC PROCEDURES NOT COVERED FOR PAYMENT

Procedures that are not listed in the *Ambulatory Surgery Center Fee Schedule* section of the *Medical Aid Rules and Fee Schedules* are not covered in an ASC.

ASCs will not receive payment for facility services for minor procedures that are commonly done in an office setting or treatment room. See below for exceptions to this policy. The professional performing such procedures may still bill for the professional component of such procedures.

Process to Obtain Approval for a Non-Covered Procedure

Under certain conditions, the director, the director's designee, or self-insurer, in their sole discretion, may determine that a procedure not on the department's ASC procedure list may be authorized in an ASC. For example, when a procedure could be harmful to a particular patient unless performed in an ASC. Requests for coverage under these special circumstances require prior authorization.

The health care provider must submit a written request and obtain approval from the department or self-insurer, prior to performing any procedure not on the ASC procedure list. The written request must contain a description of the proposed procedure with associated procedure codes, the reason for the request, the potential risks and expected benefits, and the estimated cost of the procedure. The healthcare provider must provide any additional information about the procedure requested by the department or self-insurer.

ASC BILLING INFORMATION

Modifiers accepted for ASCs

The SG modifier may accompany all CPT® and HCPCS codes.

The department will accept modifiers listed in the CPT® and HCPCS books including those listed as approved for ASCs. Only modifiers affecting payment are listed below:

-50 Bilateral surgery

Modifier -50 identifies cases where a procedure typically performed on one side of the body is performed on both sides of the body during the same operative session. Providers must bill using two line items on the bill form. The modifier -50 should be applied to the second line item. The second line item will be paid at 50% of the allowed amount for that procedure.

Example: Bilateral Procedure

Line item on bill	CPT® code/modifier	Maximum payment (Group 2)	Bilateral policy applied	Allowed amount
1	64721- SG	\$1,130.28		\$1,130.28 (1)
2	64721 – SG - 50	\$1,130.28	\$565.14 (2)	\$565.14
Total allowed amount				\$1695.42 (3)

- Notes:
1. First line item is paid at 100% of maximum allowed amount.
 2. When applying the bilateral payment policy the second line item billed with a modifier -50 is paid at 50% of the maximum allowed amount for that line item.
 3. Represents total allowable amount.

-51 Multiple surgery

Modifier -51 identifies when multiple surgeries are performed on the same patient at the same operative session. Providers must bill using two line items on the bill form. The modifier -51 should be applied to the second line item. The total payment equals the sum of:

100% of the maximum allowable fee for the highest valued procedure according to the fee schedule.

50% of the maximum allowable fee for the subsequent procedures with the next highest values, according to the fee schedule.

Example: Multiple Procedures

Line item on bill	CPT® code/modifier	Maximum payment (Groups 9 & 2)	Multiple policy applied	Allowed amount
1	29881 – SG	\$2,107.75		\$2,107.75 (1)
2	64721 – SG - 51	\$1,130.28	\$565.14 (2)	\$565.14
Total allowed amount				\$2672.89 (3)

- Notes:
1. Highest valued procedure is paid at 100% of maximum allowed amount.
 2. When applying the multiple procedure payment policy the second line item billed with a modifier -51 is paid at 50% of the maximum allowed amount for that line item.
 3. Represents total allowable amount.

-73 Discontinued procedure prior to the administration of anesthesia

Modifier –73 is used when a physician cancels a surgical procedure due to the onset of medical complications subsequent to the patient's preparation, but prior to the administration of anesthesia. Payment will be at **50%** of the maximum allowable fee. Multiple and bilateral procedure pricing will apply to this, if applicable.

-74 Discontinued procedure after administration of anesthesia

Modifier –74 is used when a physician terminates a surgical procedure due to the onset of medical complications after the administration of anesthesia or after the procedure was started. Payment will be at **100%** of the maximum allowable fee. Multiple and bilateral procedure pricing will apply to this, if applicable.

-99 Multiple modifiers

This modifier should only be used when two or more modifiers affect payment. Payment is based on the policy associated with each individual modifier that describes the actual services performed. For billing purposes, only modifier -99 should go in the modifier column, with the individual descriptive modifiers that affect payment listed in the remarks section of the billing form.

Implants

Implants should be billed on a separate line. The following HCPCS implant codes are covered by the department: L8500 through L8699. ASCs will be paid acquisition cost for implants.

Exception:

L8603 has a maximum fee and pays the lesser of the maximum fee or acquisition cost.

Exception:

Intraocular lenses, including new technology lenses, are bundled into the fee for the associated procedure. Please include the cost of the lens in the charge for the procedure. It is permissible to include a line on the bill with the HCPCS code for an intraocular lens (i.e. V2630, V2631, V2632) and its associated cost, for information purposes only.

Acquisition Costs Policy:

The acquisition cost equals the wholesale cost plus shipping, handling, and sales tax. These items should be billed together as one charge. For taxable items, an itemized listing of the cost plus sales tax may be attached to the bill, but is not required.

Wholesale invoices for all supplies and materials must be retained in the provider's office files for a minimum of five years. A provider must submit a hard copy of the wholesale invoice to the department or self-insurer when an individual supply costs \$150.00 or more, or upon request. The insurer may delay payment of the provider's bill if the insurer has not received this information.

Example: Procedure with Implant

Line item on bill	CPT® code/modifier	Maximum payment (Group 9)	Allowed amount
1	29851- SG	\$2,107.75	\$2,107.75 (1)
2	L8699	\$150.00 (acquisition cost)	\$150.00 (2)
Total allowed amount			\$2,257.75 (3)

- Notes:
1. Procedure is paid at 100% of maximum allowed amount.
 2. Represents the total of wholesale implant cost plus associated shipping, handling, and taxes.
 3. Represents total allowable amount.

Do not use the temporary “C” HCPCS codes, as that will cause the bill to be denied.

Spinal Injections

Injection procedures are billed in the same fashion as all other surgical procedures with the following considerations.

For purposes of multiple procedure discounting, each procedure in a bilateral set is considered to be a single procedure.

For injection procedures which require the use of radiographic localization and guidance, ASCs must bill for the technical component of the radiologic CPT® code (e.g. 76005 – TC) to be paid for the operation of a fluoroscope or C-arm. Maximum fees for the technical components of the radiologic codes are listed in the *Radiology* section of the *Medical Aid Rules and Fee Schedules*.

Example: Injection Procedures

Line item on bill	CPT® code/modifier	Maximum payment (Groups 1)	Bilateral/Multiple policies applied	Allowed amount
1	64470 – SG	\$843.10		\$843.10 (1)
2	64470 – SG - 50	\$843.10	\$421.55 (2)	\$421.55
3	64472 – SG	\$843.10	\$421.55 (3)	\$421.55
4	64472 – SG - 50	\$843.10	\$421.55 (2)	\$421.55
5	76005 –TC	\$65.66		\$65.66 (4)
Total allowed amount				\$2,173.41 (5)

- Notes:
1. Highest valued procedure is paid at 100% of maximum allowed amount.
 2. When applying the bilateral procedure payment policy the second line item billed with a modifier -50 is paid at 50% of the maximum allowed amount for that line item.
 3. The multiple procedure payment policy is applied to subsequent procedures billed on the same day and are paid at 50% of the maximum allowed amount for that line item.
 4. This is the fee schedule maximum allowed amount for the fluoroscopic localization and guidance.
 5. Represents total allowable amount.

ASC PAYMENTS FOR SERVICES

The department pays the lesser of the billed charge (the ASC's usual and customary fee) or the department's maximum allowed rate.

The department's rates are based on a modified version of the grouping system developed by Medicare for ASC services. Medicare's grouping system was originally intended to group procedures with similar resource use together into payment categories. The department has modified Medicare's grouping system to fit a workers' compensation population.

Surgical services have been divided into 9 payment groups, each with an associated maximum fee.

**ASC Maximum Allowable Fee
by Group Number**

Group	Fee
1	\$843.10
2	\$1,130.28
3	\$1,293.63
4	\$1,596.63
5	\$1,817.95
6	\$2,107.75
7	\$2,521.40
8	\$2,481.80
9	\$2,107.75

Some services that do not belong to a payment group have a maximum fee. Other allowed services that are not part of a payment group are paid on a "by report" basis.

Payment groups and rates for allowed procedures are listed in the Ambulatory Surgery Center Fee Schedule.

BRAIN INJURY REHABILITATION SERVICES

Only programs accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF) may provide post-acute brain injury rehabilitation services for injured workers. These services require prior authorization. Follow-up care is included in the cost of the full day or half day program. This includes, but is not limited to telephone calls, home visits and therapy assessments. Refer to Provider Bulletins 98-02 and 98-04 for more information.

Non-hospital based programs must bill the following **local** codes:

8950H	Comprehensive brain injury evaluation	\$3,612.95
8951H	Post-acute brain injury rehabilitation full day program, per day (minimum of 6 hours per day)	\$645.17
8952H	Post-acute brain injury rehabilitation half day program, per day (minimum 4 hours per day)	\$387.11

Hospital based programs must bill the following **revenue** codes:

014	Comprehensive brain injury evaluation	\$3,612.95
015	Full day program, per day (minimum 6 hours per day)	\$645.17
016	Half day program, per day (minimum 4 hours per day)	\$387.11

NURSING HOME, HOSPICE AND RESIDENTIAL CARE

NURSING HOME, HOSPICE AND RESIDENTIAL CARE

Only licensed nursing homes, hospice or other residential care providers will be paid.

Group homes and other residential care settings may be approved by the insurer on a case by case basis depending on the worker's needs. Assisted living is not a covered service.

Medically necessary skilled nursing care and custodial care are covered for the worker's accepted industrial injury or illness. Daily rate fees are negotiated between the facility and the insurer based on the Medicaid and Medicare rates for services provided. Occupational, physical and speech therapies are included in the daily rate and are not separately payable. Pharmacy and DME are payable when billed separately using appropriate HCPCS codes.

Column Title	Title Explanation	Indicator	Indicator Description
CPT® CODE/ ASA CODE	Anesthesia Code		2002 CPT® or ASA anesthesia code. ASA codes are from the American Society of Anesthesiologists' Relative Value Guide (ASARVG). Only the ASA codes listed in this section are accepted by the department. All other anesthesia services should be billed using CPT® codes and descriptions.
ABBREVIATED DESCRIPTION			Abbreviated code description for reference purposes only. Refer to a 2002 CPT® book for complete CPT® code descriptions. Refer to a 2002 ASARVG for complete ASA code descriptions.
ANES BASE	Anesthesia Base Units	Number or N/A	Anesthesia base units for procedures priced with anesthesia base and time units. Procedures that are not covered or that are priced by another payment method have "N/A" in this field.
BASE SOURCE	Source of Anesthesia Base Units	Base units source or N/A	This field indicates the source for the department's anesthesia base units. Procedures that are not priced with base and time units have "N/A" in this field.
		CMS	Base units source is the Centers for Medicare and Medicaid Services.
		ASA	Base units source is the American Society of Anesthesiologists Relative Value Guide.
		RSC	Base units developed by the Interagency Reimbursement Steering Committee with input from the Anesthesia Technical Advisory Group.
MAX FEE OR COVERAGE	Maximum fee or coverage status	Dollar value, pricing method or coverage	Indicates the maximum allowable amount, pricing method or coverage status for procedures not priced with anesthesia base and time units.
		Dollar Value	The maximum allowable dollar amount. Units of service for these services should be based on the number of times the procedure is performed, not on minutes of anesthesia.
		By Report	Services will be priced by report.
		Not Covered	Procedure not covered by the department.

CPT[®] CODE/ HCPCS CODE			2002 CPT [®] or HCPCS code
ABBREVIATED DESCRIPTION			Descriptions are abbreviated and are for reference purposes only. For complete descriptions, refer to a 2002 CPT [®] or HCPCS code book.
DOLLAR VALUE – NON-FACILITY SETTING		Dollar value, pricing method or coverage	This field contains the maximum dollar amount the department will pay for covered services provided in a non-facility setting or indicates the pricing method or coverage status.
		Dollar Value	Maximum dollar amount payable for covered services.
		AWP	Code priced based on Average Wholesale Price (AWP) or Average Average Wholesale Price (AAWP). Maximum fees are available from the Provider Hotline at 1-800-848-0811 and on the internet through the “Medical Aid Rules and Fee Schedules” link at http://www.lni.wa.gov/hsa/ .
		Bundled	Bundled code, not separately payable.
		By Report	Code priced by report.
		Contracted	Contracted service. Payable only to department’s contracted vendor for State Fund claims. Payable to providers treating Self-Insured injured workers.
		Info Only	Informational only. Used for outpatient prospective payment system.
		Not Covered	Non-covered code.
DOLLAR VALUE – FACILITY SETTING		Dollar value, pricing method or coverage	This field contains the maximum dollar amount the department will pay for covered services provided in a facility setting or indicates the pricing method or coverage status. See “Dollar Value – Non-Facility Setting” above, for indicator descriptions.
FOL UP	Follow-up days for global surgery	Number	This field indicates the number of days following surgery during which charges for normal postoperative care are bundled in the global surgery fee.
PRE OP	Preoperative Percentage (Modifier -56)	Percentage	Percent of total global surgery dollar value allowed when modifier -56 (Preoperative Management) is billed.

Column Title	Title Explanation	Indicator	Indicator Description
INTRA OP	Intraoperative Percentage (Modifier -54)	Percentage	Percent of total global surgery dollar value allowed when modifier -54 (Surgical Care) is billed.
POST OP	Postoperative Percentage (Modifier -55)	Percentage	Percent of total global surgery dollar value allowed when modifier -55 (Postoperative Management) is billed.
PCTC	Professional and Technical Component (Modifiers -26/-TC)	Number	This field identifies procedure codes that can be split into professional and technical components (PC/TC). Valid values for these field indicators include:
		0	Physician services only. The concept of PC/TC does not apply. <i>Modifiers -26 and -TC are not valid.</i>
		1	Diagnostic test or radiology service which has both a professional and technical component. <i>Modifiers -26 and -TC are valid.</i>
		2	Stand alone code that describes the professional component of a diagnostic test for which there is: a) an associated code that describes the technical component of the diagnostic test only and b) another associated code that describes the global procedure (the professional and technical components). <i>Modifiers -26 and -TC are not valid.</i>
		3	Stand alone code that describes the technical component of a diagnostic test for which there is: a) an associated code that describes the professional component of the diagnostic test only and b) another associated code that describes the global procedure (the professional and technical components). <i>Modifiers -26 and -TC are not valid.</i>
		4	Stand alone code that describes the global procedure for a diagnostic test for which there are associated codes that describe: a) the professional component of the test only, and b) the technical component of the test only. <i>Modifiers -26 and -TC are not valid.</i>
		5	Covered service that is incident to a physician's service when provided by auxiliary personnel employed by the physician and working under his/her direct personal supervision. Payment may not be made for this service when provided to hospital inpatients or outpatients. <i>Modifiers -26 and -TC are not valid.</i>

Column Title	Title Explanation	Indicator	Indicator Description
PCTC (continued)	Professional and Technical Component (Modifiers -26/-TC)	6	Clinical laboratory or other service for which separate payment for interpretations by laboratory physicians or other physicians may be made. <i>Modifier -TC is not valid for this procedure. Modifier -26 may be valid.</i>
		7	This indicator is not currently in use.
		8	Professional component of a clinical laboratory code for which separate payment may be made <i>only</i> if the physician interprets an abnormal smear for a hospital inpatient. <i>No -TC modifier billing is recognized</i> because payment for the underlying clinical laboratory test is made to the hospital. <i>No payment is recognized for these codes when furnished to hospital outpatients or non-hospital patients.</i>
		9	Concept of a professional/technical component split does not apply. <i>Modifiers -26 and -TC are not valid.</i>
MSI	Multiple Surgery Indicator (Modifier -51)	Number	This field indicates the multiple surgery payment rules that apply to the service. Multiple procedures are identified by modifier -51. Valid values for this field include:
		0	Payment adjustment rules for multiple surgery do not apply. <i>Modifier -51 is not valid.</i>
		1	This indicator is not currently in use.
		2	Standard multiple surgery payment policy applies (100%, 50%, 50%, 50%, 50%). <i>Modifier -51 is valid.</i>
		3	Multiple endoscopic procedures payment policy applies if this service is billed with another endoscopy in the same family. <i>Modifier -51 may be valid.</i>
		4	This indicator is not currently in use.
		9	Concept of multiple surgery does not apply. <i>Modifier -51 is not valid.</i>
BSI	Bilateral Surgery Indicator (Modifier -50)	Number	This field indicates that the procedure is subject to a payment adjustment for bilateral surgery. Bilateral procedures are identified by modifier -50. Valid values for this field include:
		0	Payment adjustment rule for bilateral surgery does not apply. <i>Modifier -50 is not valid for this procedure.</i>

Column Title	Title Explanation	Indicator	Indicator Description
BSI (continued)	Bilateral Surgery Indicator (Modifier -50)	1	Payment adjustment for bilateral procedures (150%) applies to this procedure. <i>Modifier -50 is valid.</i>
		2	Payment adjustment for bilateral procedures does not apply. Procedures in this category include services for which the code descriptor specifically states that the procedure is bilateral; procedures that are usually performed as bilateral procedures; or procedures for which the code descriptor indicates the procedures may be performed either unilaterally or bilaterally. <i>Modifier -50 is not valid.</i>
		3	Payment adjustment for bilateral procedure does not apply. This is a radiology procedure which is not subject to payment rules for bilateral surgeries. <i>Modifier -50 is not valid.</i>
		9	Concept of bilateral surgery does not apply. <i>Modifier -50 is not valid.</i>
ASI	Assistant Surgeon Indicator (Modifier -80)	Number	This field indicates whether or not an assistant surgeon may be paid for the procedure. Assistants at surgery are indicated by modifiers -80, -81 and -82. Valid values for this field include:
		0	Assistant at surgery is not usually paid for this procedure. Supporting documentation is necessary to establish medical necessity. <i>Modifiers -80, -81 and -82 are not valid under normal situations for this service.</i>
		1	Assistant at surgery may not be paid for this procedure. <i>Modifiers -80, -81 and -82 are not valid.</i>
		2	Assistant at surgery may be paid. <i>Modifiers -80, -81 and -82 are valid.</i>
		9	Concept does not apply. <i>Modifiers -80, -81 and -82 are not valid.</i>
CSI	Co-surgeons Indicator (Modifier -62)	Number	Indicates whether or not two surgeons, each in a different specialty, may be paid for the procedure. Co-surgeons are indicated by modifier -62. Valid values for this field include:
		0	Co-surgeons not permitted. <i>Modifier -62 is not valid with this procedure.</i>
		1	Co-surgeons may be paid for this procedure. Supporting documentation is required to establish medical necessity of two surgeons. <i>Modifier -62 is not valid under normal situations for this procedure.</i>

Column Title	Title Explanation	Indicator	Indicator Description
CSI (continued)	Co-surgeons Indicator (Modifier -62)	2	Co-surgeons may be paid for this procedure. No supporting documentation is required if two specialty requirement is met. <i>Modifier -62 is valid.</i>
		9	Concept of co-surgeons does not apply. <i>Modifier -62 is not valid.</i>
TSI	Team Surgeons Indicator (Modifier -66)	Number	Indicates whether or not team surgeons may be paid for the procedure. Team surgeons are indicated by modifier -66. Valid values for this field include:
		0	Team surgeons not permitted. <i>Modifier -66 is not valid with this procedure.</i>
		1	Team surgeons may be payable. Supporting documentation is required to establish medical necessity of a team. <i>Modifier -66 is not valid under normal situations for this procedure.</i>
		2	Team surgeons permitted. <i>Modifier -66 is valid.</i>
		9	Concept of team surgery does not apply. <i>Modifier -66 is not valid.</i>
ENDO BASE	Endoscopy Base Code	Code number	This column contains the endoscopic base code for procedure codes that are part of an endoscopy family. The Multiple Surgery Indicator for procedures in an endoscopy family is 3.
FSI	Fee Schedule Indicator	Letter	This column indicates the payment status. Valid values for this field include:
		B	Bundled code, not separately payable.
		C	Contracted service. Payable only to department's contracted vendor for State Fund claims. Payable to providers treating Self-Insured injured workers.
		D	Drug fee based on Average Wholesale Price (AWP) or Average Average Wholesale Price (AAWP). Maximum fees are available from the Provider Hotline at 1-800-848-0811 and on the internet through the "Medical Aid Rules and Fee Schedules" link at http://www.lni.wa.gov/hsa/ .
		F	Flat fee developed by the department
		L	Clinical lab fee
		N	No fee or RVUs available. code paid By Report
		R	RBRVS fee
		X	Non-covered code

APPENDIX C

BUNDLED SUPPLIES

Do not rely solely on the descriptions given in the appendices for complete coding information. Refer to a current CPT® or HCPCS book for complete coding information.

Items with an asterisk (*) are used as orthotics/prosthetics and may be paid separately for **permanent** conditions if they are provided in the physician's office. These items are not considered prosthetics if the condition is acute or temporary.

For example, Foley catheters and accessories for permanent incontinence or ostomy supplies for permanent conditions may be paid separately when provided in the physician's office. The Foley catheter used to obtain a urine specimen, used after surgery, or used to treat an acute obstruction would not be paid separately because it is treating a temporary problem. If a patient had an indwelling Foley catheter for permanent incontinence, and a problem developed which required the physician to replace the Foley, then the catheter would be considered a prosthetic/orthotic and would be paid separately.

Surgical dressings and other items dispensed for home use are separately payable when billed with local modifier –1S.

NON-COVERED MODIFIERS

All five-digit CPT[®] modifiers (e.g. 09951)

-AJ Clinical Social Worker

APPENDIX E

MODIFIERS THAT AFFECT PAYMENT

Only modifiers that affect payment are listed in this section. Refer to current CPT® and HCPCS books for complete modifier descriptions and instructions.

CPT® MODIFIERS

-22 Unusual services

Procedures with this modifier may be individually reviewed prior to payment. A report is required for this review. Payment varies based on the report submitted.

-24 Unrelated evaluation and management (E/M) services by the same physician during a postoperative period

Used to indicate an evaluation and management service unrelated to the surgical procedure was performed during a postoperative period. *Documentation must be submitted with the billing form when this modifier is used.* Payment is made at one hundred percent of the fee schedule level or billed charge, whichever is less.

-25 Significant, separately identifiable evaluation and management (E/M) service by the same physician on the day of a procedure

Payment is made at one hundred percent of the fee schedule level or billed charge, whichever is less. Refer to the Professional Services section for information on the use of modifier -25.

-26 Professional component

Certain procedures are a combination of the professional (-26) and technical (-TC) components. This modifier should be used when only the professional component is performed. When a global service is performed, neither the -26 nor the -TC modifier should be used.

-50 Bilateral surgery

The bilateral modifier identifies cases where a procedure typically performed on one side of the body is, in fact, performed on both sides of the body. Payment is made at one hundred fifty percent of the global surgery fee for the procedure. Providers must bill using two line items on the bill form. The modifier -50 should be applied to the second line item.

-51 Multiple surgery

For procedure codes that represent multiple surgical procedures, payment is made based on the fee schedule allowance associated with that code. Refer to the global surgery rules for additional information.

-52 Reduced services

Payment is made at the fee schedule level or billed charge, whichever is less.

-53 Discontinued services

CMS has established reduced RVUs for CPT® code 45378 when billed with modifier -53. The department prices this code-modifier combination according to those RVUs.

-54 Surgical care only *

When one physician performs a surgical procedure and another provides preoperative and/or postoperative management

-55 Postoperative management only *

When one physician performs the postoperative management and another physician has performed the surgical procedure.

-56 Preoperative management only *

When one physician performs the preoperative care and evaluation and another physician performs the surgical procedure.

* **When providing less than the global surgical package providers should use modifiers -54, -55, and -56.** These modifiers are designed to ensure that the sum of all allowances for all providers does not exceed the total allowance for the global surgery period. These modifiers allow direct payment to the provider of each portion of the global surgery services.

-57 Decision for surgery

Used only when the decision for surgery was made during the preoperative period of a surgical procedure with a global surgery follow-up period. It should not be used with visits furnished during the global period of minor procedures (0-10 day global period) unless the purpose of the visit is a decision for major surgery. Separate payment should be made even if the visit falls within the global surgery period. No separate documentation is needed when submitting a billing form with this modifier.

-60 Altered Surgical Field

Procedures with this modifier may be individually reviewed prior to payment. A report is required for this review. Payment varies based on the report submitted.

-62 Two surgeons

For surgery requiring the skills of two surgeons (usually with a different specialty), each surgeon is paid at 62.5% of the global surgical fee. No payment is made for an assistant-at-surgery in these cases.

-66 Team surgery

Used when highly complex procedures are carried out by a surgical team. This may include the concomitant services of several physicians, often of different specialties, other highly skilled, specially trained personnel, and various types of complex equipment. Procedures with this modifier are reviewed and priced on an individual basis. Supporting documentation is required for this review.

-78 Return to the operating room for a related procedure during the postoperative period

Payment is made at one hundred percent of the fee schedule level or billed amount, whichever is less.

-79 Unrelated procedure or service by the same physician during the postoperative period

Use of this modifier allows separate payment for procedures not associated with the original surgery. Payment is made at one hundred percent of the fee schedule level or billed amount, whichever is less.

-80 Assistant surgeon *

-81 Minimum assistant surgeon *

-82 Assistant surgeon (when qualified resident surgeon not available) *

- * **Assistant Surgeon Modifiers.** Physicians who assist the primary physician in surgery should use modifiers -80, -81 or -82 depending on the medical necessity. Payment for procedures with these modifiers is made at the billed charge or twenty percent of the global surgery amount for the procedure, whichever is less. Refer to the assistant surgeon indicator in the Professional Services Fee Schedule to determine if assistant surgeon fees are payable.

-91 Repeat clinical diagnostic laboratory test performed on the same day to obtain subsequent reportable test values(s) (separate specimens taken in separate encounters)

Payment will be made for repeat test(s) performed for the same patient on the same day when specimen(s) have been taken from separate encounters. Test(s) normally performed as a series, e.g. glucose tolerance test do not qualify as separate encounters. The medical necessity for repeating the test(s) must be documented in the patient record.

-99 Multiple modifiers

This modifier should only be used when two or more modifiers affect payment.

Payment is based on the policy associated with each individual modifier that describes the services performed. For billing purposes, only modifier -99 should go in the modifier column, with the individual descriptive modifiers that affect payment listed elsewhere on the billing form.

HCPCS MODIFIERS

-GT Teleconsultations via interactive audio and video telecommunication systems

Payment policies for teleconsultations are located in the Professional Services section.

-LT Left side

Although this modifier does not affect payment, it should be used when billing for bilateral services. This will help reduce duplicate bills and minimize payment delays.

-RT Right side

Although this modifier does not affect payment, it should be used when billing for bilateral services. This will help reduce duplicate bills and minimize payment delays.

-SG Ambulatory surgical center (ASC) facility service

Bill the appropriate CPT[®] surgical code(s) adding this modifier -SG to each surgery code.

-TC Technical component

Certain procedures are a combination of the professional (-26) and technical (-TC) components. This modifier should be used when only the technical component is performed. When a global service is performed, neither the -26 nor -TC modifier should be used. Refer to the CPT[®] modifier section for the use of the -26 modifier.

LOCAL MODIFIER

-1S Surgical dressings for home use

Bill the appropriate HCPCS code for each dressing item using this modifier -1S for each item. Use this modifier to bill for surgical dressing supplies dispensed for home use.

APPENDIX G

OUTPATIENT DRUG FORMULARY

The following is a list of the therapeutic classes (TCC) and their status in L&I's formulary. In most cases, the status is class specific rather than drug specific. An example of an exception to this general rule is therapeutic class code TCC – H2D Barbiturates. Phenobarbital is the only drug in the class that L&I will allow.

Please keep the following points in mind about the formulary:

- This is an outpatient formulary. Many of the drugs in the denied category are appropriate for in- and outpatient surgery and emergency room, clinic or office settings, and are covered when billed appropriately.
- Some drugs in the denied category may be allowed under certain circumstances. These will be addressed on a case-by-case basis.
- Utilization of drugs in the authorized category is subject to department policy and appropriateness for the accepted conditions.

KEY TO STATUS AND REPRESENTATIVE DRUG INDICATORS:

Status:

- A = Allowed
 PA = Prior Auth required
 D = Denied
 O = Other (Will not pay through L&I's Point-of-Sale System)

Representative Drug:

Blank – Self-explanatory or used mainly for compound drugs.

* No drugs currently listed in the therapeutic class.
